except sending back the money to Galloway's, with a letter to say you did not do it. It was upon my mind aight and day. I was always planning how to accomplish it; but for some time I could not get the money. When Carrick came to Helstonleigh he was short himself, and I had to wait. I told hum'l was in an awful mess for the want of twenty pounds. And that was true in more senses than one, for I did not know where to turn for money for my own mess. At last Carrick ey for my own uses. At last Carrick gave it me he had given me a dab or two before, of five pounds or so, of no use and then I had to wait an oppor-tunity of getting it to London to be posted. Carrick's departure afforded that I wrote the note to Calloway with my left hand, in printing letters, put the money inside it, and Carrick ful ourls, and Carrick laughed till he was hearse at the notion. Bother take f the letter, and then he put his hand given it up, by that time, and thought nebody in the world ever had such luck as I got. At last it came; and all I can say is, I wish the post office had taken that, before it ever did come. Of all the crying shames, that was the worst! The old carp got the money, and yet would not clear you! I shall never forgive Galloway for that! and when I come back from Port Natal, rolling in wealth, I'll not look at him when I pass him in the atreet, which will yet him uncommonly, and I don't eare if you tell him so. Had I wavered about Fort. Tom slid off his perch and went straight up to Arthur. "Arthur, I beg your pardon heartily for the harsh words and thoughts I may have given you. I was just a fool, or I should known you could not be guilty. Were you screening Roland Yorke?"

"No," said Arthur, "I never suspected him for a moment. As to anybody's begging my pardon, I have most cause to do that, for suspecting Hamish. You'll be all right, Tom, General-

apree I have had since I came to London, but there's no room, so I'll conclude sentimentally, as a lady does, "Yours for ever and ever.

"Roland Yourn."

You must not think that Arthur Channing read this letter deliberately, as you have been able to read it. He cand but skimmed it—skimmed it with straining eye and burning brow; taking in its general sense, its various points; but of its words, none. In his everyment—his perplexed confusion—he started up with wild words: "Oh, father? he is innocent? Constance, he is innocent? Hamish? forgive—forgive me? I have been wicked enough to believe you guilty all this while."

To say that they stared at him—to say that they did not understand him would be poor words to express the surprise that fell upon them, and seemed to strike them dumb.
