RECENT ELECTION CASES.

The decision in the Halton case personally disqualifying Mr. Barber has been such and on appeal, the judges preforing to accept their Justice Draper's view of the evidence of the Robbins family to response that branch of the matter. This practically decided the appeal against Mr. Earber, but it appears from the remarks of the Court that if the evidence in rebuttal against the Robbins' testimony had been given at the proper time the result would have been different even with Chof Justice Draper on the bench. For Mr. Earber there will be a great deal of sympathy. A new terrous placed before Parliamentary candidates, not only may thought that is the Changions' will be selection the machine, the bigher price than ordinary machines, there is not only may thought that is the Changions' will be insent doubt that is the Changions' will be provided in the conductive machines.

trial flasty denied promise of money the dealed of promise of employment was not so full and explicit, and the Judge (Chief-Justice Draper) held Mr. Chiebolm personally guilty of corrupt practices and he was disqualified. In appeal, however, Mr. Chiebolm part in affidavits to the effect that he had intrended to have maked of infofitations that Mr. Surgent, Sir, never made full and positive denial of the promise of employment and thought he had done so. His statement was accepted by five judges and a new trial was ordered before a new judge, with the significant recommendation to the petition entirely without costs to either party."

—The reserved point in the West Peterboro' case concerning Mr. Taylor has been decided in Mr. Cox's favour, who is not, therefore, personally disqualified, as was unblushingly stated by Mr. Lauder or Mr. Bouitbee at Fencion Falls Friday night for the purpose of getting a cheer.

Mr. Cox will be a candidate for reclection and will no doubt be returned by a handsome majority.

In the Muskoka case Mr. J. C.

Miller has been unseated and personally disqualified. Mr. Miller's of fence consisted mainly in promising Government patronage; and although Judge Wilson, in pronouncing judgment, expressed regret and hoped the case would be carried to appeal, we cannot avoid the conclusion that Mr. Miller is one of those persons who are better out of politics. Mr. Miller is either partly wanting in wit, or he is a coarse and unscrupulous adventurer, and we are somewhat surprised to find him set with the Reform party in any way. The extreme Orange party, always Conservative, strongly support Mr. Sargent, and thus add another proof of Mr. Sargent's party proclivities. Reformers in East Peterboro', therefore, and not be deceived into supporting Mr. Sargent as a Reformer. He is a Conservative, but an honest one, and one who deserves better treatment from the hands of his former friends. He will perhaps receive a few Reform votes will perhaps receive.

Capt. Neelon has been personally disqualified—a severe sentence, which has been appealed against—but it is one that will teach candidates to be more careful. There is no honour or advantage to be gained in buying a seat in order to defeat it, buying a seat in order to defeat it, buying a seat in making his hundreds and thousands in "promoting" legislation. been very jubilant over these cases; and are doing their utmost to make political capital out of them. The measure of their success will be governed by the manner in which the Reformers accept the lesson. The record of the Tories is so irretrievably bad that their extravagant exultation can have no weight with thinking, fair minded people; while the Reform party can easily regain the prestige it has lost by the isolated cases of corruption revealed in the election courts. It cannot do so assuredly by declaring that the Tories were ten times worse; and by desuredly by declaring that the Tories were ten times worse; and by declaiming about the Pacific scandal. Tories are indeed by their own records estopped; but that cannot diminsh the heimousness of corrupt acts on the part of Reform candidates.
