It is admitted by the subjoined letter published in Union des Cantons des in Land over the county. The election in the same path, but he positively refused, is ame path, but he positively refused, is amongst the first to experience it. If a high tariff could protest the labour ling classes from the storm those of the lection, five years ago, he had barely attained his majority. He was then tresh from University honors, and the lection in the publical career. Several priests declared open war on the public may judge for themselves by the subjoined letter published in Union des Cantons des in Line and the lection in Union des Cantons des in Line and the lection in Line and posted and distributed in all over the county. The election is subjected to experience it. If a high tariff could protest the storm those of the lection, five years ago, he had barely attained his majority. He was then tresh from University honors, and the west and in the Dobrusacha. Some tresh from University honors, and the lection fresh from University honors, and the west and it is evident that they have the majority of the electors he was not long in winning their confidence, or in giving proofs of solility, discretion judgment and common sense. There is, perhaps no man of his age now in public in Canada who has before him so fine a promise of future usefulness; and our prediction of five years ago, he had barely attained his majority. He was then fresh from University honors, and the west along in winning their confidence, or in giving proofs of solility, discretion judgment and common sense. There is, perhaps no man of his age now in public in Canada who has before him so fine a promise of future usefulness; and our prediction of five years ago, he had barely attained his majority. He was then fresh from University honors, and the election, five years ago, he had barely attained his majority. He was then fresh from University honors, and the lection, five for it with the dintention of the description of solility, discretion judgment and

implies, but not even in the speeches of opinion among the judges as to the was anything said on this point. One great saving of time and money effect-person attempted to draw out Mr. Mo-Innes, of Hamilton, but he refused to writers to take the evidence of witcommit himself. It might be embarrassing to say just what he would like tice also ensures greater accuracy than for it would probably be exactly what can be secured when the proceedings some one else in the room did not want. His fellow-oitizen, Mr. James Watson, was less retieent. According to him "incidental protection is a perfect humburg," which means that protect humbug," which means that pro-tection from a revenue tariff is really no protestion as all. He is perhaps not so far astray after all,

The Hamilton Times gives these said, "what tariff we want; we want a additional details concerning the Kamtariff that will keep off unfair com- inlatique. "On Saturday night last the propeller Ontario of the Northern Transportation Company's line, ascendcharged her cargo at the Government " in Canada." This is honestly out. The Ontario, which was fully laden, is

cut off. The Turkish commander has a very large army, and will need an immense supply of provisions to sustain it long, but it is probable that he could break cut of the Russian ring, if he so desired. Whether he will be able to break it to admit provision trains can only be decided by an actual trial. Gen. Zimmerman, who has long been idle in the Dobrudscha, guarding the Russian lines of communication from attack on the Dobrudscha, guarding the Russian lines of communication from attack on the left is now moving, apparently to begin the seige of Silistria, but the Turks have so much the advantage of the Russians in the whole eastern part of Dulgaria is negaral to negaring sup-Turks have so much the advantage or the Russians in the whole eastern part of Bulgaria in regard to procuring supplies by means of their railway communications, and their control of the Black Sea that much success from his efforts need hardly be looked for. The Czarewitch with his army is not attempting any forward movement, being doubtless restrained by the condition of the country in which operations would have to be carried on.

ANOTHER TURKISH REVERSE. The chances of the Turks in Armenia are daily becoming more slim. According to last reports Heymann's and Tergukassof's corps have effected a junction, the Turks have undergone a new reverse, and have withdrawn upon the last defensive position between Rrzeroum and the enemy. The bombardment of Kars has been recommenced, and the whole of Turkish Armenia has been placed under the control of a has been placed under the control of Russian Governor.

A SENSATIONAL REPORT is current at Constantinople of the capture of Orenanie and of Cheftet Pasna and several thousand of his troops. Russian accounts make no mention of this affair, and it is, therefore, more than likely that it never occurred. The Dobrudscha army is marching in the direction of Sillstria, a Servian brigade is advancing towards the frontier, and the Montenegrins have surrounded Podgoritza and are preparing to bombard the city; so that general activity prevails at all the principal points at the European seat of hostilities. The next few days may be expected to bring stirring news.

THE HESSIAN FLY.

THE PEST IN OHIO IN GREAT NUMBERS.
A despatch from Sandusky, Ohio, last week, says:—In these despatches the fact was mentioned the other day that the Hessian fly, an insect that destroys the wheat crop, had made its appearance in the fields hereabouts after an absence of seven years. Since the date of that despatch the flies have not date of that despatch the flies have not again as the most fashionable color.

weather continued in the warm that will destroy the insects and save the crop is a heavy frost, and there is not much prospect of that. The mercury hereabouts has ranged between seventy and eighty degrees for the past few days, and that sort of weather is especially favorable for the growth of the fly.

were destroyed by fire Monday morning. Incendiarism is suspected, and some arrests have been made.

—Father Cruci, a prominent Jesuit, and editor of the Civilla Catolica, has seen expelled from the Order for maintaining that the temporal power is not necessary to the well-being of the church.

—A valuable discovery of phosphare

The alarm about the Hessian fly has throughout the province. It has wakened up the farmers to a due sense of their danger and in every district they are carefully examining the growing their fields have been attacked by this their fields have been attacked by this pest. We regret to learn that it has been detected in the southern portion of the county of Wentworth. Mr. Jas. G. Weir. of Saltfleet, this morning showed us, in the folds of the leaves of a stalk of wheat taken from his farm, a number of the pupe of the fly, which look like slender or badly filled flax.

He has in himself the principles of R hexplorers and Cambetta, Perhaps he dreams recogning for his country, in a more or less than future, the unappreciable advantages, of the

THE MEETING OF MANUFAC

The long-looked for meeting of manufacturers at Toronto came off last week and temed out a wrotched fasco. Notwithstanding the much-taiked of fact that the Secretary of the Associaion spont some weeks in drumming up recruits, even the Mail, with every disposition to exaggerate, admits that there were only 50 or 60 persons present. The President of the Association put the attendance at 50; from sources we learn that it did not exceed an average of 25 or 30 for all the seasions of the convention. In view of the efforts made to get an influential and representative delegation together ted to pay up at once. The this meagre attendance may fairly be taken as the measure of the interest taken in the question of protection by the manufacturers themselves; the

only interest taken in it by other classes of the community always excepting Tory politicians who make use of it as a stalking horse, to assist them in reaching the Treasury benches is this meeting too long. It is a bad time to get up an organized agitation time. With returning prosperity the lost all its virtue as a means of either

eliciting popular sympathy or making length the speeches delivered at the new nothing that has not been better of the Government, we propose to no said and completely answered over tice only one more resolution, the the President, Mr. W. H. Howland, who possesses a good deal of ability of a certain order, and would make a sive manufacturers of pig iron; at least passable public man if he were weighted with fewer erotehets. Had he chosen, as a practical statesman has to do, to grapple with the difficulties of the subject instead of reiterating the canada to smelt it at a profit, by keep bably at the former place the "circus" sophisms and at captandum appeals of the average protectionist, he might have done something to settle the question one way or the other. He may say and for that matter the protectionists in opposition all say that it is not their business to do more than stir up. All tool-makers, machinists, representative man comes forward We print on our first page a timely advocate the principle of protection, founders, blacksmiths, farmers, and either to propound a policy or to justify leaving to the ministry of the day the lumberers will be up in arms. —Eight barge-loads of match splints, amounting to over twenty-six thousand boxes, have been shipped from Buckingham, on the Ottawa, this season, to the match factories at Wilmington, Deleware and Westville, Conn.

—It is understood that the wages of employees on the Great Western Railway, which were lately reduced five per cent, will be at once raised to the old rate, in consequence of the immense though business now done on the line.

—A bill has been introduced into the United States House of Representatives for the appointment of commissioners

-Frances Robinson, known as Millie Seville, travelling with Emerson's Minstrel Troupe, committed suicide at the Daly House, Ingersoll, last Thursday, by shooting herself through the heart with a revolver. Mental depression is supposed to have been the cause. Death was instantaneous.

laden.

-Sir John Macdonald toid the Hamiltonians that Riel was a rebel. There was nothing particularly fresh in the information, but it was rather shabby to call the Frenchman names considering that he acted so friendly to Sir John when in 1872 he stepped aside in Provencher and allowed Sir George Cartier to take his seat.—[London Advertiser.]

Cartier to take his seat.—[London Advertiser.

—A conference has taken place at Fort Walsh between Sitting Bull and General Terry's Commission, at which the former declined the proposals of the latter that the Sioux should return to the agencies, and expressed his desire to stay on British territory, as "there was no blood in the country of the White Mother, and under her protection they wished to remain."

—Excellent reports have been received at Quebec of the Beauce gold mines. The company managed by Mr. Lockwood has seventy men employed, and is engaged in washing the precious metal out of a vein of rotten quartz. The St. Onge Company, consisting of seven partners, is said to have succeeded during the past summer in obtaining an average of \$1,000 worth per week of gold by washing the alluvial soil.

—The Grand Trunk half-yearly report submitted the other day shows a reduction of \$60,000 in the working expense. -The Grand Trunk half-yearly report submitted the other day shows a reduction of \$69,000 in the working expenses after paying all preference charges, leaving a balance of \$781,000 to be added to capital account. The President announced a full report of the negotiations with Mr. Childers at the meeting. He believes the understanding establishment.
