A Berlin correspondent learns, on meet trustworthy antherity, that Bismarks offered his good effices with the view of bringing about an understanding between England, Austria and Russia. It is untrue that he suggested a preliminary conference at Berlin. It is hoped the result of his efforts will be known on Thursday. If they are successful, he will probably suggest holding a Congress there shortly.

A Vienna correspondent says, according to a well founded report, Bismark is endeavoring to obtain the simultaneous withdrawal of the British fleet from the Sea of Marmora and the Russians from the neighborhood of Constantinople.
