Indian Wheat Exports.

The amount of wheat sent from India to England in 1877 has given rise to the belief that within a few years England she has a surplus, but because the to afford it. every pound of grain prodency do not know what a really hearty and satisfactory meal is from year's end es 20t loose in New to year's end. In Madras the cultivatd in the shape of rent, and must sell their grain to get the cash needed to give to the tax collector. Again, much of the

Liverpool Grain Market The subjoined extract from a leading grains, and toot crops, the harvest will not be such a bad one, after all. [World.]

O.IKWOOD.

Respondence of The Park!

Vermont has a phenomenon in the shape of a tramp. The other day in swastold there was nothing to give him to unless the gathered potato bugs at the neents a quart. "Very well, I'll try." said he. The first day he "picked" a quarts, and the next day 25 quarts, and the next day at the procedure of the trade is firm, and day to be ereceived. The trade is firm, and day to be received. The trade is firm, and a day and the several places advise of an improve ment of kit of to 1s, per quarter in wheat. Off coast, though not active, prices ment of kit of the same that of the trade is firm, and the several places advise of an improve ment of kit of the same that o
