EDITORIAL NOTES

It is stated that Mr. Burke is to retire from West Durham in order to make way for Mr. Blake. We trust this is correct as the country could ill afford Mr. Blake's absence from the House.

Here is an American "National Policy" item, the like of which we may expect in Nova Scotia in due course. "High coal operators have voted to increase the price of coal to fifteen cents per ton."

London Daily News—The retirement of the Macdonalds and the return of Sir John A. Macdonald to power are events to be greeted by people outside the Dominion. We must not be beguiled for some time by some of the glowing news from Canada.

Lord Dufferin sails for home in the Polynesian tomorrow. A cable despatch states that the Duke of Edinburgh, in the flagship "Black Prince," goes, to escort the Marquis of "Strathmore," with the Marquis of Lorne and the Princess Louise, to Canada.

After the few appointments made by the outgoing Government that of Mr. W. Buckingham to the post of Deputy-Minister of the Interior will be heartily approved by a wide circle of friends in newspaper and political circles, and we may truly and justly congratulate Mr. W. Buckingham on his well-earned promotion.

Brooklyn Patriot—"That the Canadian people have made a mistake will, we are confident, become clear to them by-and-by, but for the present it is a matter which is a matter of our own hands, in addition to the hands of our rulers, and we must not be beguiled by some of the glowing news from Canada."
