COMMERCIAL NEWS. Crrice of The Canadian Post, Lindsay, July 3, 1879. Crop Prospects.

Haying has commenced in this section and promises an unusually heavy yield. The grain and root crops in this county ever, that farmers are not disposed to grain is exchanged for good bank bills.

Reports from all are of the brightest character. The harvest in the States will, it is believed, be a fair to large one. In the old not satisfactory. The Mark Lane Ex- Lindsay press reports of the crops in Great Bri tain that wheat promises but fairly on mixed and light soils, and the conditions of heavy lands causes well founded apprehensions. The condition of the pastures now is satisfactory, if not luxuriant, but the hay crop probably has suffered in quality in consequence of the absence of sunshine. The general aspect of the country is a month behind hand. The Ecoth root crops urgently require the return of sunshine.
