MR. CROOKS'S UNIVERSITY

of a century been identified fair way of being carried out. The

chemistry, although there might have The Halifax Chroniele thus de scribes the results of the National Polwith equal efficiency, and we say this with no desire to reflect upon Professor Pike. Since then the position of telessical professor has had to be filled, and Mr. Grooks again everlooked the acquirements of Canadians or teachers who had long resided in Canada, and imported a gentleman "from home," to whom he has unwisely endeavoired to give an increased importance by the filling," In the spring there was a wail of distress from Ariohat. From the board of education and a much larger number of parents than in previous years, which goes to show while had long resided in Canada, and imported a gentleman "from home," to whom he has unwisely endeavoired to give an increased importance by detection of the district of the divisions examined.

There were previous particular, there were previous particular and the particular and a much larger unmber of education and a much larger and more general interest is being taken by our townspeople in educational matters. The rooms were tales of 'strikes.' While we pay to Redpath about a cent a pound on angar, we lind foreign vessels employing the particular and provious particular and more general interest is being taken by our townspeople in educational matters. The rooms were tales of 'strikes.' While we pay to Redpath about a cent a pound on any provious years, which goes to show that deeper and more general interest is being taken. From the board of education and a much larger number of parents than in provious years, which goes to show that deeper and more general interest is being taken. From the board of education and a much larger number of parents than in provious years, which goes to show that deeper and more general interest is being taken. From the board of education and a much larger number of parents than in provious years, which goes to show that deeper and more general interest is being tales. From the board of education and a much larger number of parents than in provious years, which goes to show that deeper and more general interest is being tales.

oreating him vice president. Me.

Worsald is a very young man, and although a man of some ability has nover shown such decided talent as mover shown such decided talent as would warrant the Minister of Education in placing him over the heads of old professors of the college with a proventionary title to the presidency, which must in the nature of things before many years become vacant again. We do not for the present criticize and object to the appointments themselves on their merits so much as we protest against Mr. Crooks's persistent determination to overlook the fair claims of Canadians and graduates of Toronto

of to carry the raw masterial of its relining.
