Does farming pay?

"Does farming pay?" is a question frequently asked and several articles have appeared in this paper about it. In this connection we observe in an American exchange the subject of "what account for 1904," and would like to have the views of some of our farmers as to how they have realized this year. Will some of our readers give us the figures? They might include barley and other grain. The following is from 11 acres; the soil being a clay loam. Yards manure was well worked in at the rate of 100 loads per acre, and the phosphate was applied in the drill at the rate of 100 pounds per acre, the wheat was very plump and nice and of the Ditch variety. The yield it will be seen, was a little over 11 bushels per acre.

Phosphoric Acid.

Phosphoric acid is a very valuable fertilizer. It is especially valuable for the growing of cereals and other crops. It is also valuable for the growing of fruit trees and other plants. It is a very cheap fertilizer and is easily obtained. It is a very valuable fertilizer and is easily obtained. It is a very valuable fertilizer and is easily obtained.

GIVING BETTER VALUE

THAN EVER BEFORE.

IN TEAS

We maintain a leading position. Compare our Prices and Quality and you will find us ahead.

SPRATT & KILLEN,

Pain-Killer.

SUBSTITUTES!

The public are cautioned against a custom which is growing quite common of late among certain classes of medicine dealers, and which is this: When asked for a bottle of Pain-Killer, they suddenly discover that they are "sold out," and have another article just as good, if not better, which they will supply at the same price. The object of this deception is transparent. These substitutes are made up on the great reputation of the Pain-Killer and are sold by the dealer at about half what the Pain-Killer costs. The Pain-Killer, which is sold by the dealer at the price of 10 cents, is a very good medicine, and is sold by the dealer at the price of 10 cents. The Pain-Killer, which is sold by the dealer at the price of 10 cents, is a very good medicine, and is sold by the dealer at the price of 10 cents.
