Jupophosphites.

IT contains the elements essential to the animal organization, the oridizing agents and tonics. In combination with the stimulating agent phosphorus, possessing the merit of being slightly alkaline, and is dispensed in the convenient and palatable form of a syrup.

Its effects are usually visible within twenty-four hours, and are marked by a stimulation of the appetite, the digestion and assimilation entering directly into the circulation; it tones the nerves and muscles; exerts a healthy action of the secretions; neither disturbe the stomach nor injures the system under prolonged use, and may be discontinued at any time without inconvenience. In a word, it possesses the stimulants to arouse the strength, the it, and merit of a high degree.
