

GENTLEMEN

A word with you, too, if you please. We are now in receipt of SAMPLES of our importations of ENGLISH AND SCOTCH TWEEDS for Fall and Winter wear. Suitings, Coatings, Vestings, Pantings and Overcoating will all be in stock within the next ten days. Our CANADIAN GOODS are already in stock. The IRISH and FRENCH GOODS will also arrive within the next ten days, so that when our stock is complete we will be in a position to show you as large and varied an assortment of fine goods as can be shown by any retail house in the country, and for elegant fit, leading styles, a perfect and true cut, superior finish, exquisite taste and reliable workmanship we stand unrivalled.

SOOTHERAN, CATHRO & MARK,
CITY CLOTHIERS,
No. 2 Dobson's Block, 2nd door West of the Post Office.
July 23, 1911.

A word with you if you please. Last week we notified you that we were in receipt of a nice lot of BOATING SHAWLS, and the result was that by Saturday night every one was cleared out, and to keep things lively for next week we have secured another lot of REGULAR BEAUTIES. They are the correct thing for evening wear during the hot weather. Come and see them, whether you want to buy or not; the low price tempts every one. We are in receipt of several invoices of NEW GOODS for the early fall trade to arrive within the next ten days. They contain everything that is nice for the ladies, and we intend to sell them at prices that will cause a sensation in town. Remember that we are the ONLY STORE IN TOWN that sells exclusively for CASH, hence the cause of creating a Sensation with low prices.

SOOTHERAN, CATHRO & MARK,
CITY DRAPEES,
No. 2 Dobson's Block, 2nd door West of the Post Office.
July 23, 1911.

CROWN JEWEL FOUR
NOTICE.
This Flour is made of No. 1 Hard
Wheat by the new process, combined
with the best methods and machinery
in operation in the best Hungarian
Mills, and will produce from
30 to 40 lbs. more bread per barrel
than the best superior wheat flour.
Therefore, the first cost though
higher, is fully compensated in the
increased yield of bread as well as
being a much better quality and more
nutritious, having a much larger
percentage of gluten and less starch
than ordinary wheat flour. To those
who may not be familiar with the use
of this kind of flour, we suggest
mixing it moderately soft, which will
require considerably more water than
ordinarily used. Knead thoroughly,
and bake with a strong heat and in
such a manner that bottom and top
shall be equally well baked.
