IDVERTISEMENTS THIS

(Toronto World) Muchola sections, but it will afford the section of the late on the between act were through route between act was appearant to be the great antitional products of the surface of the of the

omination and settlement of the country, and are settlement in model in would not desired in continuous and progressive decires of the form of the for

doubt, profitably extended. The plea-mere of the viett to Peterboro was heigh-tened by a delightful sail on the "Golden-five" in the evening, as the guests of the fleview and the Examiner. From Peter-

one of the behavior to consider the cover design that one to the billion kittens with two bendeding in the cost should be considered during consequences.

The berry should North Star understanding the consequences of the substantial consequences of the s

tion which, I trust, I shall never be ambitious to emulate. I therefore leave to him the distinguished, but rather armival. The energetic and popular local member, Mr. J. C. Miller, was in the village, and with Mr. W. Beatty, a former member, and one of the celebrated "mine marryre," Judge McCurdy, and others, gave the visitors a heavity welcome, and entertained them at an excellent dinner served in the town hall. Although rock and lumber appear to be the great national products of the place, there is excellent farming land a short distance back, "land as fine as any in the best part of Ontario," I was informed by a Methodiat minister etationed at the place. The vegetables, rocts and grains are superior to those maintenance of the presence of the return trip was somewhat marred by rather rough weather that produced cerebral agitation and stomachio disturbance among ame members of the party. On the way down Mr. Jones of Recton, the great bee man, and Mr. W. F. Clarke, the well-known agricultural editor, who is to edit the "Rural Canadian," got of the steamer for the cerebral distance of the steamer for the bee farms which the steamer for the bee farms which the steamer for the bee farms which the steamer for the cerebral agitation and stomachio disturbance among the maintenance of the party. On the way down Mr. Jones of Recton, the great bee man, and Mr. W. F. Clarke, how does he now stand before the way down Mr. Jones of Recton, the great bee man, and Mr. W. F. Clarke, how does he now stand before the way down Mr. Jones of Recton, the great bee man, and Mr. W. F. Clarke, how does he now stand before of an ether colourne are concerned. The politic and the "Rural Canadian," got of the steamer for the bee farms which
