TOWN COUNCIL.

REQUIAR MEETING—FINANCE REPORT
—PAYING TAXES — OBSTRUCTING
KENT-ST.—A WOODENWARE FACTORY.

The regular meeting of the town council was held in the council chamber on Monday evening last. Present:
Mayor Taylor, Reeve Deacon, Depreveve Diamond and Couns. Inglis, Winter, Melville, Wallace, Cahill and Brooks. The minutes of the last meeting were resd and confirmed.
The Mayor advised the council that \$4,000 worth of bonds were still on their hands. He had received an offer to take them at a figure, but thought by waiting for a few weeks that there was a probability that money would be cheaper, which would give them better terms.

Reeve Deacon concurred in this

ides.

The Mayor also said that the disbursements on account of charity, of which the largest items were from coffin and burial expenses, amounted to \$20.50 up to date.

COLBORNE-ST. DRAIN.

On motion Mr. JOHN CLARKE was heard regarding this drain, which he said had been filled up by parties residing above him, and it now threatened to flood his premises.

Couns. CAHILL and WALLACE argued the point at some length as to the cost.

COMMUNICATIONS.

The CLERK read communications bridges have some alterations made so as to give the relief asked for by Mr.

Mr. J. W. Dill, reeve of Muskoka.

Mr. J. W. Dili, reeve of Muskoka, asking the council to empower the mayor to receive subscriptions on behalf of people rendered destitute in that locality by the bush fires. It also prayed that the council make a grant, if possible, in the same direction.—Upon the suggestion of Reeve Deacon, who judged that this was a matter more to be dealt with by the county council, it was agreed to refer the petition to that body at its next session in December next.

From Rev. J. A. Rogers, asking exemption, as by law permitted, on his assessment.—Referred to the finance committee, the collector to look into the amount of assessment and grounds of exemption.

From F. Crandell, asking the council to remit the taxes on steamer Vanderbilt, lately destroyed by fire.—Left in the hands of the cierk to enquire as to amount of assessment, and to report to the council at the next meeting.

REPORT OF FINANCE COMMITTEE.

Reeve DEACON presented the report, recommending payment of the subjoined items:

Charity.

J. B. Kaowison, sundry orders, paid \$14.35 A. Primean.

W. M. Robson, " 100 Mr. W. Grace came forward and and address the council. As a member of the committee on manufactures he wished to lay before the council has a member of the committee on manufactures he wished to lay before the council has a member of the committee on manufactures he wished to lay before the council has a member of the council. As a member of the committee on manufactures he wished to lay before the council has a member of the council. As a member of the council has a member of the council. As a member of the council has a member of the council has a member of the council has before the council has a member of the council ha

agart. This was just such enterprises as they needed.

Reeve DEACON would hold out very little hopes of a bonus being granted. He would give a free site and exemption from taxes. The committee on manufactures showed be got together promptly, and a stock book opened. He would take \$600 stock in the concern himsalf.

himself.

Mr. GRACE thought it well to correspond with Mr. Fuller, and have that younded and the coule of the country of the manufacturing committee was instructed to the country of the manufacturing committee was instructed to Mr. Fuller and make the necessary arrangements see as to any these properties.

LINDSAY BOARD OF EDUCA-

PORT--- REDUCTION OF TEACHING PROPOSED-THE

school board was held at the council room on Wednesday evening of last week. Present,—Mr. W. Grace, chair-man; and Mesers. Bradburn, Heap, Gregory, Wray, Browne, Crandell, Irwin and Deacon. The minutes of last regular meeting were read and confirm-

The SECRETARY read the report of at

tendance in the public schools for the months of September and October. The report showed a total attendance during September of 578 pupils with an average attendance of 439; for October, a total attendance of 620, with an average of 767 pupils. The high school showed an attendance of 95 pupils, with an average of 31 during September, and 97 with the same average for the month of October.

The Secretary read the report of attendance in the public schools for the months of September and October. The report showed a total attendance during September of 578 pupils with an average of 767 pupils. The high school showed a total attendance of 620, with an average of 767 pupils. The high school showed an attendance of 95 pupils, with an average of 81 during September, and 97 with the same average for the month of October.

In reply to an enquiry the secretary said that there were three teachers engaged in the high school and tweive in the public schools.

A discussion ensued on the average of pupils taught by each teacher in the high school compared with those taught in the public schools.

Capt. Crandell. thought that an expenditure of \$3,500, which was the amount in a lump sum of the high school salaries, was too much to pay for the work done. He believed the cost excessive, and urged that some eduction be made with some efforts in the direction of economy before going before the people to ask them for a bonus of \$10,000 to provide accommodation for the collegiate institute. It occurred to him that by dispensing with a teacher \$600 would be saved on this one point. He wanted to see the positions of care-der, and was convinced that it could be done much cheaper than at present.

Col. Deacon thought that certainly there was a great discrepancy between the number of pupils taught by the public and high school teachers. He was not sure that such a large staff was required.

The Chairman wished Mr. Tilley, who was present, to give the board his

public and high school teachers. He was not sure that such a large staff was required.

THE CHAIRMAN wished Mr. Tilley, who was present, to give the board his views on the matter.

Mr. TILLEY said that during last year the attendance averaged about 100 pupils. The first half of the year showed an increase of fifty per cent, the present term the average was between 30 and 90. He understood that 1830 had been a year of rapid growth, and the first half of the present year had also showed a high average. He judged that the school would give for some terms an average attendance of about 30 pupils and other terms from 130 to 150.

A member enquired if they could not get along very well with one teacher less in the high school.

Mr. TILLEY said that between 75 and 100 pupils could be managed by four masters, for eve y 40 pupils additional an additional teacher would be required. The staff at present engaged could manage about 150 pupils.

Col. Deacon thought that the matter could be more intelligently discussed if a special committee were appointed to confer with the head master to see if any reduction could be made in the present staff and report at the next meeting.

A motion was carried appointing

ing.
A motion was carried appointing
Mesers, Itwin, Wray and Bradburn as
such special committee.

Capt. CRANDELL gave notice that he would introduce a motion asking tha the position of caretaker be filled by tender.

The finance report was handed in. A number of accounts were read which upon approval were ordered to be paid.

THE MODEL SCHOOL. The Chairman said that the change in the law would upset the present arrangements between the board and Mr. McFaul. He believed the tenor of the law was that the model school should be taught during day hours. If Mr. McFaul was taken away from his duties

a substitute would have to be to take his place. This was a matter.

A number of trustees gave their views, when it was determined to leave the matter in the hands of the committee who had the high school staff question to deal with.

TEACHER'S PERMIT. One of the lady teachers of the public schools having applied for the intervention of the board to assist in getting her a permit from the minister of education to teach for six months, after some discussion the chairmen was requested.

discussion the chairman was reques to correspond with the department. TRUANCY.

TRUANCY.

The Inspector, Mr. Knight, called the attention of the board to the large amount of truancy that was being carried on by pupils, who not only refused to attend but annoyed those who did. He asked the opinion of the members as to the best method of dealing with it.

Col. DEACON said he had assumed the authority to tell the constable to take up all who were found interfering with any of the school children.

Mr. GREGORY was sure that the send ing of monthly reports of the children's attendance and general standing was a good thing. If the report was not too elaborate and complicated it was a great check on irregular attendance. Parents had an apportunity of revising what was their children's standing at school, and the resuit was in every way beneficial.

The matter dropped after some further discussion during which it was understood that the monthly reports should be resumed.

NO PRIZES

Mr. KNIGHT wished to know whether the board were going to give prizes at the christmas examinations.

The board breaking up for adjourn-ment just as the question was put pre-vented any understanding being arrived t.

Before leaving the room the secretary ntimated that the board would meet to

intimated that the board would meet receive the report of the committee the call of the chairman. People are beginning to find out the true irtues of Dr. Carson's Stomach and Constitution Bitters, and they are becoming the avorite family medicine of the Canadian unbile for all derangements of the stomach, lowers, liver and kidneys. In large bottles to 50 cents, special agency for Lindsay at A. Highnbotham's —56-4.

crops in Northern Russia will result in famine.

The deserving poor in Toronto are to be treated to free breakfasts on Sundays during the winter.

It is reported that a syndicate of English capitalists has been formed to invest \$100,000,000 in America.

The fighting among the Zulu chiefs is reported to be spreading, and English intervention is imminent.

The Nihilists now threaten to prevent the coronation of the Czar unless he makes certain specified concessions.

Great inundations have occurred in Hungary and Servia, and the town of Temesvar and numerous villages are in ruins.

on his farm, for which he received \$60 per ton.

—Myrtle green will be the fashionable color for ladies dresses this winter. Deep blue will be the fashionable color for the faces of the men who have to pay for them.

—The latest phase of the "no rent" agitation in Ireland is the murder of a farmer near Carrigan who had persisted in paying his rents, and had been boycotted for so doing.

—A teller in one of the St. John banks overpaid \$1,000 on a cheque. The receiver was known but denied all knowledge of the affair. Threatened with arrest, he refunded.

—Mary and Caroline Winters, 6 and 8 years old, were burned to death on their parents' farm, near Joliet, Ill. They had lighted a bonfire, from which their clothing ignited.

—Ball and Fidlers at the authorism.

They had lighted a bonfire, from which their clothing ignited.

—Bell and Fidler are the euphonious names of two of the clergymen whom the Toronto synod appointed on the musical committee. The announcement created great amusement.

—A rather staggering item is going the rounds to the effect that a rifle of silk has been invented in Japan which possesses all the advantages of a steel weapon with only a small part of its weight.

weight.

—Both of Queen Isabella's younger daughters are soon to be married—the InfantaEmaila to anAustrian Archduke Queen Christina's brother, and the Infanta Maria della Paz to the heir ap-

der assistance.

—It is stated that during her sojourn in England H. R. H. the Princess Louise has had several pieces of glass removed from her ear, which had remained there since the runaway accident at Rideau Hall the winter before

last.

—Down in Iows they have been trying the experiment of electing women as superintendents of schools, and the the experiment has resulted in success. Under their administration the schools have improved and the expenses have been reduced.

—Mademoiselle Grevy's trousseau was so simple one might think it was intended for a quakeress. Strange to say, this young Frenchwoman cares nothing for laces and puffings and enjoys

nothing more then following her father, gun in hand, on his shooting excursions.

—The Irish Times states that a company is being formed, with a capital of about \$15,000,000, at the head of which will be a member of the will be a member of the royal family, for the purpose of purchasing waste lands in Ireland, to be reclaimed and let or sold to tenants for cultivation on

easy terms

—Fick, a wealthy farmer, who resided about three miles from Port Rowan in the township of Walshingham, was found dead in a grave'yard near his residence Monday morning. He had been missing since Saturday afternoon.

cause of his death.

—A despatch from Quebec says some 25 families of people from Anticosti arrived in port by the steamship Napoleon on Saturday morning. The poor people had no means of subsistence on the island, and will probably be sent up on the free grant lands by the government and supplied with food and seed until next summer.

—A religious sect in the United States, who have some followers in Canada, have fixed the 15th of the present month as the end of all mundane sent month as the end of all mundane things. An irreverent paragrapher advises farmers to bring in their provisions to market and not wait for a further rise, as they might be a further rise, as they might be a further rise.

ons to market and not wait for a further rise, as they might as well sell while there is time.

—In London (Eng.) a war has been begun by the coal owners against the middle men. The Marquis of London-derry owns a railway to Seaham and a fleet of steamers, as well as a seaport. Earl Durham owns many collieries and a fleet of steamers, and both have now resolved upon opening wharves for retail trade on account of the exorbitant prices heretofore charged by the middle-men.

-St. John N. B. has a sensation. —St. John N. B. has a sensation. A few days ago two or three men drove up in a waggon in broad daviight to a two-storey vacant store, they loaded their vehicle with some furniture that was inside, the counters, doors, and sashes from several windows, and then drove off. The men were thieves, and as the deed was witnessed by scores of people who resided near by, it was undoubtedly one of the boldest that has ever happened in St. John. There is no clue to the perpetrators.

the perpetrators.

—The lot of the Virginia sci is not a pleasant one. One of them has been "telling tales out of his school," and thus relates her story: "It is the fashion in my school for notes to come and thus relates her story: "It is the fashion in my school for notes to come to me from the parents written on the children's slates, "Sary Ann is by no means to be let sit side of Uberis Tuck.
