There was a general movement towards the door as the Magistrate rose, but one man sat still from sheer inability to move. That man was Andrew Bowie, who had first gaped in surprise at the unexpected order of the magistrate regarding Beautiful Bessie, and then allowed his head to droop to conceal the dismay overspreading his features.

"If they look for her they'll find her "Well! what then?" pursued Andrew, looking pale with concern.

Another name for locusts signifies to spring," to describe that species which move on by swift and long leaps. They are known to bound three hundred feet and more at one spring, that is, about from where I now stand across to the court-house, and to repeat it so often that they are compared to the warhorse dashing over a dield, making as much as fifteen miles an hour.

Another name for locusts means "darkness," to describe how day is almost turned into night by the vast multitudes that sometimes fill the air. Dr. Kitts, who travelled much in Passine, says he has seen mid-day darkened to evening shades by the layers above layers overhead so thick that no sunlight could shine through.

Darwin, the famous naturalist of our time, tells of one time when he and his mark ware oversities.

feet thick over their heads, so that the sun might almost as well be blotted out.

One more name only I refer to out of several besides, the name "tsaltsal," which no doubt refers to the shrill cry they utter at particular times.

This is referred to in Deut., xxviii., 42.
"All thy trees and fruit of thy land shall the shrill locust c nsume."

Now, it so happens that the Hebrews had a word signifying "to pray" which sounded very much like "tsaltsal;" and it it so happened that this species of locust is in the habit of raising its forelegs in the artitude of prayer, and therefore the Turksand Arabs fancy that this peculiar cry "tsaltsal" means, "pray which so colling the transfer of the Turksand Arabs fancy that this peculiar cry "tsaltsal" means, "pray which so colling the transfer of th peculiar cry "tsaitsai" means, "prav. pray," and fancy the locusts are sum-moning them to pray to the prophet Mahomet, which there and then they
