Railway Notes, The Grand Trunk is so pushed with freight that the Midland from Toronto to Belleville is being run to the west of the line. Work on the Toronto & Ottawa railway has been suspended until the 1st of April. It is reported that the Pacific railway company have offered to purchase the charter of this road, but it is not likely that it will be accepted.

The Belleville details says that arrangements have been made with the Midland railway to 'pass' forty cars each day from Belleville to Toronto belonging to the Grand Trunk and vice versa. This change was necessitated by the unusually heavy freight traffic on the Grand Trunk at present.

The committee who had the arrangements in hand for their appearance here are due much praise, particularly Mr. W. J. Flaville, who is a host in himself. A large number of the audiences were from the county, and Lindsay, showing the interest felt by the community at large in this unrivalled organization.
