at G. A. METHERELL'S. 154f.

New Crockery!

Just received at A. CAMPBELL'S
Casks, 2 crates, and 10 cases
of New Crockery and Table Goods,
direct from the old country.
Also a large assortment of
Fine Glassware. 191f.

Police Court.

(Before A. O'Leary, P. M.)

On Friday of last week the case of Mary Graham against J. Lane for assault, and a second charge for using indecent language, came up at the police court. Lane was convicted on both charges and fined $1 and costs for the first offence. The punishment for the second offence was reserved. A counter charge of Lane against Mary Graham, for larceny of a cap, was dismissed.

Thoroughbred Berkshire Boar.

Mr. F. P. Gillogly last week visited the stock farm of Mr. Jos. G. Snell, Edmonton, Peel Co., Ont., and purchased a fine young Berkshire boar from the best stock on the farm. His sire, Royal Stewart, [3094] was imported last year by John Snell's sons. His dam, Winsome Sallie, [3018] was imported by the same firm last year also. Royal Stewart won first prize at Bath, West of England show in 1881, and second at Royal show of England same year; imported to Canada and won first prize at Provincial held at London, first at the Industrial at Toronto, and headed first prize herd at both places. Winsome Sallie won first at Toronto and second at London same year.

Lindsay Inland Revenue Collections.

We are indebted to Mr. I. H. Knowlson, inland revenue collector at Lindsay, for the following statement of revenues for the years 1881 and 1882. It shows that the increase in 1882 over the preceding year was $1,483 75

	1881	1882
January	$1,157 78	$1,087 69
February	1,058 91	1,307 14
March	881 29	1,091 10
April	1,058 27	1,701 13
May	812 11	1,276 10
June	1,361 92	1,093 89
July	1,133 16	1,080 82
August	1,281 02	1,824 61
September	1,050 52	1,690 08
October	1,083 17	2,411 89
November	1,187 31	1,500 97
December	2,001 10	2,149 11
	$15,068 81	$20,490 59

Railway Notes.

The train going north on the Victoria was blockaded with snow on Wednesday at McLaren's creek and had to return. Passengers had to remain over until the regular train on Thursday.

The traffic of the Midland railway for the week ending January 6th, 1883, was as follows: Passengers and mails, $6,310 49; freight $6,060 40; total, $12,371 01 as compared with $9,513 38 for the corresponding week of 1882, being an increase of $2,857 63.

The Midland roundhouse at Uxbridge was burned to the ground Sunday morning. The alarm was given between one and two o'clock, when the fire brigade responded promptly. On their arrival at the round house, in which nine locomotives were enclosed, it was one mass of flames. The firemen were delayed a short time on account of the water being shut off at the hydrant, but after some little difficulty they succeeded in getting a small stream to play on the surrounding buildings, it being evident that they could not save the round-house. The loss is estimated at $50,000, and there is said to be insurance to a certain extent.

Dr. Thomas's Eclectric Oil,

fresh supply at
HIGINBOTHAM'S Drug Store.—193.

What they are Saying.

Give us a rest. The Public.
Certainly. THE POST.

Local Brevities.

The edition of THE POST this week is over three thousand copies.

Letter from "A Baldwin Reformer," verses from G. H. F., and some news-letters crushed out.

"Young Man's" letter will be printed next week. The writer is requested to call at this office.

Naomi, the daughter of Enoch, was 380 years old when she married. Courage, girls; while there's life there's hope.

A large dog jumped through a pane of glass in the window of the hall of Veitch's hotel. Although the glass was not large the dog escaped without a scratch.

The Globe says: "THE LINDSAY POST, one of the very best newspapers in Canada, has just entered its 24th year. It improves with age."

Important meeting of Lindsay reformers in the association rooms (over Edward's) next Tuesday evening at eight o'clock. A full attendance is requested.

Mr. James Benton, watch and clock maker, has removed to Mrs. Keeve's shop, where he will do all work and repairs in good style and on reasonable terms. 19-2.

Catarrh is the seed of consumption, and unless taken in time is a very dangerous disease. Hall's Catarrh Cure never fails to cure. Price, 75 cents. Sold by A. Higinbotham, Lindsay.—15-13.

A tobogganing club has been formed—a private affair. The members have about a dozen toboggans, the property of the club, and during the fine moonlight nights of the winter some fine sport is anticipated.

The Orillia Packet, referring to Mr. H. Cooke, says that "Orillia is bound to have at least one druggist in parliament." We presume our coterm expects to see Mr. T. H. Robinson, the other druggist, appointed to the senate.

Jewett & Son of the Central house have this week placed in their new billiard room two fine billiard tables, built to their order by May & Co. of Toronto. The tables are handsome and are well fitted with a liberal equipment of balls and cues.

On Friday morning of last week a house in the east ward owned by Mr. Kencaley and occupied by Mr. Treevin was burned to the ground. A portion of the furniture in the house was burned and the rest damaged by being hastily removed.

The next regular meeting of the Temperance Association will be held on Tuesday evening of next week in the rooms of the society in Hamilton's block. An excellent literary and musical program of amusements has been prepared. All are invited.

The Port Hope News prints this complimentary notice: "THE LINDSAY POST has just entered its twenty-fourth year. THE POST is deservedly liberally patronized by advertisers and subscribers. It is the model provincial weekly of the province."

The steamer Anglo-Saxon has been drawn up on a frame work placed on the bank of the river opposite the paper mill. The hull of the boat is being thoroughly replanked. New timbers will be placed in the interior of the boat and the wheels and upper works repaired.

While Mr. J. Anderson was cutting some lumber with a circular saw one day last week a piece of one of the boards was torn off and thrown violently in Mr. Anderson's face. A severe blow was given about the mouth, loosening several teeth and inflicting a painful wound on the lips.

A theory has been advanced to account for the lowness of water in the river that some thoughtless farmer, between here and the lake above, has allowed his cows to drink from the stream. Word should be passed along among the agricultural community stating the fix we are in just now, and let it be seen to that it does not happen again.

Mr. Richard Rich of the 6th con. of Mariposa brought to town on Saturday last a dressed hog that weighed 367 lbs., and which he sold to the packing house at $8.60 per 100 lbs., netting the neat sum of $15 75, a small allowance being made for shrinkage. A hog weighing 100 lbs was recently mentioned in THE POST. Mr. Rich has passed that figure and now waits for some one to beat his.

Mr. J. Smith of the gas works informs us that before attaching the meters to consumers' pipes that the pipes will be thoroughly tested, with pressure given by means of an air pump. This precaution is taken to ensure that there will be no escapage of gas from defective joints or couplings. After the inspection has been made and the work found satisfactory a certificate to that effect is granted.

Mr. W. Brokenshire informs us that the substance of his remarks at the North Victoria reform convention was misreported. He was not opposed to anything that was done or the manner of doing it, but on the contrary approved of it. He said from information he had received he expected Mr. Fell would be nominated, and his impression was that Mr. Peck would if nominated beat Mr. Fell by a larger majority than he had the last time.

Alterations are being made in the market house to give more room. The market is now so largely attended that the large butter market cannot hold all offering produce and provisions for sale. A portion of the wing formerly taken up by butchers' stalls is being comfortably fitted up and when finished will make a welcome addition. Connection between the two rooms used for market purposes will be made by means of an archway cut through the wall between.

An economical power for small manufacturing establishments is found in the gas engine. Mr. Doty of Toronto, who has manufactured the iron portion of the gas works plant, has now turning out a silent gas engine that is spoken of very favorably. The 1 h p engine running for ten hours at a cost of about 75 cents for gas. Several establishments in Lindsay where small engines are now in use are contemplating putting in gas engines to take the place of steam.

It is likely that Mr. L. Francois Carpenter, Peterboro's phenomenal temperance prestidigitateur, will give in Lindsay an evening seance, devoted to the exposition of dancing. Mr. Carpenter has cut his name on the pinnacle of fame in letters which shall never be effaced. In Mr. Carpenter's dancing the sharpest critics see nothing to criticise, and the general admiring public hang enraptured on Mr. Carpenter's legs, while the rythmic cadences beaten by his accomplished feet are a poem, a sonnet a revelation. Give us Mr. Carpenter or we degenerate into a race of square-dancing people.

Manufacturing has been going on steadily during the week at the paper mill, the machines turning out a fine quality of straw board. Two sets of hands are employed, the machinery running day and night. We understand that it is the intention of the proprietors to shortly commence the manufacture of paper boxes in connection with the mill. There is a large and increasing demand for boxes in all classes of light business, particularly the confectionary, envelope, stationery and fancy goods trade. This new industry would give employment to a large number of hands and become the means of putting in circulation a large amount of money in town.

A feature of the large grocery business carried on by Mr. Arch Campbell, and one that is proving exceedingly satisfactory to customers, has lately been introduced. Country customers buy on Saturday of each week, and when in addition town customers were to serve on that day it was generally late on Saturday night before all goods could be delivered. One of Mr. Campbell's young men calls at town customers' houses on Friday morning, taking their orders for such goods as are needed, and which are delivered on that day. This arrangement facilitates the handling of Saturday's business and the delivery of parcels is finished much earlier than usual.

The township council of Ops intend to pass a by-law taxing all dogs owned in the township. The Ops council have asked the town authorities to pass a similar by-law, as it was felt that without the regulation applied to town canines the object of the township by-law would be defeated. The matter was explained to the council at the meeting on Monday night by Mr. E. H. Hopkins, deputy-reeve of Ops, who said that the amount accruing to the town from the local dog tax would not be applied to the fund for recompling the owners of sheep destroyed by dogs. Mr. Hopkins suggested this tax as a means of "curtailing" the number of dogs. Coun. Connolly, in a speech of epigrammatic brevity, pointed out that inst as much taxes had to be raised each year, and it might as well come off dogs and cats as off curling rinks and gas works.

A most enjoyable social tea meeting was held in the east ward Methodist church on Tuesday evening. Tea was provided for the children of the Sabbath school and their parents and attendants of the church. A most beautiful table was spread and the good things enjoyed by all. Rev. Mr. Greener was elected Chairman by a large majority. Mr. L. Maguire gave a stirring address on Sabbath school work and on temperance. The choir of the Cambridge-st. Methodist church sang a number of anthems and contributed to the pleasure of the evening. On Wednesday evening a second tea was held. So large had been the provision made for the evening before that plenty was left to re-set the tables. Mrs. H. P. Roberts played a number of charming pieces on the organ. Mrs. P. G. Pilkie sang several favorite songs; Miss Thompson gave a pleasing organ solo; and Miss Wright and Miss Helm and Master Alva Mallory gave vocal selections. A word of commendation is due Mr. W. Croft, who exerted himself in working up the entertainment.

E. G. Specs,

Goggles, Colored Glasses, etc., at
HIGINBOTHAM'S Drug Store.—193.

Palace Shoe House.

We are offering a special line of French Kids, (J. & T. Bell's make) for $2.75. E. McTAVISH. 193.

New Store on William-st.

Mrs. Gillies has opened a grocery and restaurant where she will be glad to see all who will favor her with a call. The choicest fruits of the season always on hand.—85-tf.

Rose Valley Division Grange.

The annual meeting of Rose Valley Division Grange will be held in Lindsay on Wednesday, January 24th. An interesting time may be expected and a full attendance is requested.

Liquid Gas and Electricity.

Two of the safest and most perfect destroyers of pain known for extracting teeth, lately introduced in Lindsay by Mr. Gross, dentist, and used at his office with unparalleled success.—123-tf.

Liquors.

We have now in stock, bottled by ourselves, a very fine quality of ale and porter, to be sold at Toronto wholesale prices. Our brands of fine liquors will be found to be first-class and prices closer than the closest. TOUCHBURN & McDONALD.—17-tf.

Hymeneal.

The South Bend (Indiana) Tribune of Saturday, Dec. 30th, says:—"The residence of Mr. and Mrs. Robert VanDusen, on West Washington-st., was the scene of a merry wedding party on Wednesday night. The contracting parties were Mr. T. W. Calvert of St. Edward, Nebraska, and Miss Ida M. VanDusen. The ceremony was performed by Rev. Charles A. Evans. The happy couple left the next morning for their new home in Nebraska. The congratulations of their many friends here accompany them." Mr. Calvert is well-known in Ops and Lindsay and his many friends will send him and his bride hearty congratulations.

An Advantage in Buying.

Householders who are about buying winter supplies in bulk will consult their own interests by buying from A. Campbell. The test of experience has shown that it pays the customer to buy from A. Campbell. He has just got in a large and particularly fine stock of new teas, as well as a new assortment of general groceries. The secret of his large trade is that the stock is turned over so often that everything is kept fresh and new arrivals of goods always place desirable things before the customer. This is the case particularly with the teas which he handles and a large consignment of 200 half-chests just to hand are better value than ever before offered.

A Loan Exhibition.

On Saturday there will be opened in the drawing-room of the mechanics' institute a loan exhibition of etchings, photogravure and wood engravings. The matter is in the hands of Mr. C. E. L. Porteous, who is attending to the details, and who has interested himself to draw together a really fine collection of the art subjects on view. A notable feature of the exhibition is a fine collection, reproductions of etchings by Rembrandt, and which are unique and probably could not be duplicated in Canada. Rembrandt's power over the effects of light and shade are well known, but the strength of his work can only be understood by being seen. A large number of art subjects, including American etchings and wood engravings, are also shown. The collection will well repay a visit and an inspection. A trifling admission fee is charged, the receipts going to the drawing class fund of the institute.

Shorthand Classes.

The directors of the mechanics' institute propose establishing classes in shorthand under the tuition of Mr. Thos. Bengough of Toronto, provided a sufficient number join. The fees will be graded by the number and will be reasonable in any event. The opportunity is an excellent one for obtaining a start in acquiring a knowledge of a very useful and valuable art. Good shorthand writers command from fair to high salaries, and the demand for them is increasing and the field widening as their use and value become more generally known and appreciated. Mr. Bengough is an expert shorthand writer and a successful instructor, and those who join can with confidence look for good value for their time and money. Mr. Bengough has established large and successful classes in Port Hope and other front towns. He gave a free introductory lecture in those places, and will no doubt do the same here. We commend the subject to the attention of young men and young women who desire to improve themselves. Some of the most successful shorthand writers are young women.

Personal.

Mr. D. J. Beaton, formerly of Orillia, is editing the Brandon Daily Sun.

Mr. W. H. Sowden, late of Cavan, has been elected warden of Souris district county in Manitoba.

Hon. Adam Crooks sustained a severe attack of apoplexy last Thursday and has been in a critical condition since.

Dr. J. D. Anderson of Port Perry, son of Mr. J. D. Anderson of Cannington, has disposed of his practice in Port Perry and has gone to Minneapolis, Minn., where he intends making his future home.

Mr. F. T. Walker of Dubuque, formerly of Ops, has with some others established the First National Bank of Grafton, Da. T., with a capital of $50,000. Mr. Walker is president; J. L. Cashel, cashier; and W. O'Mulcahy, assistant-cashier.

Mr. R. J. McLaughlin, who has been teaching at Glandine for the past two years, is attending the Hamilton collegiate institute with the view of preparing for the university. Mr. O. J. Brown, formerly principal of the Oakwood high school, is third master in the Hamilton institute.

Mr. W. White, jr., carriage-maker, returned to town from Winnipeg on Saturday last. He will remain here during the winter. Mr. White gives a very favorable report of Winnipeg, and of its remarkable progress and prosperity. He says there was not as much snow there when he left as in Lindsay, and we have had a big snow-fall since.

The Waterworks.

During the last month the engineer in charge of the waterworks, Mr. J. Makins, has had an anxious time. The wheels and pumps have been tested almost every day. At no time have the pumps worked as satisfactorily as they would have done had there been plenty of power available. The failure to get a stream at the fire on Friday morning was not unexpected. After repeated efforts made that morning to get the pumps to put a pressure on the mains it was decided to uncover the suction pipe extending from the pump-house to the flume in the river and to examine the pipes thoroughly to see if there was any part of it leaking. It seemed as if such might be the case, as the pumps discharged a quantity of air which did not gain an entrance through the mouth of the pipe as it was covered by the water in the flume. On Saturday an excavation was made down to the pipe and several lengths tested and no flaw found. Upon uncovering a short section of pipe, at the pump house, a large crack was found running its entire length. The defective pipe was made of boiler iron and had been made in Lindsay, to supply a length which had been missed in the amount of pipe furnished by the Waterous Co'y. of Brantford, the contractors. The fracture in the pipe was filled with a metallic cement and a plate of iron screwed on over it. To further make the matter secure the pipe was thoroughly surrounded with Portland cement. During Thursday the water-wheels were looked after and the ice in the flume cut and taken out. A trial of the pumps will be made to-day when it is hoped a satisfactory pressure will be got on the mains.

Fire in a Work shop.

On Friday morning an alarm of fire was given and it was at once seen that smoke was issuing from among the buildings in the rear of Holtorf's furniture show-room. The hose-reels were on the spot within a few minutes of the alarm being given, and two sections of hose were laid to connect with the hydrants on opposite side of the street. The fire was burning amongst a lot of lumber piled in the loft of Holtorf's workshop. A heavy layer of snow on the boards of the roof of the shop prevented the fire breaking out and out off a draught. In anticipation that the water-works would not be able to supply a steam, a line was formed and pails of water passed rapidly along from a pump in the yard. The lower part of the shop was speedily drenched, and a corps of active workers ripped up a part of the roof and turned the snow down on the burning lumber in the loft. As soon as the fire was deadened the lumber was rapidly passed out. Adjoing the shop was a stable filled with straw and other combustible material which was thrown out and a liberal drenching of water given to the walls and roof. It was a most fortunate thing that the fire did not occur during the night as the conditions were all favorable to a large and possibly disastrous burning. With the waterworks in the condition in which they were on Friday morning nothing could have prevented a clean sweep of the outbuildings in the rear of the shops along that side of Kent-st. as far as William-st. Possibly, too, the English church, a wooden structure, would have shared a similar fate, as it was only separated from the burning shop by a narrow alley.

Auction Sale

of papers and magazines: The directors of the Lindsay mechanics' institute will sell by public auction on Tuesday evening, January 30, 1883, at 7.30, the current daily and weekly papers and last year's periodicals, received by the institute. Particulars at time of sale. The sale is open to the public generally, and is not confined to members. S. A. McMURTRY, sec.—19-1.

Obituary.

Death called away on Saturday last two citizens of Toronto known to many of our townsmen. Mr. James Michie, of Fulton & Michie, was a director of the Whitby railway, and had occasion to pay many visits to Lindsay. His genial manner and generous nature made him very popular and his sudden death is generally lamented... Mr. James Lamond Smith will be known to many of our older citizens as an agent of the Bank of Upper Canada and manager of its real estate and of the affairs of the bank after its suspension. He had then and since a good deal to do with property here and in this district, and was very highly respected.

Oddfellowship.

Following is a list of officers of Lindsay lodge, No. 101, I. O. O. F., for the coming term:—

J. P. G	Bro. E. M. Woolhouse,
N. G	" Jno. Comstock,
V. G	" Thos. Stewart,
Treas	" J. Britton,
Perm. Sec	" Alex. Reid,
Rec. Sec	" A. Higinbotham,
R. S. N. G	" Frank Crandell,
L. S. N. G	" Thos. Harris,

O. G	" Rich. Smith,
R. S. V. G	" Wm. Woods,
L. S. V. G	" J. R. Easton,
Warden	" Samuel Britton,
Conductor	" W. Pedler,
R. S. S	" Geo. A. Bigelow,
L. S. S	" C. A. Fenton.

Sons of England Benevolent Society.

We are glad to notice the success of a very worthy society—the Sons of England Benevolent Society, which has been in existence but a short time in our town. The object of the society is to bring together for mutual improvement and benefit Englishmen and their descendants, and to all such they extend a fraternal welcome and a hearty welcome to join their society. Fidelity is their motto, confidence in each other and faith and fealty to the old flag, with a determination to preserve British connection, pre-eminently a loyal institution. Its object is mutual benefit as well as securing in case of sickness efficient medical attendance and in case of death substantial assistance. Commencing in March last with a roll of some ten members they now number thirty, and at first without money in the treasury they have succeeded in paying expenses and have some $100 in the bank to their credit—a solid advance. They invite increased membership and we join with them in the hope that they will continue to meet with that encouragement they deserve. Our mayor, Mr. J. W. Wallace, is president, and Mr. Joseph Ingle, secretary, from whom all particulars can be obtained.

Victoria County Council.

The new county council will meet next Tuesday at 2 p.m. according to statute. It is composed as follows:

	Reeves and Dep.-reeves.
Mariposa	R. Adam.
	W. Parkinson.
	Thos. Broad.
Ops	David Walker.
	E. H. Hopkins.
Emily	John Bailey.
	T. H. McQuade.
Fenelon	John Daniels.
	W. Smithson.
Verulam	Chas. Fairbairn.
	John Junkin.

Bracebridge	J. W. Dill.
Macaulay	A. Barron.
Draper	— McMurray.
Hyde	M. McClelland.
McLean and Ridout	W. H. Brown.
Stephenson	W. Parker.

Presentation to Miss Lemay.

On Saturday evening of last week the members of the choir of St. Mary's church met at the residence of Mr. F. Lemay and presented Miss Lemay with an address and a handsome gold watch as a mark of appreciation of the long and valuable services of Miss Lemay as organist of St. Mary's church. At the close of the address, which was signed by the members of the choir, and read by Mr. J. A. Gillogly, Miss Minnie Murphy presented the watch. The address was as follows:

Dear Miss Lemay.—It is with pleasure we avail ourselves of this opportunity of presenting some slight token to you in recognition of the valuable services you have rendered as our organist for the past three years. We cannot but acknowledge the many inconveniences you have been subjected to as instructor of our choir, and we appreciate much more highly than these words can convey your skill, diligence and fidelity in conducting the musical services of our church. We ask you to accept the accompanying gold watch not as in any sense pecuniary compensation, but with the hope that you will wear it as a memento of those associated with you in the choir.—Signed by members of the choir.

Miss Lemay, who was completely taken by surprise, briefly and kindly acknowledged the receipt of the address, and warmly expressed her appreciation of their valuable present. The watch, which was an elegant gold stem-winder, was selected from the stock of Mr. Geo. Beall of this town.

Curling.

On Wednesday night two rinks of the Lindsay club went to Port Hope to settle claims as to the Ontario tankard. Play was commenced at 11.30 p.m. and continued until 3.15 the next morning. The result of the first play was a tie and in playing off Port Hope won by four shots.

The Mail in its report of the curling bonspiel held at Bowmanville last week, says:—"The most hotly contested game was that between the veterans of Lindsay and home clubs. Both played capital games, and the victory seemed to hang evenly in the balance between them till the very last moment. Lindsay eventually won by four points."

—Lindsay curling club will be worthily represented at the Montreal bonspiel, which comes off next week. Two rinks, comprising some of the best players in the club, will leave town for Montreal on Monday of next week. The following gentlemen will do battle for the home club, and we hope to see them return covered with glory and loaded down with prizes:

A. McDonnell,	J. Matthie,
J. W. Wallace,	J. B. Smith,
T. E. Bradburn,	W. Needler,
J. D. Flavelle, skip.	S. A. McMurtry, skip.

—On Wednesday afternoon a friendly match was played between two rinks each of the Cobourg and Lindsay clubs. The Cobourg men arrived by the noon train and after taking dinner reached the curling rink. Play at once commenced and ended in the defeat of the Lindsay club by 11 shots. At the conclusion of the play the score stood as follows:—

LINDSAY.		COBOURG.
	First Rink.	
J. McMillan,		T. Morris,
D. C. Trew,		J. Jeffery
W. Needler,		J. Henderson,
S. A. McMurtry, skip,	11	J. Salisbury, skip	27
	Second Rink.	
J. Cooper,		J. C. Kennedy,
J. W. Wallace,		J. Winn,
J. B. Smith,		R. McCallum,
J. D. Flavelle, skip,	23	J. Greenwood, skip,	18.

Majority for Cobourg, 11 shots.

Matters in curling circles have been unusually brisk this week. On Tuesday the Peterboro and Lindsay clubs contested for supremacy, two rinks from each club playing. The match came off in the Lindsay rink and was to "count" in the contest for the Ontario tankard. After a sharp battle the home club defeated the visitors by 26 shots. Following is given the names of members of rinks and scores:—

PETERBORO.		LINDSAY.
	First Rink.	
A. McNeil,		J. McMillan,
Dr. Boucher,		D. C. Trew,
M. Millar,		W. Needler
Geo. Brown, skip..	12	S. A. McMurtry, skip,	22
	Second Rink.	
W. H. Budden,		Jos. Cooper,
W. G. Ferguson,		J. W. Wallace.
Geo. Dunsford,		J. B. Smith,
T. P. Astrill, skip....	19	J. D. Flavelle, skip..	25
	31		57
			31

Majority for Lindsay..... 26

Sootheran, Cathro & Mark.

NUGGETS OF KNOWLEDGE

FOR BARGAIN SEEKERS.

LADIES!

Again we greet you with a new announcement that is sure to please and give satisfaction. Everything must be done in a hurry to be acceptable. Time is more valuable than it was away back in the world's history when men lived nine hundred years. The gist of our subject is to tell you that we are getting ready for stock-taking at the City Store, and that means we are prepared to give you some glorious bargains in all classes of winter Dry Goods, Carpets, Furs, &c. Stock-taking is a general stirring up of things, a dragging from their hiding places of over-looked goods, a calling to account of slow selling stock, a paring down of prices. Its a season of comparisons, of discoveries—yes, of surprises—the time when everything must come to the surface.

In this annual overturning of stock we naturally find many things that we don't care to account for in our yearly stock-taking, and that we prefer getting rid of before the final accounting for takes place. Such for instance, as goods that will lose much of their value by being kept, broken lots, odd ties, odd ribbons, odd laces, odd silks, odd dress goods, odd mantle cloths, remnants of every description. These, we repeat, we don't care to take in stock, and will make it to your interest to take them from us. We've done this by making the selling prices so low that the fact of their being great bargains is beyond question, indeed great bargains for of the two marks on each article the cost and price—the former is invariably much greater.

GENTLEMEN!

Fast age this, isn't it? No sooner do we get through clothing you for one season than we are advising you of new goods for the next, but before doing that we want to tell you that we are stock-taking at present and will not get through until 1st of February. Between times if you are in need of any clothing, an extra coat, extra pants, extra vest or an overcoat you can have it made to order cheaper and for less money than at any other season of the year. Why? We are anxious to reduce our stock to the lowest possible point before reckoning day. Come and avail yourselves of the opportunity.

IN READY-MADE CLOTHING,

Overcoats, Suits, Pants, Vests and odd Coats, we have only a few left and what we have will be sold at the closest prices you ever beheld—prices that will open your eyes with amazement.

Gents' Furnishings and Gents' Furs

have likewise received marching orders, and no matter how stubborn the resistance they are bound to move off at the reduced prices. It would pay you to buy now and keep over for another season, but half the winter is not gone yet so that you can get value out of them this year.

OUR SPRING STOCK

will be the largest and handsomest lot of imported woolens we have ever shown, and the bulk of the goods are now on the way, hence the extra push we are making to effect a clearance of our present stock.

SOOTHERAN, CATHRO & MARK,
