MINIO PROSPECTS. As unusual amount of contentment in a solid manner has been brought among us by the visit of Mr. J. H. Campbell of Port Perry on business surveying lots in the interest of J. W. Trounce. He imparted the news to our people that he is commissioned by Messrs. Pussy & Co., our iron mine owners, to survey out a route for the railway to utilise our mines, which he is going to begin at as soon as ever the snow will let him in the spring. CROWN LANDS. A second and not less important visitor has this week inaugurated a system which if carried out as that gentleman says he intends to do will have a bearing on the future of Ontario's wild land settlement, which has long been needed, whereby true facts can be arrived at. I allude to the visit for the first time of our Minden crown lands agent, Mr. W Fielding. Should his duties be conducted in the same painstaking way which he has been so good as to begin with, he will be inquestionably enabled to bring truth in its essence to the knowledge of the government which for so long has been needed, and thereby establishing the broken confidence lost by many in the government's contracts with people entering on the lands, and above all things preventing some of those unscrupulous and rapaclous unt of frost getting into the sand. FROM THE ONEONTA PRESS, NEW YORK. Oneonta, New York, Jan. 6th. 1882.

Early last summer Messrs. B.J. Ken all &Co., of Enosburg Falls, Vt., made a contract with the publishers of The Press for a hair column advertisement, setting forth the merits of Kendall's Spavin Cure, for one year. At the same time we secured from the firm a quantity of books entitled Dr. Kendall's Treatise on the

Horse and his diseases, which we are now giving in advance paying subscribers to the Press as a About the time theadvertisement first appear-About the time the advertisement first appeared in this paper. Mr. P. G. Schermerhorn, who resides near Colliers, had a spavined horse. He read the advertisement and concluded to test the efficacy of the remedy, although his friends laughed at his creduity. He bought a bottle of Kendall's Spavin Cure and commenced using it on the horse in accordance with the directions, and he informed us this week that it effected such a complete cure that an expert horseman who examined the animal recently, could find no trace of the spavin or the place where it had been located. Mr. Schermerhorn has since secured a copy of Kendall's Treatise on the Horse and his Diseases which he prices very highly and would be loth to part with it at any price, provided he could, not obtain another copy. So much for advertising reliable articles. FROM REV. P. N. GRANGER, PRESIDING

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure and with less than a bottle cured him so that he is not lame, neither can the bunch be found.—Respectfully yours.
