LOST A HORRE.—Mr. Hector Campbell of this place lost a valuable horse on Friday evening last. He drove a team laden with Lindsay legal pentlemen who had been dispensing law and justice at Victoria Road, and who were anxious to catch the train at Lorneville, as the Nipissing section was blockaded. The drifts were so heavy and the Coke and Blackstone in the sleigh so weighty that one of the horses gave out and succumbed, though dosed repeatedly with the contents of a flack found in one of the bags that lawyers carry and which hide every thing from a new testament to a black bottle. The legal gentlemen had to hoof it all the way to the Junction. It was an all night tramp, but as they all had pretty big feet they got along nicely over the snow. KIRKFIBLD.

There was a goodly attendance of the members and friends, who, after being regaled with the culinary dainties provided, were entertained by some excellent music by the choir, and with stirring and instructive addresses from their late pastor, the Rev. D. McDonald, the Rev. Mr. Hastie of Lindsay, and the Rev. Mr. Scott of Cambray. This congregation owes a debt of gratitude to the last named gentleman, who has since they were left withan, who has since they were left without a minister kept the pulpit supplied, and asked nothing in return. [Correspondence of The Post.] A NOR'-WESTER. - We really have more weather at the present time than we want. A cold nor wester passed over this part of the country during the week and folks are complaining greatly of the intense cold spell, scarcity of water and wood. This winter will be remembered by resident as a very severe one.

RETURNED. - Messes James Parker and William McKenzie have returned from their trip to Ireland. They look hale and hearty and enjoyed their trip immensely. They arrived in Ireland on the 6th December, and on the 7th a slight fall of snow oc which clothed every tree as with a mantle of snow. This remained for a few days, but was followed by rain, which quickly changed the aspect of the country to a beautiful green, well expressive of the emerald isle. The crops in general were a fair average, but on account of the wet persence in the line in which he is now engaged, and we predict a most successful and satisfactory future for the company.

A BLIZZARD. - We are experiencing one of those cold snaps that are now termed blizzards. I cannot tell the exact degree of cold, as the weather indicator was not con sulted until nearly noon of to-day, (Monday, 22nd), when the thermometer stood 82 below zero. Several ears and noses were frozen yesterday while people were going home from church.

MATRIMONIAL .- The matrimonial wave has reached here at last, and there is no telling when or where it may end. It is sometimes infectious, and the conditions in a great many cases are favorable to its spread.
