LINDSAY, FRIDAY, MARCII 28, 1889.

ACCIDENT TO THE QUEEN.

Queen Victoria slipped and fell on the stairs of the palace at Windsor on Saturday and, though she went out for a drive at once, found on her return that she was unable to walk, and her attendants had to carry her to her room. The physicians found the knee badly swollen and inflamed. The queen is constantly attended by a full corps of royal physicians. Every effort is being made to confine the swelling. The queen's physicians authorive the statement that her majesty is in no immediate danger. She may, however, be confined for an indefinite time to her room. It is understood the queen is suffering quite as much from exhaustion produced by taking the long ride after the injury for the purpose of disabusing the public mind of the impression that she was hurt, as from the consequences of the wound itself. There is great uneasiness in the city and immense crowds surround the bulletin boards.

THE CENTRAL EXHIBITION.

The Peterboro riding and township agrionlineal societies are just now considering whether they shall or shall not raise the required \$700 of the \$1,000 guarantee fund for the central exhibition to be held in that town next fall. The Review has some doubts as to the wisdom of continuing the arrangement, and urges that se the circumstances have very much altered since the exhibitions were inaugurated eight years ago it would be better in the interests of Peterboro to withdraw from the arrangement. The Review says: "Of "course if we accept their aid this year we "will be in honor bound to extend the "same aid to them for the next three "years, and also in honor bound, during "these three years, not to hold an exhibi-"these three years, not to hold an exhibi"tion in Peterborough which would rival reached those localities we can under-"and therefore prove detrimental to the stand why the conservative vote at "usual central exhibition. Looking simply Switzer's in Emily and the red school "to the interests of this town and The conservatives had better be careful "county we are inclined to think the after this and only put such fly-sheets "wiser plan for its people to pursue would where they will "do the most good," that "be to withdraw from the present central "arrangement, and so far as the west rid-"ing society is concerned devote its ener-'gies for this year to procuring suitable C. F. Fraser in Brockville: "It will be "and permanent accommodations for "a good exhibition with the view to "inaugurating in 1884 an annual exhibi-"tion in Peterborough which would be a nant of Brockville was the subject of "credit not only to this county but to this official investigation, allegations having "section of Ontario." If our Peterboro been made that Mr. Tennant secured the neighbours decide to withdraw we shall vote of the Indiane in his favor by bribsay in the words of Hornes Greely to the ery. Mr. Dingman, inspector of Indian seceding states, "erring sisters, depart agencies, was sent up to enquire into in peace." We have no particular desire the matter and was understood to have "to maintain the union." The Lindsay exhibition was by long odds the finest and that the charges were fully sustained and most successful of the series, and as our position is in the centre of a very wide and fertile district, with unsurpassed reiliway facilities, we have no doubt Lindsay can get up a show that will best anything between Toronto and Montreal. Of course we cannot hope to compete with Peter-

boro in the gyasticatus and trick mule line, but in everything that makes a solid exhibition we can go far ahead. We have no doubt the people of Lindsay will have the enterprise and push to get up the best show of the Midland district, and probably we may hire the Peterboro affair for a side show to give a little variety by way

THE N. P.IN THE NORTH-WEST.

The Regina Leader points out that the duty on lumber "is an instance of misconceived protection so far as the North West is concerned," and adds: "We have no lumber to protect; we need lumber badly; eastern Canada can never supply ue; yet a duty is put on lumber coming into the North-West-lumber which is a necessity of life to us-lumber which is as truly as anything could be raw material as far as we are concerned; now it is bad political economy and bad protection to tax raw material." The Leader argues that the duty on coal is also a tax on raw material and concludes: "Sir Leonard Tilly will add to his regutation as a financier if he recognizes the fact that it is as ridiculous to apply the same tariffs to Regina as to Toronto as it would be to wear he same overcoat in Regina that one had been accustomed to wear in Toronto, or even Ottawa,"

EDITORIAL NOTES.

The Nova Scotia assembly has again arried a resolution in favour of abolishing the legislative council but of course their "lordshipe" will vote down the bill when it goes before them.

The announcement of the disallowance of the Ontario streams bill is published in the last Gazette, but no reason is given for the disallowance. Mr. Mowat will, it is understood, pass the bill again.

Wiggins ought to try his hand on predicting the date on which Sir Leonard Tilley's budget speech may be expected He is in that department; and may have some inkling of the coming waste of

Hon. W Elder and Hon. R. T. Ritchie, members of the new liberal ministry in New Brunswick, have been re-elected by acclamation. A candidate is out against Attorney-General Blair, but none so far against the other two members.

Mr. J. J. Hawkins did well to boast in the house that he represented the most thoroughly Protestant riding in Ontario. He does. He represents "Protestant Jim" Stephens, the returning officer, who declared him elected when the seat should have gone to Mr. Mills.

From the "extraordinary yelping" in gant phraseology, one of Mr. Wray's the party do not approve of such treatment (that proved so serviceable in the ment being dealt out to a political opponpups (that proved so serviceable in the opera house when Mr. Hugh O'Leary was replying to Mr. Meredich) must have got loose again and had full range in our cotemporary's columns.

The township of Hope was the first or one of the first to take advantage of the receplanting act introduced at the last ession by the Hon. Mr. Wood. The township of Mara intends to take similar action. These are steps in the right direction, and we have no doubt other townships in this district will "fol-

Mr. Alexander M. Sullivan, late M. P. for Louth, and editor of the Dublin Nation, in a letter to Mr. Meehan of the Irish American, condemns in the most rigorous language the dynamite policy of warfare advocated by Jerry Donovan, aliae Rossa, and other nationalists in America. The ground upon which his sweeping denunciations rest is a high mor-

The Warder says:-"By whomsoever these fly-sheets were got up they were but little credit to him or his party, and the double game sought to be played be-tween Orangemen and Catholics cannot fail in time to do the reform party infinitely more harm than it has done good."

We again distinctly state that we neithor printed nor distributed any fly-sheets, nor anything except THE CANADIAN POST during the last election, the Warder's statement to the contrary notwithstanding. The only fly-sheet we know of was the one issued with the Irish Canadian newspaper, an extract from which appeared in our columns on Feb. 24th. know that this fly-sheet was distributed in large numbers to persons who regularly attended the conservative committee rooms and worked for Mr. Fairbairn's election. It may not have been intended for Mr. Fairbairn's supporters in South

The Sarnia Observer thus explains the true inwardness of the opposition to Hon. remembered that prior to the late Ontario elections the granting of the right to out timber on Walpole island to Mr. Ten-

candidate in opposition to Mr. Fraser. Within the past week instructions were received from Mr. Tennant's agent on the island, direct from Ottawa, to go on cutting the timber." Similar tactics were employed by Sir John in other cases.

Some little excitement was occ in Toronto and elsewhere Saturday and Monday by a report that Lieut.-Governor Robinson had returned from Ottawa with instructions from Sir John to bounce Mowat on the first pretext or to make one in some way. Of course, it is preposterous and abourd; but Sir John Macdonald would go any length to make Mowat go.

The tory Orillia Packet says: "East Simcoe was lost to the conservatives by 20 votes, West Simcoe by 35, and North Ontario by 20. By a little extra exertion all three could have been carried, and Mr. Mowat would have been obliged to resign. We hope the lesson will not be Very true; and by "a little extra lost." exertion" we have no doubt the reform majority in each of the ridings named could have been doubled. "We hope the lesson will not be lost" upon our friends in the ridings named. Eternal vigilance is the price of liberty and of reform suc-cess. Our friends, however, did remark-ably well in view of the Ottawa efforts put forth to carry the province.

The Ottawa Free Press understands that steps will be taken immediately to avoid the election of Mr. Fanquier for Muskoka. Violence and outrage were openly resorted to by gangs of tory emissaries sent into the district. A gentleman now in Ottawa, who was present at the polling place where Mr. Scarlett was returning officer at Nipissing, informed the Free Press that a gang of roughs, led by a well known conservative of Ottawa, took possession of the polls, and expelled Scerlett by force. They then marked and deposited a large number of votes.

Meantime Mr. Scarlett having procured the assistance of constables, returned and ousted the gang, but the latter again attacked him and took possession, holding the poll.

The Toronto Telegram administers this well deserved rebuke to the political blackguardism of the Mail, and the remarks may apply as well to the tory organ in this town: "There is more truth than poetry in the complaint of a conse:vative that the organ of the party is making a fool of itself by its violent language. It never refers to Mr. Blake without applying some low epithet to him, and declaring that he is little better than a horse thief and a blackguard. The other day it spoke of him as being a 'hypocrite, a charlatan and an impostor.' There is surely room for honest difference of opinion in political questions, without descending to the use of these vulgar epithets. The Mail is doing its party more harm

The wonderful progress of the North-West is exemplified in a marked degree by the publication of the Regina Leader, the first two numbers of which are before us. Not quite ten months ago when the Canadian Press Association visited Pileo-Bones that far western hamlet was omposed of three or four tents and a few camps. Now it is an enterprising town of two or three thousand people, the capital of a province, the centre of political and commercial affairs, and destined no doubt to become a metropolis of the prairies. The Leader promises to make the name of Regina widely known, as every good newspaper does the place of its publication. It is edited by Mr. N. F. Davin, the celebrated Franco-German war correspondent, and the well known Ontario journalist and politician. The Leader will rank with the Bystander in brilliancy and probably in independence, and no doubt it will be less influenced by 'social considerations." Goldwin Smith may leteurely con his polished paragraphs in the seclusion of the Toronto grange, but N. F. Davin, inspired by the ozone of the prairies and with mindas wideas his boundless home (no pent-up Utica confining his powers) will from some Rocky Mountain pinnsole survey and review the great is-sues of the country in his own brilliant and characteristic style. We predict a wide circulation for the Regina Leader, and it certainly has a wide field of useful-

The gitted editor of the Regina Leader (Mr. N. F. Davin) does not have a very high opinion of Messrs. Meredith, Lauder and Morris. He is no supporter of Mr. Mowat's in any sense, but holds the latter won in the recent contest because among other things the tories had no better man for the place. Not Mr. Meredith. The Leader says: "The very fact of desiring Sir John Macdonald's aid proved that Mr. Meredith, even in his own estimation, is no leader of men; and the cumulative fact that Sir John Macdonald with decentralization for his watchword, and the N. P. for his talisman, and all the mystery of his finesse, and the boundless magic of his name could not carry Mr. Meredith. though sided by Abraham Lauder, makes the incompetence of the local opposition still more glaring." The local opposition should profit by the candor of their northwestern friend. Elsewhere the Leader condemns as fudge and flap doodle an extravagant assertion that the speeches of Mr. Morris are "the work of a master mind." The Leader very properly ridicules this abourd statement. Speaking of Mr. Lauder the Leader enquires if even Sir John can "wash the blackimoor? can he make white black? or more appropriate can he make black white? if he can he may persuade the people of Ontario to let the itching fingers of Lauder touch the Crown Lands. If the conservatives of Ontario have not backbone enough in them to tell Lauder to stand saide they deserve to remain out of nower." F. C. Taylor.

A WORD IN SEASON.

The Seasons return one after another and bring with them their many changes in Dress, in Amusements and habits. But of all the changes of season there is no period more desirable for the beautiful in dress than spring We would call your attention to our elegant dress materials which for Richness, Shade and Texture are unsurpassed. We wish we could describe to you some of our DRESS GOODS, TRIM-

MINGS, LACES, &c. But words are too harsh, too meagre. What word could convey the soft richness of their tint or their cloud-like beauty of texture. We can find none. We could of course give you names, but they mean nothing. Prices would confuse you. The eye is the only vehicle that can convey to the mind without injury beauty so indescribably deli-

Come and see our GLOVES, especially our Swede Mosquetaires, in Terra Cotta, Crushed Strawberry, Tans. Bronze, Black and Evening Shades. They are very desirable and Cheap.

In conclusion we desire to remind all that the following are a few of the acknowledged facts that are conceded to us;

1. That we carry a tremendous stock.

2. That our prices, when quality and price are considered, are below all competitors.

3. That the Foreign and Domestic Merchant Tailoring Stock in our matchless Custom Department cannot be excelled.

4. That our extensive business is the best evidence of what we can do. 5. That our facilities are such that no house can compete with us.
