A New Principle.

The principle on which Putnam's Paintess Corn Extractor acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, by it, and by the completeness of the cure they will be ready to resommend Putnam's Painless Corn Extractor to others. N. C.
