OUR SPRING OPENING.

large numbers of ladies from both town and country thronged our Millinery and Mantle show rooms during and since our opening days, to examine and re-examine our fine lisplay of new, rich, stylish, and attractive millinery goods. All, without ox option, were greatly pleased with the result of their comparisions and investigations.

But this is just what we expected. It was our preparfrom in goods, and in taste and skill in making up that capivated our customers. We have their assirance that our haplay exceeded any yet made in Lindsay, and we cheerfully scept the verdict.

OUR TRIMMED GOODS.

Our lines of trimined goods include the most fascinating and becoming of the latest French shapes. Our Bonnets and Hats we recognized as the most stylish of the season, and we have them in the most desirable trimmings to suit any brade or fancy.

OUR TRIMMINGS.

Dur trimmings are worth special attention this season, because we have the Richest Patterns with abundant stock to select from.

OUR FACILITIES.

The increasing demands from morning till night upon our largely increased force of help shows a gratifying accession of trade in this department. So noteworthy is this, hat sustomers tell us that they have seen nothing like the daily stroam of trade that centres here.

All the details of our millinery department have responsible supervision and our customers' interests are being more mofully looked after, if possible, than ever before.

No lady should select or buy millinory without first

Davis & Petty.

The new and handsome store of the new firm, Davis & Petty, watchmakers and jewellers, is now open and a portion of the stock is already now open and a portion of the stock is already opened out. No expense has been spared in fitting up the premises, which is now one of the handsomest stores to be found outside the cities. A specialty will be made of silver plated ware of which they have secured many beautiful lines. The business announcement of the firm will be found on another page and will, upon perusal, give the public an idea of the basis upon which they intend to do business.

A Business Change.

Mr. J. M. Armstrong has bought the stock of groceries and has assumed possession of the store of Mr. Wm. Robson. Mr. Armstrong is store of Mr. Wm. Robson. Mr. Armstrong is an active and experienced grocer and has been in the trade for a long time in one of the best grocery houses in Peterboro, that of Mr. W. H. Wrighton. Mr. Armstrong purposes making Lindsay his home and has, in every sense of the word come to stay. Attention is directed to his advertisement on ith page of The Post, wherein from time to time facts of interest to all who need groceries will be made known. In addition to the stock already on and Mr. Armstrong has ordered a complete avalanche of new goods, which will arrive in a week or so. Buyers from the country should give J. M. Armstrong a call.

In keeping with the enviable reputation of the establishment in this respect the millinery opening-on Wednesday and Thursday of this week -of Mr. James Graham, late Milne & Graham, of Mr. James Graham, late Milne & Graham, was a pronounced success. The fine show room on the second flat well deserved a visit and the most critical inspection of the rich and stylish millinery fabrics displayed well repaid the visitor. The show-room has just been remodelled and handsomely decorated and formed a fitting background for the superb display. There is an incredibly large and varied assortment of French pattern bonnets, and feathers, flowers, and the characteristic goods always shown by this first-class house. The rooms were througed—in fact it was a perfect crush—on both days, and in view of the beautiful result achieved it

Miss Mitchell-Dress and Mantle Making Miss Mitchell begs to thank the public for their liberal patronage, and also to remind them of her spring opening in the Doheny block over of her spring opening in the Doheny block over Mr. Simon's dry goods store. She has on hand for inspection and sale a number of bridal, evening, dinner and walking costumes, also nanties and dolmans, and is now propared to carry on a larger business than ever. She has also a large assortment of dress goods in silks, satins, woollens, laces and other necessary trimmings. New York and Paris fashions always on hand. Miss Mitchell's long experience of over twenty years in the business, part of that time having been spent in the city of Toronto, the centre of fashion, will ensure the confidence of the public generally. First class work at the lowest prices in town. All cutting and fitted warranted. She is prepared to assist in matching all dress goods and trimmings.—32-3.

Wednesday and Thursday were gala days for the ladies, the millinery opening of Sootheran. Cathrola Mark taking place on the above dates. Throughout both days, in spite of the adverse weather on Thursday, the rooms were crowded. The beautiful goods were most tastefully displayed, and drew forth lavish admiration from the lady visitors. The fittings and conveniences for the care of millinery stock have been put in with a liberal intention in view of doing a large and remunerative trade, and the firm have the best assurance—if the opinion of visitors on the opening day is any criterion—that such will be the fact. The demand upon our columns for space prevents our noticing in detail, or of even attempting to give an epitome of the millinery goods, trimmings, flowers, feathers and the entire ravishing repertoir in stock. Thefirm have also the most complete facilities for stylish mantle and dress-making, these departments as well as that of millinery being under the most competent supervision.

It is some time since I wrote you from Reaboro, as we have had the hardest winter I have seen the last fifty years. However, I think everything looks very favorable at present. There is no frost in the ground and the winter wheat never looked so well in my time. Ithink nothing can injure it, the ground is so dry. I have seen farmers from Mariposa, Ope, Emily and Manvers, and they are all in one in saying the fall wheat never looked so well. As I have done some time gardening, the second week in April, I don't consider the season late. The farmers around here on high ground commenced plowing on Monday, 15th. Cattle look well for so late a season. Plenty of feed, and the farmer has plenty of money to buy anything else they need. Our shingle mill has done a big business here for two months. They run about thriteen thousand each day with help of Ingle's best men. They know their business. I expect our cheese factory will commence about the 1st of May, which all farmers ought to support. Our cheese maker don't need any help to make cheese, as he knows his business. We need a station at Resboro It is a miserable place to wait for the cars. If they cannot do better they ought to send a large packing box and we will put seats in it. Do something for Reaboro. everything looks very favorable at present.
