### The Canadian Lost.

CHARLES O. BARR, EDITOR AND PROPRIETOR JOTTINGS FROM THE NORTH-

THE MANITORA SCHOOL SYSTEM-LIBERAL AND ENTERPRISING ARRANGEMENTS-RELIGIOUS EDUCATION -- SEPARATE SCHOOLS-THE GRAMMAR QUESTION. [Correspondence of The Post.]

BRANDON, May 1st, 1883. In giving to your readers some gleaning from the great Northwest I shall confine myself in this paper to educational matters. "Tis scarcely necessary to say that in many rural districts one of the greatest drawbacks to the new settlers is the want of schoole. On one side of him lies a large tract of land, perhaps held by speculators and unoccupied. Next to that again a whole section is occupied by one family. In another direction his next peighboris an unmarried man keeping "bach." Next to him again the family is a childless one, or are all grown to adult age. So that all told there may not be more than from half a losen to a dozen children within walking distance of a school house, even if one were built; while the people might be too poor as well as too fev to pay salary enough to secure a good teacher. Other places again can have only half-year schools - the summer season-because in winter small children could not attend on account of the severity of the weather and the distance, and the undefined pathways across the prairie. Families moving out west, in which there are children to be educated, need in buying land to make enquiries in advance as to the prospect of school privileges. Still there are settlements, and not a few of them, where very fair schools are in operation in strictly rural regions. But, it is chiefly in rising villages and towns that this priceless boon is to be had in a satisfactory measure. The rapidity with which schools spring up there is simply marvellous. Fancy a place which had a year ago last January only sixteen persons of school age, with sixteen ratepayers, to-day—eighteen months after—there are some three hundred and fifty pupils. a large and well appointed school is erected, four teachers are employed and a fifth soon to be engaged, and in six months a high school be established there. The salaries paid to the present teachers—all common school teachers—range from \$500 to the

lowest, to \$800 to the highest. SCHOOL SYSTEM. The school system in vogue has been framed with specific regard to the religion of the people. It is assumed that the Prothe official regulations now lying before me reads: "Regulations of the Protestant section of the board of education for the province of Manitoba." And on looking over its contents one sees everywhere that it is assumed only Protestants are likely to be in attendance at such schools. For example, under the caption "Religious exercises," it is not left optional with the teacher whether the school shall be opened and closed with prayer and the holy scriptures read, it is enjoined; the regulation reading "The school shall be opened and closed with the reading of scripture and prayer.'
Then follows a form to be used:

(1) The reading of the scriptures. (2) Prayer (printed.) (3) The Lord's prayer (repeated by teacher and pupils.)
(4) The benediction.

For closing: The same.
One teacher remarked, "I always require my school to repeat every Friday the ten commandments, and I intend to get as many scholars as I can to commit one or two verses of scripture daily and recite them." All this is very much to the mind of your correspondent. Untario, go thou and do likewise! All success to the inspec-tor of schools for South Victoria, and to others who with him are laboring to secure for the bible an authoritative place in the school curriculum, and a "shall" introduced into the regulations anent its use. If youth while at school and after they leave it are expected to practice the morality of the bible surely the text-book which teaches that morality should be in the school-rcom and read there. But though it it is expected that the two bodies shall be educated separately, they are not forced so to be. It is provided that where the Protestants are the majority in a school section, the Catholics may have three trustees of the twelve of their persuasion; and Catholic parents who may wish to send their children to the Protestant school can do so by application to the trustees, and for such privilege they will pay in from taxes on their property an amount proportionate to the number of Catholic children sent. But the money they thus send in must not be expended on the school house and property, but retained strictly for tuition fees. This whole ar-

rangement is said to work well, and to be

the best for the country out there. THE CURRICULUM. It is claimed that the curriculum is an improvement on that of Ontario in small particulars. In forming it the good features found in the system of the older province were retained while such amendments were introduced as experience has proved to be desirable. The reading books are quoted as an illustration of this. The readers used are those published by Gage & Co., Toronto; edited by Prof. Metklejohn of Scotland, and certainly as regards quality of paper, printing and illustrations they are a marked advance upon the series authorized in Ontario. The text books in other ized in Ontario. The text books in other branches—geography, history, mathematics, science—are in the main the same. They claim in Manitoba, too, that they are in advance of Ontario in regard to the regulation of the studies. Cramming, so often and so justly found fault with in this province, he carefully avoided there. The pupils are not forced forward so rapidly. Fewer subjects are taken up simultaneous ly. The aim is to furnish the mind with only as much aliment as it can digest and assimilate each day by diligent application; to avoid on the one hand mental gorging and consequently mental dyspepsia by and assimilate each day by diligent application; to avoid on the one hand mental gorging and consequently mental dyspepsia by and by, and on the other to assign as much as the average mind can undertake. And by this way they hope to give practical effect to the motto: "A sound mind in a sound body." But, unfortunately in the matter of grammar and arithmetic they suffer in the Northwest to the same extent as in this province from defective text books in these subjects. An experienced teacher in Manitobs, who taught forcome years in Ontario, and is a graduate of our Normal school, Toronto, in speaking to your correspondent of the grammars in use applied to the clumsy, mystifying things such as avalamene of condemnation that if only heard by the youngstees in Ontario would evoke from thousands of boys and girls a vociferous cheer. Most aprepar to the remarks was your own witty and weighty editorial note of the 27th ult. on the same subject, which, with your permission, I would have

reproduced; with the proviso, however, that the executionary part of it be understood metaphorically:-

"Mr. Hardy has a fine opportunity to distinguish himself as acting minister of education in a way that will earn for him the undying gratitude of countless thousands. Let him gather in one high pile all the modern grammars and arithmetics published for the education of the youngsters, but before applying the torch let him piace the authors thereof on the top, and burn them all. The amount of rubbish in the shape of useless definition and absurd technicalities to be found in the grammars and arithmetics of the present day is horrid to contemplate. Them let a simple book of not more than twenty pages for grammar and twice that number for arithmetic be compiled; and a notice should be put up that any publisher or author for the next twenty years who approached the department with a new book would be shot on the spot."

More anon.

VIATOR.

#### THE FIRST HANGING PHŒNIX PARK MURDERERS MEETING THEIR DOOM.

BRADY ON THE SCAFFOLD-NO STATEMENT FROM THE CONDEMNED MAN-A THREAT-ENING DOCUMENT-MORE CONVICTIONS. DUBLIN, May 14.-Joe Brady, convicted participation in the Phoenix park murders, was hanged this morning at eight o'clock. This is the first execution of the Phrenix Park murders. A vast concourse had gathered outside of the prison vard and a strong force of cavalry, infantry and police were present. There was no attempt at a disturbance. The morning opened beautifully, but there were showers at about the time the execution took place. Brady rose at 6; at 6.35 Canon Kennedy of St. James' church and Father O'Rielly administered the sacrament to the prisoner in the prison chapel, and all three remained praying until the arrival of Marwood,

the executioner. Brady submitted quietly while his arms were being pinioned, and walked slowly and unflinehingly to the scaffold. THE BLACK FLAG.

The black flag, indicating that the execuion had taken place, was hoisted over the prison at three minutes past eight. Almost immediately a hearse and coach containing mourners was seen at a distance coming toward the prison. The police, however, prevented the vehicles approaching. There had been reports that after the hanging Brady's friends would endeavor to excite the people to a demonstration by parading an empty hearse through the city.

BRADY'S LAST DAYS. Brady was visited by his mother last evening. She was heard to exclaim, "Mind, Joe, no statement." Brady smiled and replied, "Don't be foolish. Do you think I am fool!" It is stated that his mother threatened to disown her son if he gave the government any information. A wreath of flowers was received by Brady, to which was attached a card bearing an expression of grief at his fate from Irishmen living in Liverpool. Brady made no statment to the gaol chaplain or to the testant and Catholics wish to be educated separately, and the laws and regulations are shaped accordingly. The title page of hand to the sceffold, and was thoroughly

> HATS OFF. His body fell nine feet and death was instantaneous. Brady was dressed in the same clothes he wore during the trial. It is estimated that the crowd outside the gaol numbered 10,000. It is said that the throng was even greater than any of those public. At the moment the black flag was seen over the gaol the cry was raised "hats off," and every head was at once uncovered. The crowd shortly afterwards

> dispersed quietly.
>
> The verdict of the coroner's jury was that Brady's death was caused by rupture of the spinal cord. A juryman stated that the features of the deceased were slightly swollen and the eyes protruded. The tongue was half cut in two between the teeth. Brady was buried near the scaffold. The vertebræ of his neck was crushed to pieces. Marwood said he never hanged a criminal who gave less trouble or anxiety, or displayed a calmer or more unflinching

> BRADY'S CAREER. Joe Brady, the first of the misguided men about to pay the penalty of their part in the assassination of Lord Cavendish and Under-Secretary Burke, is a young man. one of a large family, nearly all of whom are in fair circumstances and are respected by their acquaintances. Joe's father has been for forty years an employee of Dublin corporation, and enjoys a good reputation for intelligence, sobriety, industry and honesty. Joe himself was apprenticed to the city at an early age, but latterly up till the time of his arrest followed the occupation of a paying in the service of the corporation of a paying in the service of the corporation of a paying in the service of the corporation of a paying in the service of the corporation of a paying in the service of the corporation of a paying in the service of the corporation of a paying in the service of the corporation of a paying in the service of the corporation of a paying in the service of the corporation of a paying in the service of the corporation of the corpo tion of a pavior in the service of the corporation. He was a man of about five feet ten inches in height, but looked smaller owing to his massive build. Good natured and generally obliging, he was a favorite with his comrades, and was regarded with peculiar affection by his own parents, on whom the revelation of his share in the Phœnix Park murders fell like a thunder-

In the crime for which he has just paid the penalty of his life Brady took a prominent part, being one of the men who did the stabbing. He is also accused of being concerned in the attempt to murder Juror Field. Capable, if his talents had been turned in the right direction, of doing credit to himself and his country, he became through the influence of the infamous Carey and others of like stamp, a willing tool to a murder which has brought disgrace and heart-breaking woe to his own family and checked the cause of Irish re-

A THREATENING DOCUMENT. Nearly all the tradesmen in Dublin have Nearly all the tradesmen in Dublin have received a circular termed an analysis of the special juries on the eighteen trials under the crimes act. Enclosed with the circular was a slip containing the words, "Woe to you if you have any goods of these jurors, for you, and likewise they, will have the blood and suffering of an innocent people on your heads." The slip is signed "By Hook or Crook."

The Pope has issued a circular to the Irish bishops in which according to the telegraph summary it is stated that whatever Mr. Parnell's object may be "his followers often adopt a course openly against the rules of the Pope's letter to Cardinal McCann and the instructions sent to the bishops, which were accepted at their recent meeting at Dublin. While it is lawful for the Irish to seek redress for grievances and strive for their rights, they grievances and strive for their rights, they should at the same time seek God's justice, and remember the wickedness of crime, even as a means in furthering a just cause. It is the duty of the clergy to curb the excited feelings of the people, and urge justice and moderation. The clergy are not permitted to depart from their rules and promote movements inconsistent with them. Collections to relieve distress there are permitted, but subscriptions to inflame passions are condemned. The clergy must hold aloof when it is plain by such movements that hatred and dissemious are aroused, distinguished persons insuited, crimes and musters go uncensured, and when particular is measured by the amount subscribed, for the people are thereby intimidated. Therefore the Parnell fund is disapproved of, and no clergy-ness should recommend or promote it.

KINMOUNT [Correspondence of The Post.]
FIRE.—On Tuesday morning last the shingle mill at Parker's mine, Lutterworth was destroyed by fire. No smoke stack—no

insurance. Loss ahout \$1,500.

PERSONAL.—Miss Louisa Byam has returned from a trip to Orangeville looking as blooming as ever.

THE 24TH.—Kinmounters anticipate lots of fun in Lindsay on the 24th.

MARIPOSA STATION. [Correspondence of The Post.]
SHIPMENT OF CATTLE. -Mr. E. Bowes
shipped five car-load of the finest cattle that eyer left this part for Liverpool, Engand, on the 14th inst.

THAT STEER.—The mammoth steer owned and raised by Mr. William Atkinson.let if on the 7th concession, Mariposa, was weighed and shipped on the 14th inst. The steer was scarcely 3 years and 10 months old, and we believe we are correct in stat-ing that he was the finest steer of his age ever raised in the county. Some time ago, when your correspondent stated that competent judges asserted he would turn the scale at 2.000 lbs., the idea was ridiculed by some. He has been weighed and turned the scale at 2,035 lbs. He brought Mr. Atkinson \$127. If anyone in the county can beat this we would like to hear from

OAKWOOD.

[Correspondence of The Post.] PERSONAL.-Rev. Thos. Reid, M. E. C .. leaves us to take the Queensvill, circuit. and Rev. J. Moran comes to this circuit

the neighboring trustees who intend build- | fine fair-sized calves, now about five weeks old. The cow gives about two and a half pails of milk per day. He has been offered \$60.00 for the cow and one of the calves. The cow, a fine looking one, is mixed Dur-

ham and grade. BAD WAY OF PUTTING IN TIME. -It is nothing uncommon now, to see a lot of people wending their way to our town hall about six p. m., where our village J. P's are sitting in solemn dignity to listen to charges against citizens. The offences are only a little abusive talk though. As it is about house-cleaning time there might be some excuse for their exchanging a word or two, but I am glad to say it is not among them that offences occur. Can. not the gentleman take a lesson from the

milder sex. CATTLE FEEDING. - The great increase in the number of stalled cattle here is something astonishing in the course of a year or two. There has been all winter about every week a lot shipped from here by Mr. Bowes and Messrs Ofenhiemer & Barry. The other week the latter gentlemen shipped a splendid lot, one cow weighing 1,600 lbs; two 2 year-old steers about the same weight, fed by the Brothers McPhaden, town line, Maripesa and Brock; and several older steers about the same weight. Last Monday, Mr. Bowes shipped to Montreal for export no less than ninety-six head, averaging about 1.400 pounds, at a cost of six cents. 1.400 pounds, at a cost of six cents. Amongst them was a fine steer, three years old, fed by Mr. Atkinson, near the station, turning the scales at 2,035 pounds. They were nearly all fed in Mariposa, a few from Ops. The cash paid for them would be over \$8,000.00. Among the sellers were Messrs. Grant, J. Campbell, junior, North Mariposa; W. Stewart, Valentia; S. D. Webster, Aoram Webster, M. Thorndyke and others. Seven were from S. D. Webster and ten from another person. This shows our farmers succeed when they turn their attention in any line and being turn their attention in any line and being favored with railroad facilities and liberal buvers. There must be money made by this branch of stock-raising.

-The quarterly board of the Cobourg M. E. church met on Monday, and manimously accepted the basis of union a rising

-A caretaker at Castle-Island, "unty Kerry, was fired at from an ambus Sunday and severely wounded. Etc. sons have been arrested in connection with -At Woodstock a lad named Daniel Mc.

Intyre had his leg split from the toe nearly up to the hip by a bolt saw in Clark's factory Saturday afternoon, and died in fifteen minutes. -Another source of uneasiness for the people of Halifax in connection with the recent Fenian scare has been the appear-

ance in Barrington bay of a mysterious schooner with some fifty men on board. -A despatch from Chicago states that St. Boniface, Man., has been a tacked by the dreadful scourge of smallpox, with fatalfresult in nearly twenty cases. The disease was caught in the majority of cases by attending the funeral of a victim the

cause of whose death was concealed. -Monday afternoon a little son of John Woon, Oshawa, while returning home from school, was drowned in the creek at the back of the high school there. He took a short cut across the fields, and as he was crossing the creek on a slippery log fell

-Last Monday night a fire broke out in a wooden building at Bracebridge, owned by Mr. M. McLeod, and occupied by Mr. Pawson, a gardener lately from Hamilton. On discovering the fire the mother rushed On discovering the fire the mother rushed upstairs to save two children who were sleeping in separate rooms. The daughter aged thirteen, having been aroused and sent down stairs, she proceeded to the other room to save the boy, aged ten. The father hearing the screams overhead rushed to the stairs, but was unable to ascend as the fire had reached them. A ladder was hoisted by the firemen when they arrived, but as soon as the window was broken in the smoke and the flames drove them back and all hope of saving the mother and sen was gone.
