"SECTION B."

We print cinkewhore some remarkable but not unexpected revelations concerning the "Section ip" contenet on the Parisie ratiway. The contractors upon to have bren gunfrelingamongue themselves as to Edivision of the spoils and "political contelbuttone," One of them was bitterly one posed to critain Items under the latter heading, and threatened proceedings in the courts, It has long been generally hellered that unormous some wore spent by the Dominion ininferers in the commons election and in the recent local content and it seems likely that these funds were obtained from a few farered contractors who will be "recomped" at the public exprine, that the work has been more willtest totograms and drafts for "\$10,000" and "another stouth" were made upon His Hugh Allan. The Clobe's indictment is formidable, and it defies the contractors to go into court on their threatened action for ithei. The contractors dony exceptions charged by the tilohe, but they deny too much. Mr. Alex Manning has written a long lefter denying the clicke's charges, but his denials do not tally with other evidence and utatements, The contractors have made up their quarter, apparently, In the aread of exposure, and will find no Afficulty in getting "encouped" to the ful-166f netont. If the matter was into cours further envelations may be expected.

EDITORIAL NOTES

The benevet to the Hon, Mr. Anglis Jon l'uesday evening at the Rossin house, Toconto, was a great success. It was a fine welcome to a distinguished man. Some points from the speeches next week-

The London Advertiser learns on exrelient authority that the Hon. William Macdongall received at the last general election a decided majority of all the plestoral votes in the district of Algoria. The Warder's course towards Coun.Connolly is characteristic. Ansains that states what is not true regarding Coun.
