THE COUNCIL IN COMMITTEE. The conneil then went into committee of the whole to consider the report of the street and bridge committee. Department Ingle read the report clause by clause, and adder sees explanation as he mount necessary. The item for the sidewalk on Lindsay.st. was supported by Coun. Weese who pointed out that a renewal was absolutely necessary on this section. Coun. Winters said, as a member of the committee, that the estimate all over was very economical and could not be pased downless, reeve MeLennanex present the opinion that the report of the committee should be accepted. The members had exercised great discrimination and had done what was prudent. Othermembers of the council was prudent. Othernembers of the council spoke in favour of the adoption of the report. Counc Crandell urged that several localities were in need of repairs and new work and they were not included in the

ment to expend \$25 only was submitted. The amendment was carried. It was also decided to expend \$25 on the street leading up to the residence of Mr. Wm. Robson. The committee rose and the chairman reported. The report was then adopted.

A BUTCHER'S LICENSE. A petition was read from several rate-payers, in business as butchers, asking that certain persons carrying on the sale of means while not being residents of the town, seriously damaging the business of the local butchers be charged license. The petitioners offered to pay a license if the council would pass a suitable by law. The matter was referred to the committee on town property and public markets, Reeve Peacon adding that his impression was that a license could only be imposed where a town was separated from the county.

POLICE COUNT FINES. Reeve Pracon said that a large amount of police court fines were still unpaid. Negligence was the order of the day. Money was not collected, and in many cases money had been collected by the police officer and not paid in. The police courf register showed this. It was the duty of the police constable to make the necessary collections, and this duty had been uniformly neglected. He now brought to the notice of the council that these things were not collected, and what was the reason? Reeve Dracow said that a large amoun

Coun. Winters said he expected the Coun. Winters and he expected the committee who had the matter in charge to meet and bring in a report.

The clerk was instructed to prepare a list of all uncollected fines and of those which had been paid and not accounted.

OMETATICTING THE STREETS. Coun. Connothy moved that the mayor be instructed to take proceedings to compete the Midland railway to cease obstructing the streets at the various stations in town. He had repeatedly noticed that this was the case and senerally on Sunday. The motion was carried.

After two of three other attempts to ditional work included in the estimate conneil adjourned.

LINDSAY BOARD OF EDUCA-

The Salaries of Teachers Increased

REPORTS OF ATTENDANCE-REPORT OF THE MANAGING COMMITTER COMMUNICA-TION FROM LOCAL CLERGYMEN-GRAD.

Mr. William Grace, chairman, and Mosers, Brown, Pilkle, Wray, Barron, council chamber | McNeillie, Heap, Descon and Bradburn, neetings were read and confirmed.

Reports of attendance from the headmuster of the high school and head-masattendance at the high school is given at 101, with an average of 86. Attendance at a Jawell, sking for repairs the public schools, 702; average attendance

COMMUNICATIONS.

From Mr. Wm. Ray, secretary of Ottawa a sidewalk on portions of Mill st. These | school board, asking the concurrence of luence to bear on the educational depart. ment to have an elementary work introdured in the schools, setting forth the avils resulting from the use of liquors, The board, if they were favorable to the project, to intimate their approval to the ninister of education.

REPORT OF MANAGING COMMITTER. Mr. A. Wray, chairman of the managing committee, read the report, as follows:-Your committee on management report that they have removed the lenes at the union school beares to the north at a cost of about \$10. Your committee would further report that \$10. Your committee would further report that they have let the contract for fonces separating the play grounds at the north and south ward schools, at a cost of \$2 in per rod. At east ward school there is in course of erection a fence and other repairs around the grounds, the nature of which would not admit of contract, but of day indoor."

The report was adopted.

Mr. Harkon pointed out that the agreement made between the cricket club and the school board was that certain buildings should be removed. The club had been at a great expense in putting the cricket and school grounds in proper order and if possible a building now on the grounds should be removed. After some discussion as to whether the building would bear removal, it was decided to have it taken away.

REPORT OF FINANCE COMMITTEE The report of the linence committee was fead by the chairman, Mr. Heip. The report recommended payment of a number of accounts, and was adopted.

A DISCLAIMER FROM THE CLERGYMEN. A communication, as follows, was read from the resident elergymen of the town :

We, the undersigned elergymen of the town of landser, finding that there is a considerable mismaterstanding abroad with regard to our action in signing a paper relative to school matters which appeared in This Four of the lath oil, think it due to ourselves, the school board, and the public schools, to state that our sole wish was last in. Hurrows should have a fair hearing. We also desire to say that we were not aware from his statements upon procuring our signatures to the paper referred to, that he had received any invitation, official or otherwise, to attend the meeting of the school board mentioned therein.

Moreover, we wish it to be known that we are pleased, for the credit of our schools, to find that the board, after hearing the evidence produced by lar, Hurrows and others at their meeting on the left, were able to vindicate the schools in reference to the charges against them. from the resident elergymen of the town :

3350 per annum over the whole staff. In-

8350 per annum over the whole staff. Increase to begin on September first.

The board on the same discussion agreed to consider the matter in committee of the whole, with Mr. Parron in the chair. It was defined that grade 1 should embrace let and 2nd books, salary \$250; grade 2 should include junior 3rd book, salary \$360. To this Mr. Pilkie objected, on the ground that he would rather see a male teacher in each of the different ward schools. He understood that this was the intention of the committee, had observed that our female teachers had very little control over the children when outside, whatever they might do in the inside of the school. In the east ward the people felt that a male teacher was a necessity. Children from the agree of the teacher to enforce order among a lot of boys. Mr. Pilkie briefly stated his viewe that he was in favor of doing away with high schools altogather, as he felt that the board employed more force than was necessary to do the work.

While the board admitted the strength

While the board admitted the strength While the board admitted the strength of Mr. Pilkie's suggestions as to a male teacher in each ward school, the objection was raised that the board did not intend to pay higher than \$650 for any ward school teacher. If a male teacher was placed in the ward schools it would-cost at the rate of \$460 for each teacher.

Mr. Grace also suggested that as the board were now assisting fluancially the teachers, the teachers be notified by resolution of the board that they are expected to practice a personal supervision over

to practice a personal supervision over pupile while in the play grounds.

The committee then rose and reported.

The report was at once adopted.

The board then adjourned.

THE QUEENS HEALTH.

A cable despatch from the Boston Herald's London bureau gives the statement of a correspondent who made it his business to interview a well known and influrelation to the queen's health. He was informed that severe dropsical symptoms had set in, and that the queen's condition is considered so unsafe that her doctors all protested against her recent journey to Scotland. The only reason that caused the doctors to assent to the removal was the fact of the inability of Her Majesty to get about since the hurt to her leg has minimized her outdoor exercise, which has been most sadly missed, but it is thought the fresh sir of Balmoral will in a great degree make up for it. The immediate result of this cessation of outdoor life has been fit after fit of serious depression. This meiancholis has friestened the doctors, and added to the internal morbidity of the system, is causing all who know to anticis considered so usuafe that her doctors system, is causing all who know to anticno very distant date at least a ear of the queen being confined a con-

firmed invalid to her own bed. London special says the refusal of give the facts connected with the Duke of , and is regarded there as significant the condition of the queen's health. It is said to have been directly at the request of the queen that the ministry re-fused to discuss thematter, and it was at her command the premier declined to accept the Duke of Albany's proffered services. Her majesty recognizes the precarious condition of her health, and does'nt wish any of her children to leave the country at present. The Marquis of Lorne would have liked to remain in Canada another year, but the queen would not permit, and the Princase Louise would have been recalledto England permanently this spring, had it not been that such excuse would have been misunderstood and misconstrued.
The queen's health affects the details of government matters in many respects, and since her fall from the stairway with the nervous troubles that followed, and the effect of the death of John Brown, the ministry and those who personally round the queen have had frequent cause of anxiety. Hence such action as that of Mr. Gladstone in turn causes some popular

READY FOR BUSINESS! THE LINDSAY WOOLLEN MILLS

I have during the past winter thoroughly repaired and refitted my Woolen Mill and have added to the equipment additional machinery. I have engaged a thoroughly competent man to run the mill and can undertake to say that I can turn out as good, well finished and serviceable run the mill and can undertake to say that I can turn out as good, well finished and serviceable run the mill and can be found in the province. Service more than appearance will be the merit claimed for my goods. I would particularly call attention to a special make of Tweed which I get up for boys clothing. The goods are fair in appearance and as tough as leather. Heads of families will appreciate this point.

To the farming community I can offer Good ServiceABLE TWEEDS, made of good, honorf Canadian Wool, and which I guarantee to be just what every farmer needs. These can be seen at the mill.

FACIS FOR THE FARMERS!

Let me tell the farmers that at the low prices for which Canadian Wools are selling it hardly pays to raise the wool, but I can offer farmers a bonance if they will bring me the wool and exchange is for Tweeds of my own manufacture.

change it for Tweeds of my own-manufacture.

I will allow is cents per pound for wool in payment of goods. This is two cents more than the wool is worth for cash. I will take wool and manufacture it into good fashionable, serviceable tweeds for 10 cts, per yard. It takes 11 lbs, of wool to make one yard of goods.

By this arrangement Tweeds will cost the farmers only 67c, per yard. Better value can't be had. Think the proposition over. Make your own calculations. Ask your friends to help you had. Think the proposition over. Make your own calculations. Ask your friends to help you had. Think the proposition over. Make your own calculations. Ask your friends to help you had.
