committees were appointed at the meeting held at the end of last week and no doubt by this time they have got down to work. We have not space to print the names of the committees in full but give the names of the chairman of each from whom any information will be fortheoming promptly: Finance, Mex. Melville: sporfs, Min. Grace; kainthumpians, George Weese, Mayor Wallace is chairman of the generale menuitee; A. Melville, treasurer, and F. Dobbin, secretary. A fine day's sport has been arranged for, including the procession of the "Opsonian unconquetables" in the morning, games, sporfs and came races in the afternoon and grand free works display in the evening. The Midland railway have decided to issue tickets at almost less than half tare from all points on the lines to landsay. This alone will chestre a large attendance. With fine weather the day will be a grand success. Among other representations af the freeworks display it is proposed if the funds af the disposal of the committee will warrant the expediture. In have exceeded a design of arches and ornaments of gas pips, perforated in such a manner as to illuminate the whole. This will be very effective and would form a feature of the display. inlists from the International Thront and one testitute to thurch of Toronto, will be of attenth catarchal deafness, bronchitis, asthmany consumption. -Dr. Ryerson of Toronto will be at the Ben-- We understand the revised stationing list sends liev. Mr. Emsley to the Methodist church

On Saturday evening Mr. Baltis Rose, ex-M. P, was thrown from his wagon at Belleville,

breaking one of his ankles and sustaining other It is stated that Nev Dr. Jeffers intends coming to Lindsay shortly to reside here permanently. He is to be placed on the superannuated list. He will be cordially welcomed.

-Mr. James Dickson, P. L.S., passed through town resterday on his way to survey the town-ship of McLaughlin in the Nipissing district. He will be away about three months.

Mr. Thee, Matchett, ir., who has been seriovery ill in Toronto, has so far recovered that he was yesterday brought home to his father's resi-dence here, where we trust he may soon be restored to good health.

Mr. Thos. Scinlan, a graduate of THE Post office, is in town for a few days. Mr. Scanlan has forsaken the "stick and rule" and taken up the business of a plumber. In an American sense to say a man is a plumber is to intimate that he is on the high road to forfune. Mr. J. Williams, formerly manager of the Dominion-telegraph office in Lindsay, has been appointed Midland station agent at Maripoen station. The station will be on the main line to

Toronto and as it is an important wheat and produce shipping point Mr. Williams's duties will be no sinccure. Some of these days he will graduate and later on be holsted to the general traffic agency of some western railroad.

traffic agency of some western railroad.

The celebrated, handsome, genial, witty, wealthy, popular and entertaiping "SX7club" of the Flour City, theelester, N.Y.) pass through landsay to-day on their way to Sturgeon Point for a couple of weeks holiday. This will be their third successive annual visit. They are capital fellows It might not be amiss for our town heads first ox them our gas works, our Sylvester works, our paper mill, our county council room, our new post-office site, our prospective railway station and car works and other things, winding up with a "tug of war" for the "drinks," Theorigin of the name of this club is shrouded in neystery. Some say that there are 7 rep. and in textery. Some say that there are 7 sep, and 8 dem.; others say that when placed on the ground they make a solid homogenous congromeration 887 ft; others that during 7 days of the week they are hearly 8ers. Anyway we trust dan have no doubt they will have a good time.

St Mary's Church Pients.

The annual picnie in connection with St Mary's church will be held in Hutton's grove, west of the town, on Monday, July 2nd. A splendid program of sports has been arranged for and an active competition in all the sports will make the occasion an interesting one. The Harris orchestra will furnish splendid string nucle. Refreshments on the ground from 11.30 a.m. until 2 p.m. Cheap railway fares have been arranged for by the committee. Any in-formation relative to games, etc., will be furnished by the obliging secretary, Mr. James

A 's Weeping sale. We might define a "sweeping sale" and give a reasonably accurate definition, too, but a practical explanation is more satisfactory. This is just what A. Campbell will give during the next month or so. In order to clear out the stock of crockery now on the shelves everything will be sold at bare cost prices. The reduction from ordinary rates is something large and the opportunity is one that should be taken advantage of by housekeepers all over the country. The goods are all of the very best description. By referring to the large advt. on the fourth age the facts in the case will be clearly under

Legislative School Grant. The amounts apportioned to the various unicipalities in the county of Victoria for 1883 re as follows: Bevley. Brunet. Carden and Dalton Laxton, Digby and Longford

Mariposa. Somerville. Lindsay public school Bobeaygeon ..

This breed of sheep is becoming quite popular

this district. Mr. Collacott of Tyrone, a l breeder well and favorably known in this see tion, has recently imported a flock of forty-six one half of which he has already sold. The West different flocks, one of which had hever before been broken to ship for America; and the other flock had only shipped ten before. In size, we should say they are large and their wool is thick and very fine. They are a black or dunn color in the face and legs, the rest of the body being white. The fleece averages from 8 to 10 lbs, and the mutton is of the finest quality. With the exception of about one day, the entire tripthe exception of about one day, the entire trip was remarkably fine, and the sheep were just, a lively when taken from the vessel as the day they were shipped. Mr. Collacottdeserves great credit for hie andeavor to improve the stock in this vicinity, as in addition to the sheep, he has one of the finest herds of thoroughbre Durham cattle anywhere around these parts some of which have been imported at great ex pense." This is the same breed introduced by Grant & Campbell of Mariposa. They are well worthy the attention of farmers. We believe this breed will prove the most profitable, all things considered, that farmers can raise, and it is specially welladapted to our local climatic and other conditions. The breed is highly praised by Prof. Brown and other authorities.

The Mariposa Grangers' Picnic.

The picnic of Mariposa grange in Terrill's grove, near Cambray station, on Tuesday last. was a great success. The attendance was very large, though it would have been larger if a light shower and some threatening clouds had not keep a good many away. Still it was probably the best pienic of the kind. The beautiful grove was in-capital condition, and furnished perfect shade. The ladies of the grange provided a bountiful dinner and after this and the baskets had been discussed, the addresses from the had been discussed, the addresses from the speakers of the day came next in order. Mr. John Cruess presided, and worthily and plea-santly discharged his duties. Speeches were made by Mr. J. P. Palmer of Rose tale Grange; Mr. Stevens of Balsum lake; Mr. Hilborn of Uxbridge, and Mr. Wilkinson of Cambray. All Uxbridge, and Mr. Wilkinson of Cambray. All spoke well and were well received. Mr. Hilbora made the speech of the day-full of sensible ideas and sound advice, interspersed with capital hits and well told anecdotes. Votes of thanks to the speakers, the ladies and the band were heartily carried. The Cambray brass band played a choice selection of p-pular airs during the day and contributed much to the general pleasure. There were also games, sports and other amusements. The number of pretty girls present was simply immense, and if they all belong to the gringe the success of that institution is assured. An experienced judge tells us that he never saw so many pretty girls of control and not grangers—at any picule in the district.

On Monday affernoon of this week gas was

urned on the mains and in the evening the It was expected that the gas would have been ready for use the Saturday night before, but the thunder storm and consequent danger therefrom had a great deal to contend with and a number of unfortunate delays have occurred even since the works were practically completed. The gas is made from coal and oil by the "Lowe" system and is of a very line quality, burning with a bright, clean, white light and of maximum illuminating power. The standard adopted and by which gas is measured is technically known as "If candle" power. The gas from the Lindsay works is far above—and is said by visitors to the town to be superior in point of glow and brightness of theme to that supplied in any Canadian city. The plant by which the gas is made is a costly one and the company have spared an expanse where it could be shown that throughtness and stability would add to the efficiency of the system, Everything was found to work perfectly. From the generator right through the apparatus to the honder there was not one little in the arrangements. It certainly reflects credit on the builders of a large perton of the plant, Mosms, losy a Bon of Toronto, and upor the mechanic is charge, Mr. J. Young, under whose direction the space at our disposal to the coverything should should prove as satisfactory. We have not the space at our disposal to of unfortunate delays have occurred even since.
