—During the progress of the East Northumberland election trial at Cobourg on Thursday last a tremendous noise was heard above the ceiling of the court room, and a rumbling and crashing as if the roof were falling in, and a general stampede of counsel, constables, spectators and body except the judges took place. One man in the excitement jumped right through the large pane of glass in one of the windows. It turned out that it was only the Holman opera troupe who were in the hall above moving heavy articles about, and in doing so had knocked down a lot of benches or something of that kind, and in a few minutes the parties who had so suddenly levanted came back looking very sheepish.
