COMMERCIAL NEWS.

OFFICE OF THE CANADIAN PORT.) Laxinay, Sept. 6th, 1983, Business and Produce.

The market continues quiet. New grain in not moving set. A load of fall wheat offered on Tuesday was a very inferior sample. Sarley has been offered the quality being excellent. Prices for barley are not of such a character as will induce an early sale of stocks. Other grains and produes are at last weeks priess,

The state of the wheat market leads the Montreal Gasette to remark: "Instead of the demand for wheat in England increasing an we were led to expect by the utteranem of certain Western and New York trails authorities for some timepast, it has been steadily diminishing. Cable advices this morning reported scarcely any inquiry for cargons of wheat in all positions as buyers were persistently holding off. Inonly exception to the prevailing flatness being in spot stuff in Liverpool, which was quoted steady. Maize ran a parallel course to that of wheat. In Paris the market was steady for both wheat and flour.... The tone of the wheat market in Chicago was completely demoralized, and prices again receded under the influence of continued magnificent weather for the ingathering

of the spring crop. No. 2 spring wheat selling ; in Ic lower at the close at 10c. The continued depression in the wheat prise to many operators on both sides of the Atlantic. About a fortnight ago, when No. 2 spring wheat sold in Chicago at \$1.04 down to be on Saturday, and closing at the. There has also been fully as great a drop in Liverpool, if not greater, and it is stated upon good authority that quite a large number of English houses are holding large quantities of high-priced stuff for better prices, the knowledge of which is one of the chief causes of the dull state of affairs in England, as buyers fear to anticipate their wants until the large-stocks now waiting for a market have been reduced. Consequently buyers only care to provide for immediate consumptive requirements. Then if the situation be surveyed on this continent there is nothing at moment to atimulate any great improvement in prices, unless it is that present prices may be considered cheap enough to induce a sufficient number of outsiders

to invest in the leading cereat. The Mark Lane Express of Monday last in its review of the British grain trade for the past week says: Should fine weather now ensue the interruption in the harvest work will be no real detriment to the crops. Montreal Horse Market. good demand exists for all kinds of de

affable horses, but the supply is not excessive. Mr. Kimball, of the Montreal horse exchange, has just received by a.s. Con-cordia twenty one Clydesdales, stallions and mares, also one Egyptian pony, and are now for sale at his stables. Mr. Kimball expected about forty more horses to arrive by s.m. Huenon Ayrean. He sold one horse for \$155, one pair horses for \$125, one horse for \$250, one horse for \$225, and one do, for \$250. The following is the list of horses shipped to the United States for the week ending Sentember let. August the week ending September lat: August 27th, ten horses, \$1,003.50; four horses for \$522.50; five horses for \$750; three horses for \$370; seven horses for \$370; seven horses for \$1,350, and three horses for alles.

At Menara, Acer & Kennedy's yard, Point St. Charlen, there was a fair demand for export eattle, which sold at from 5 to deper lb. live weight. About 300 head of cattle were offered for sale at the Viger market, which met with fair enquiry, the best quality selling at 4c to 5c per lb, and ordinary to fair at from 3c to 4c. Some 300 sheep and lambs were for sale, the latter bringing from 32 to 34.50 each, and sheep from 34 to 34 per nead. A few calves were disposed of at from \$5 to \$15 each, according to size and quality. Live hogs were in limited demand and prices favoured buyers. We quote \$6 to \$6.50 per 100 lbs., as to quality. Mesars, Acer & Kennedy report the receipte of live stock at their yards for August as follows:—Cattle, 13,500 head; sheep, 5,000; which indicate an increase of Montreal Live Stock Market. sheep, 5,000; which indicate an increase of 235 carloads of cattle and 127 carloads of sheep over those at the corresponding date

Readers of the Commercial cannot well force that a large space has for years been taken up by Kendall's advertisements-especially of a certain Spavin Cure. We have had dealings with Dr. Kendall for many years, and we know of some large business houses in cities near by, who have also dealt with him for many years, and the fruth is fully and faithfully proven, not only that he is a good honest man, and that his celebrated Spavin Cure is not only all that it is recommended to be, but that the English language is not capable of recommending it too highly.

highly.

Rendall's Spavin Cure will cure spavins.

There are hundreds of cases where that has been proven to our certain knowledge, but, after allifany person confines the usefulness of this celebrated mediates to curing spavins alone they if any person confines the usefulness of this cele-brated medicine to curing spavins alone they make a big mistake. It is the best medicine known as an outward application for rheuma-tism in the human family. It is good for pains and aches, swellings and lameness, and is just as safely applied to men, women and children as it is to horses. We know that there are other good liniments, but we do believe this spavin cure to be far better than any ever invented,— 52-1.

The "Parisian" Beats the Record. In a Toronto paper there lately appeared one of Joaquin Miller's letters on Canada, in which allusion was made to the most remarkably short passage of the Atlantic ever made. Tour days and seventeen hours," This unprecedented run was made by the "Parisian," of the Allan line one of the finest steamships affoat and one of the more recent additions to their fleet, which arrived at Quebec at the p.m. on Friday, 13th uff., "making the run from land to land, or from a beam of Tay to a beam of Belisle, in four days, seventeen hours and twenty live min-utes." It is unnecessary forms to comment on this unique specimen of rapid transit." The Allan line of steamships have, on many occasions, made unusually quick passages, and, although the "Paristan" has, on this occasion, outstripped all competitors, there is every reason to believe that almost any one of her sister vessels belonging to the same line of the same line ing to the same line can make a quicker passage either way than any ship affoat. The Allan line has rapidly come to the front as the most popular line of transatlantic vessels. They are safe, commodious, comfortable and ably commanded; and Canadians have every reason to be proud of their "Canadian line of royal mail strangers." R. S. Porter, book seller, is the agent

THE MASSEY LOW DOWN BIND ER A GRAND SUCCESS.

TESTIMONIAL PROM A WELL-KNOWN OPS FARMER. Ors, Sept. 5, 1883.

The Massey Mig. Co., Toronto. GENTLEMEN, I bought one of your Low-Down Binders this year from your agent, C. McLean, findsey, and I must say that I like it better every day I see it run. My little boy Walter does all the cutting. He is only thirteen years of age. I never thought that there could be a of age. I never thought that there could be a binder got up so simple that a small boy like this could handle so well. He can cut as heavy grain as grows out of the earth. I think I would like to see the grain he could not cut with if. He can make as large a sheaf as I want, and he can tie it as tight as I want. He has not broken be, worth yet.

Answers to Mr. C. G. Cody's Questions Respecting the Low-Down Sinders. To the Estitor of THE CANADIAN POST.] Sin, -I notice in the last two issues of The Post some questions from Mr. C. G. Cody respecting the well-known Massey Low-Down Binder. I consider Mr. Cody's questions very simple. A boy of thirteen years of age can handle this machine to perfection in all kinds of grain. We can make as large a sheaf as you wish or no sale. It will handle the heaviest crops that grow or no sale. It will cut a full swath in the heaviest grain that grows or no sale. All I sak is for intending purchasers to come and see it work in the field and see every binder in the market, then judge for themselves. I have sold nine of these binders this year, and from the time we got the last one started ton the 10th day of August last) there has not been one man with me to say "My binder is not working; come and see it; or come and fix it;" nor has there been one dollar's worth broken on all of them. This is what Mr. Cody cannot say, I think, for nine binders. specting the well-known Massey Low-Down

IF YOU ARE THINKING

AT ANY TIME

Of spending a little ready eash, and wish to make that little go a long way, you will naturally begin to think and ask yourself the questions: "Where can I spend my money to the best advantage? Where can I get the best value for it?" It may be that you are in want of a New Tea Set, Dinner Service or a Toilet Set; or perhaps you are just out of Ten, and you don't feel quite satisfied with the last Tea and have resolved, if possible, to get the next lot a little better in quality and for less money. Sugars, too, a very important item in Domestic Economy, you think you have not been getting quite as many pounds for the dollar as some of your neighbors. Such reflections as these and others naturally present themselves to the minds of all thrifty Housekeeprs. No trouble or anxiety need be experienced by them, however, if they will call early and make their purchases at
