A special London cable dispatch to the Chicago Tribune says: There are at present three grave warlike situations in Europe. The only one of the great powers at present absolutely unentangled, and therefore in a position to cast her influence for process, is linguished. The Chinese difficulty is in its meet ominous shape. The turbulence of the Croatians has reached the revolutionary point. Germany has demanded of Huseis an explanation of the activity of its agents in Hulgaria, and Russis has declined to answer. Throughout the continent there prevails a feeling of feveriah insecurity, and the actions of the continental rulers are closely watched with feelings of profound disargue. France is divided as to the advisability of pushing the Tonquin three grave warlike situations in Europe. to the advisability of pushing the Tonquin invasion, while Chine appears to be sold for war. The New York Tribune's London cable letter says English sympathy increases toward China, because France endeavors to break away from European comity and to secure special advantages for herself. The French chambers will meet next month if fighting does not prevent a settlement meanwhile. The French government will then be compelled to patch up its quarrel, for the French nation, outside of the Paris cotorie, is clamoring for peace.

A sad accident occurred at the Stock-weil flouring mills, Gait, some time during Wednesday night, resulting in the death of John D. McKensie, a well-known resident of Gait. For some time cattle in Davidson Co., Tente, have been dying in large numbers from an unknown disease, and it was thought that they were victims of mus-rain. An expert, who examined a large number of cattle, corrects this impression, saying that the animals have been poisoned by a foreign breed of ticks. The ticks are frightful looking insecte, and were probably introduced into Tennessee by southern cattle that were brought there to graze. Sometimes the cattle will shed the ticks without evil result, but in most cases death

A young man named Howe, a resident of Ottawa, went fishing on Thursday and proceeded to explode a dynamite cartridue is a pool known to be the resort of fish. While young Howe was preparing to carry out this scheme the dynamite cartridge by some means prematurely exploded in his hand. The result was that his right hand and thumb and the two first ingers of his left hand were blown off; his left eye was destroyed; but harms had a large portion destroyed; both arms had a large portion of the flesh torn off and the chest and stomach were badly injured. Notwithstand ing these injuries he walked into town, and after having the wounds drassed drove to the Roman Catholic hospital.

-A Vienna deapatch says: Russia is making extensive military preparations along the Austrian and German frontiers. Tenders have been saked for 36,000 military beds. All railroads have been ordered to have military cars in readiness. A list has been made of private steamers in the Black sea, and the captains ordered to pre-pare for the transportation of amunition, troops and provisions. These vessels have cessed executing private orders, and the carriage of corn is interrupted. Enormous provision depots have been established along the frontiers. Two army corps have been distributed between the Vistula and fing rivers. Lists have been prepared of all persons who in the event of war will be deported from Poland to the interior of

-The nihilist organ, Narodraja Wolja, publishes an account of the excesses at ikaterinosias, where the anti-fewish riots recently occurred, which is quite different from the official version of the affair, and in which it is stated that 200 persons were killed by the troops. The tone of the Nar-odraja Wolja shows that the nihilists are odraja Wolja shows that the ninilists are not foreign to these excesses, but desire their frequent repetition. The Petropaulowski citadel, the paper states, though a number of prisoners had died, was so crowded recently that fifty prisoners had to be removed; many of them were so ill they were carried off on stretchers. The nihilist Ichirjajeff died there from the effect of had treatment and a female nihilist fect of had treatment, and a female nihilist was shot dead while attempting to effect

her escape. -The London Times says O'Donnell, the avenger, is to years old, and a native of Meracladdy, county of Donegal, Ireland. He has been in America several times and served in the American war; lived in Philedeiphia, and kept a public house on the Canadian border. He invested in silver Canadian border. He invested in silver mines and Fenian bonds, lost his money, and returned to Ireland last May and frequented the company of Irish Americans in Londonderry. He carried a revolver and was considered a strong Nationaliet, but opposed to the Invincibles. When Carey turned informer O'Donnell declared he would burn him by inches. He went to the Cape to seek work because he considered America played out. He had never seen Carey before taking his passage, and had no idea the informer was on board. The defence will probably be that Carey tried to shoot the prisoner. tried to shoot the pri-oner.

-O'Donnell's arrest has led to the usual flood of threatening letters, but the precautions that were taken made escape impossible. There is genuine anxiety respecting Mrs. Carev's safety, and the police are taking special precautions to protect her son. The O'Donnell defence fund is now ample. The trial will be very brief and may only occupy one day... The New York Tribune's London correspondent says: James McDermott's sequittal was unexpected and has given color to the suspicion that he was arrested to secure him protection from the vengesues of those who suspected him of betraying the Fenian cause.... The statement is made that McDermott was released on representations received from English agents at New York as to the value of the services which he rendered them. The feeling against him is sufficiently strong to make his murder more than probable.

-A Toronto paper relates an amusing incident which it says occurred at the Zoo lately, and which may bettne or may be an old story revamped. In the audience were seated a father and sen, wither of whom had seen a theatrical performance of any kind before. They were therefore tremendously intere ted in the woes of the hercine. At length they had arrived at that part of the opera where Olivette's father insists that she shall marry the old sea captain. Up to this point the aged spectator had been freely commenting on the old scoundrel who was treating his daughter so shamefully, but when this climax was reached he urued his son to interfere. The son was very much excited, and he jumped to his feet, and, striking his fist in the palm of his hand with a concussion like a pietol shot, he shouted, "Here, thar, you old bald-headed rip, let that ere gal alone—let her marry who she likes." The old gentleman also cried out, "Let me get at him—I'll hammer blazes out of him!" and him-I'll hammer blazes out of him!" and with that made a rush for the stage. A Front et. merchant, who knew the two excited rurals, caught the old man and press-ed him firmly into his seat. It was some time, however, before their excitement subsided, and it was explained that it was all merely playing.

W. H. GROSS, Dentist, Nearly 23 Years' Experience. ENGLISH BLACK RUABLE PLATES. Mr. Gross is using for his best dental plates GOLD, PLATINA AND BLACK RUBBER, three of the most reliable materials now in use for the purpose. Mr. Gross uses the purest English Black Rubber, and never during his experience of nearly twenty-three years, has he been so uniformly successful with any material. Rack Rubber is non-irritant and hon-conductbeen so uniformly successful with any material, Back Rubber is non-irritant and non-conducting, and cannot therefore produce congestion or any other disease of the mucuous membrane of the mouth. Thousands of people who have been not only annoyed, but act ally tortured by the attempted use of red rubber and other poisonous plates are to day wearing BLACK RUBBER PLATES with pleasure never before known in their experience with artificial before known in their experience with artificial teeth. An attempt is being made by a certain nonplused dentist to force upon his patrons a humbug called a "gold alloy plate." Do not be deceived by it. It is nothing new, but an old thing revived, and does not contain an atom of Gold. Mr. Gross has a sample of the genuine artists from which subdeller plates. article from which goldalloy plates are made, and any one can see it by calling at his office. He will make plates of what is called Gold Alloy or of Red. Rubber for persons who want such plates, after their poisonous nature has been fully explained. If you are about a street fails early included in the control of the c plained. If you are about getting artificial teeth, and want something that is good, and that will stand the test, get them made on Gold, Platina or Black Rubber, and you will have no cause for regrets. In some respects the Black Rubber is superior to either of the metals named, and can be furnished at about one-fourth their price. A full upper and under set of teeth from \$8 to \$65. Mr. Gross is using Liquefied Nitrous Oxide Gres, the purest, safett, and most reliable form of gas in use. The natural teeth preserved by filling, and fillings natural teeth preserved by filling, and fillings guaranteed for five years. Mr. Gross will take pleasure in explaining everything to persons who call for information. Rooms over J. KENNEDY'S Store, Kent-st., Residence Russell-st.

Newcombe Pianos.

THE EMINENT ARTIST.

BOSTON, 15th Sept., 1881. Messrs. Octavius Newcombe & Co., Toronto.

DEAR SIRS. - For brilliancy and sympathetic quality of tone I consider your Upright Pianos unequalled by any made in Canada. The touch is responsive, the treble is clear and resonant, so that I can in all respects recommend them. OTTO BENDIX.

LETTER FROM DR.C. W. STRATHY.

so long known in Toronto as a most thorough and accomplished musician. TORONTO, 26th Sept., 1881. Mesers. Octavius Newcombe & Co. GENTLEMEN—After thoroughly testing the Upright Pianos you are are now manufacturing, be playing on them and making a critical examination of the mechanism and workmanship. I have much pleasure in stating that on account of the following qualities, viz., brilliancy of the trebesonority of the middle part and power of the bass, and at the same time equality of the tone throughout, with agreableness of touch. I conbase, and the throughout, with agreeableness of touch, I consider them entitled to be ranked among the best instruments of the kind manufactured on this

continent. Wishing you every success, I remain, gentlemen. Your obedient humble servant. GEO. W. STRATHY, Mus. Doc. Professor of the chair of Music of the University

of Trinity College. Toronto, etc.
