Some years ago the defendant purchased the lot to the north of the Milling lots and to different parties, and the defendant used it as such for the past nine years. In July last Mr. Fleiding sold all his land to the plaintiff except the village lots note to different parties, and the plaintiff then closed up this street with a gate, which defendant took down. Hence this action. The plaintiff contended that Fielding left this for a street in case he sold another tier of lots in the rear, and it was shown by the defendant, when the lide nell one lot in the rear to one Parker, who used the lot in question for a street in case he sold another tier of lots in the rear to one Parker, who used the lot in question for a street. To the Editor of THE CANADIAN POOT. Sin,-As a member of the mann ing commistee of the Lindeay Contral will fou allow me a short space is your valuable unger to make a few remarks on the etter of "Stockman" in last week's isoue. His first charge against the committee is "we wanted to charge him ten cents for a mail handful of straw, and so his stock had to do without any." I am not aware The fact is we were so driven with work for the show we could not attend to it. Then stockmen generally bring their own etnff. His next complaint is, "we charged \$1 for each stall, and tried to squeeze every cent we could out of the stockmen." Does

cent we could out of the stockmen." Does he know that every cent we make goes to swell the prize list. One would think we put the money in our pockets. Then he says when he asked one of the officials he was told "to go about his business." Was this official, who gave him such a discourte-ous reply, one of the committee! Then his reference to "aristocrate of Lindsay" is neither generous ner just. Does he know that Lindsay gives a large past of the memship; that Lindsay gives a large past of the memship; that Lindsay gives us \$200 of a guaranten if the show should not succeed! Does "Stockman" know that Lindsay nobly gave us also over \$250 private subscriptions and paid it too without a grumble. So I think they have not hurt the bone and sinew of paid it too without a grumble. So I think they have not hurt the bone and sinew of the country much. True, some of the merchants showed some of their goods in the hall without paying for their straw, but neither did they claim the prizes. Then they kindly took the ground we gave them, which we could not use ourselves. If "Stockman" will come to the annual meeting he will have little trouble in getting elected to any of the offices if he will agree to work as hard as some of the members have done this year, I think it is a pity that "Stockman" should feel it necessary to write in such a style, Its tendency, whether intended or not, is to hurt coming shows. There doubtless was mistakes; perhaps as There doubtless was mistakes; perhaps as few as at any other show. Then at all other Centrals the committee were peid for heir time but at this we do not get one cent, although some of the committee worked from Monday morning until Friday evening, and searcely got time to see anything on the ground. Hoping the next Central will be far better than the last, and in order that nobody class may be blamed for my scribbling I subscribe myself, yours respectfully, Isaac W. Ikkib, Iteaboro, Oct. 15th, 1883.

The Table Book of Art. Mr. J. Lenthan has secured the district agency for the "Table Book of Art," a large and handsome volume copiously illustrated by tine engravings on wood and steel. It gives a brief outline history of art in all countries and ages and contains illustrations of the most famous pictures. The work is brought out by Oco. Viriue, the well-known publisher of Toronto, and is bound in several styles neatly and substantially. It will be found instructive as well as interesting, and will make a suitable ornament for the parior or a desirable addition to the library. The price is moderate, considering the style and size as well as anality of the book.

American Cause Association The Peterboro Review says: "Col II. C. Rogers and Mr. R. E. Wood of Peterboro have been at Albany attending the meeting called by Comat Albany attending the meeting called by Commodore Nickerson, the former as rear commodore and member of the executive commute,
and the latter as representative on the regatta
committee for ISM. Owing largely to their preschee and influence the Thousand Islands was
decided on as a place of meeting for ISM. There
was a strong feeling on the part of some members in favour of lake George and the vote was
a close one indeed. The regatta committee accomplished a considerable part of the work
necessary before the next restaits. Mr. Wood,
who returned home on Monday, reports that the
Peterbore representatives were magnificently Poterboro representatives were magnificently entertained by the Albany oarsmen."

An announcement in other columns, which failed to reach us in time for last week, conveys the information that our genial young friend. Mr. T. E. Cunningham, has gone over to the noble army of benedicts. Mr. Cunningham is a genial favorite, and all who know him will wish him and his bride (a pretty and accomplished young lady from Cobourg) many long and happy years. The ceremony took place in Cobourg. A correspondent writes: The bride entered the church on the arm of her father, followed by the bridesmaids. Miss lazzie Doherty and Miss Maggie Fox, and the guests. Professor and Mrs. Dickson presided at the organ, and played a oca-atful wedding march. The bridesmaids were dressed in the same color as the bride with plash basques to match. The orgoom was supported by Mr. Peter Curtin of Landsay and Mr. Will Fox, brother of the bride. After the ceremony the bridel party drove to the residence of the brides father, where supper was served, toasts given, and appropriate speeches made by Mr. Wm. Doherty, Mr. D. Fox, Mr. P. Curtin and others. The happy couple left on the lightning express for a short tour west. The presents were numerous and and were as follows: noble army of benediets. Mr. Cunningham is a

-The Port Hope Times says that three Grand Trank engines have recently been placed on the Midland railway, thename of the road and the numbers being alteret on each. The sink hole on the O. & Q. railway near Maberly again went down. There is shelving rock upon which no told can be secured. It is probable that the roue will be changed, as there is little hope of making the sink hole passable.

-The Omemee Hersid contained the following under a sensational heading:—"On Monday, Oct. 8th. the first trais of cars was successively taken over the big bridge across Huttermilk valley on the missing link. Engineer W. Pilling, Conductor Ed. Aym and Fireman H. Maloney being the heroes. The speed made when crossing was at the rate of about four miles an hour. The bridge is perfectly safe, as it stood the great strain without a quiver. On Thursday afternoon ly, Higinbotham, Mr. J. D. Thornton and the editor of the Herald had the pleasure of a trip over this immense structure. We think the directors of the Midhad railway should promote the above train hands as a reward for their bravery in taking the first train safely over."
