J. MEELANDS, Dentist. Over 20 years Experience.

Is now using the GOLD ALLOY PLATES for Artificial Teeth with great success. People are delighted with it. Nothing before ever introduced equal to it. Mr. Neelands has purchased the patent right for this section of the country. The amount of gold and other materials used is a secret, and only known to Mr. Neelands. The person who says there is no gold in it, evidently knows nothing about it. Mr. Neelands will put up \$500.00 to \$100.00 that every set of teeth made by him on this material for patients contains Gold. Black Rubber has been used by him for the last 17 years and is nothing new. Any person making any pretenbeen used by him for the last 17 years and is nothing new. Any person making any pretensions to the name of a dentist can make teeth on the "Only Genuine English Black Rubber." It is kept constantly on hand by J. Neelands. By a new process Mr. Neelands will guarantee to insert Lower Sets of Teeth where they are considered hoveless on account of the absorption of the jaw. Mr. Neelands has recently received a letter from Dr. Colton of New York, the inventor of gas for extracting teeth without pan, in which he states he has given the gas to it. ventor of gas for extracting teeth without pact, in which he states he has given the gas to it of 613 persons without an accident. Mr. Neelands gives the same kind of gas and made a special study of it under Dr. Colton. Has splendid success. Teeth filled to last a lifetime. A book of nearly 60 pages of valuable information given away. Office next door to R. Smyth's Store. May be found after hours at private residence, Mill-st., near Kent.
