—Queen Victoria leaves England at the end of March for Darmatait, to be present at the marriage of Prince Louis of Battenburg with her grauddaughter, on April 15. The queen's new book, "Life in thilighlands," is expected to be published by the middle of February. It is in one volume, octavo, and will contain eight portraits, besides many cuts from drawinus made by the queen and Princess Beatrice. The book tells how John Brown became her confidente, stating that Brown was especially recommended by the Prince Consort while the latter was dying, as a man with unostentatious devotion who would with unostentatious devotion who would lay down his life in standing between his sovereign and all narm. Under the order of the queen the artist Augeli has painted a life-size portrait of John Brown.

-The New York Times's London cal The New York Times's London cable-letter says: The attacks upon landlords, which form one of the new features in English journalism, are getting more and more personal. One peer is attacked by name for puffing an insurance company, another for refusing school sites, and an agricultural journal publishes a black-list of those who force their tenants to contract the measures out of the tenant set of last of those who force their tenants to contract themselves out of the tenant set of last year. It is also significant that the address in reply to the queen's speech will be seconded by Mr. Samuel Smith, a liberal of the ultra philanthropic school. Henry George, however, makes no headway, and is denounced by the liberals as helping the tories. He is sharply reprimanded by an Irish weekly for disparaging the Celtic and eulogizing the Saxon race.

-The New York Sun's London cablegram says there has been much speech-making the past week. The tension of the bour displays itself in language exceptionally rude and ferecious. Gladstone and Chamberlain are the chief targets of attack. Chamberlain are the cutet rargets of attack. The premier has been currly described by one political opponent as a humbug, by another as a time-serving and unserupulous politician, and by a third as a traitor to the empire. He is in the meantime quietly enscorsed in Hawarden, and has been delighting himself at an entertainment where he added care against him youngaranted. his eldest son sang, his youngeracted, and his daughter played the piano. Next week he comes to Downing street and the cabinet councils. Mr. Chamberlain, whose latest epithet from his enemies is "a medlatest epithet from his enemies is "a med-dling and conceited youngster," has again distinctly advanced himself by facing a meeting of rude and angry shipowners, and bearing down all their objections to his new bill for protection of life at sea.... Lord Salisbury and the tory Quarterly Re-view have defined the newest and most eccentric attitude of toryism to the fran-chise question. Ireland, he says, ought to have it if England gets it, but as Ireland can't have it because of its rebellious spirit, England must wait. This is interpreted to mean that Salisbury will force a dissolution in the hope of winning a majority, and that then he will himself announce the franchise, and save the tories by a gerry-mandering redistribution. SirStafford Northcore has also been talking, but the London Times denounces him as flabby and ordinary people no longer read his appeaches.... Another cable letter says Mr. Gladstone has issued a circular to his immediate supporters that electoral reform will be the first business of parliament, which opens Feburary 5th. It is generally understood that the government franchise bill will embrace England, Ireland, and Scotland, and a redistribution of seats. A still more difficult subject is a reform of the corporation of London. The difficulty is what to put in their p ace. One propose is to extend the election of mayor and alderman to the whole of the ratepayers. and transfer the chief duties to the board

of works and the rest to different departments. Those who regard our parliament ary system as the source of English liberty are looking forward to the coming seasion with fear and trembling.

J. MERLANDS. Bentist Over 20 years Experience

Is now using the GOLD ALLOY PLATES for Artificial Teeth with great success. People are delighted with it. Nothing before ever introduced equal to it. Mr. Neclands has purchased the patent right for this section of the country. The amount of gold and other materials used is a secret, and only known to Mr. Neclands. The person who says there is no gold in it, evidently knows nothing about it. Mr. Neclands will put up \$500.00 to \$400.00 that every set of teeth made by him on this material for patients contains Gold. Black Rubber has been used by him for the last if years and is nothing new. Any person making any pretensions to the name of a dentist can make teeth on the "Only Genuine English Black Rubber." It is kept constantly on hand by J. Neclands. By a new process Mr. Neclands will guarantee to insert Lower Sets of Teeth where they are con sidered horeless on account of the absorption of the jaw. Mr. Neclands has recently received a letter from Dr. Colton of New York, the inventor of gas for extracting teeth without pair, in which he states he has given the gas to 186-613 persons without an accident. Mr. Neclands sives the same kind of gas and made a special study of it under Dr. Colton. Has splendid success. Teeth filled to last a lifetime. A book of nearly 60 pages of valuable information given away. Office next door to R. Smyth's Store. May be found after hours at private recidence, Mill-st., near Kent. Persons from a distance will please send postal card before coming.

W.H. GROSS The Oldest Dentist in Victoria County Over 23 years Experience, From June, 1969, to December, 1883.

For any kind of dental work that will stand he test of time, call at GROSS'S DENTAL ROOMS, Lindsay. ROOMS, Lindsay.

ENGLISH BLACK RUBBER PLATES have no superior in the world for durability, cleanliness, purity, perfect adaptation to the mouth and comfort to the wearer. Hundreds of people who could not use any other kind of plate, are wearing them with the greatest satisfaction. Mr. Gross is the only destist in Lindsay who uses the genuine English Black Rubber. The inferior American black variety is well calculated to deceive, and the public are cautioned to be on the lookout for it, also for that mammoth humbug called "Gold Alloy." No sensible man or woman who reads the papers will allow themselves to become victims of this glaring fraud. Mr. Gross makes a specialty of the preparation of plates for lower jaws wasted by shrinkage or absorption. He made last week for parties in Manvers, two perfect-fitting at so of lower teeth, given up by another Lindsay dentist, after repeated trials with his "new process". About 10,000 teeth toselect from. Most likely the largest, and certainly the best selected stock of artificial teeth ever brought to Lindsay. The natural teeth permanently filled and saved. Gold fillings inserted by the Electro-Magnetic Mallet, a new thing in Lindsay. Fi lings guarante d for FTVE YEARS. A Full Upper or Under Set of Teeth from \$9 to \$65. Liquified Gas and Electricity successfully used. Gross's Dental Catechism containing valuable information on the cubject of teeth. Call and get one free. ENGLISH BLACK BUBBER PLATES
