A NARROW Escape, - Last Sarneday had a narrow escape from mutilation, if not from death, by the bursting of a gun with which he had attempted to shoot a wantered that had got into his father's hard. The weapon was loaded with a bullet which was a tight fit and probably was not rammed home; and when the trigger was pulled there was a terrific report, three or four inches of the butt end of the barrel was forn open, the breech disappeared, the lock was blown about ten feet, the stock was broken, the rib best in several places, and the builet flew sideways with such force that it stock into the wall of the barn. Strange to say, the young man

escaped unfort. For a short time after the explosion there was a slight numbers in one of his fingers, and some of the powder struck him in the face; but the marks of it had almost disappeared by Tuesday.—[Garacte.

OFF FOR ARKANSAN.—Mr. Richard Allin of Derrysille, left for Helena, Arkansan, on Tuesday. Dick has spent a couple of years in that sunny clime aiready and is of the opinion that its atmosphere is more conducive to the development of his abilities than that of Ontario. He intends taking a situation as a machinist in a large railway machine shop there. He is a fine young fellow and possesses a good deal more that ordinary mechanical falent and will evidently soon make his mark in the land of his temporary adoption. We expect, however, that he will shortly pay another quiet but practical tribute of respect to the strong claims that our own unequalled county has on the attention of every young man of energy and intelligence no matter what his vocation in life may be.

FIGRTICULTURAL SOCIETY.—A meeting for the purpose of taking some preliminary steps in the direction of organizing a horticultural society in Cannington was neld in the town hall in that village on l'riday evening. We understand that there was a large attendance of the villagers and some enthusiam manifested in the proceedings. The movement is a very commendable one and ought to meet with the hearty support of every farmer in the tounship. The Cannington people have always manifested a prateworthy energy in such matters and they deserve to be encouraged. The township in conjunction with the village possesses every element requisite to the successful carrying on of a director horticultural society. We are confident that if the movement meets with the support to which its importance entitles it and the society placed in a position to offer liberal prizes, an annual horticultural exhibition in Cannington would shertly become an object of very great inhertly become an object of very great in-

THE RANKS BROKER.—On Friday evening last one of our most respected citizens was deeply interested in an event that will evidently mark the beginning of a new epoch in the social history of North Brock, On that occasion Mr. Robt. Beatty gave very substantial evidence that he had fallen a victim to female charms by leading to the alter Miss Jane A. Martin, eldest daughter of the late Mr. Jas. Martin of Mara. The commonly was performed by the Rev. Mr. Gratesux at the Methodist parsonage, Atheriy. The event was not marked by the slightest estentations dis-

pley of any kind, but was simply the quiet blending of the life interests of two supremely happy souls. Beb was one of the many bachelors in this section on whose path the shadows of lifelong bachelorhose had begun to deepen with ominous threatening, and the fact that he has succeeded in winning the affections of a buxom damage of the areas always a regist will doubt. in winning the affections of a buxom dam-sel of the sweet sixteen period will doubt-less encourage some of his late compan-ions in lonely misery to make still another effort. We respectfully tender to the hap-py couple our most hearty congratulations and trust that the active days of their future lives may be fraught with every blessing that contributes to the perfection of human happiness and that their declin-ing years may be cheered and sustained by a numerous and flevoted progeny.

The Kingston whig gives the follow-graphic description of a salvation army service in the afternoon in that city:—
"There was a very select audience in the afternoon and a very unique service was held. The place was as cold as a refrigerator and testimonies were given by soldiers who were muffled to the ears. Happy Bill brake leave and dened over the effort in broke loose and danced over the stage in a way that could only be excelled by a first-class and man in a minstret show. He seized a tambourine and knocked the thump out of it. Under his powerful blows the little sheep skin sownded like a base drum. As he thumped, shouted and pranced the people had to laugh. They couldn't keep a straight face. People have paid a half a dollar for what they got for 10 cents. Ludgate stole Captain Abbie's fambo and handled it so roughly that the little captain. Fearing its demolition, chased him shout the platform for it. A half major and his staff had some "real holy fun." This was the free and easy. The air was very cold and possibly the officers exerted themselves in order to keep warm. The proceedings concluded shortly after five o'clock.

More Valuable Than Ever. We call our readers' attention to the value,

sefulness, and direct profit of supplying themselves this year with the American Agriculturst, the cheapest as well as the most valuable journal in the country. Every number contains one hundred columns of original reading matter, by the leading writers of the country, npon all topics connected with the farm, garden and household, and nearly one hundred engravings, made specially for the American Agriculturist. The paper now in its Brd year, is unquestionably more valuable than ever before. Each number brings fresh evidence that no time or money is considered where the interest of the paper is at stake. Its House Plans and Improvements, profusely illustrated, are worth more than any costly architectural works. Its persistent and fearless exposure of humbugs and swindling schemes, is of great value to the whole country, particularly the farming community. In short it has something good and valuable for everybody. Owing to a special arrangement with the publishers, we are enabled to offer Tite Post and the American Agriculturist for one year, and the American Agriculturist for packing and postage).—73-4. journal in the country. Can in no way apply to the management of the Chicago, Rock Island and Pacific Railway, or as it is more familiarly known, "The Great Rock Island Route." This line has for years been recognized as the best and most comfortable route between Chicago and Kansas City and the Southwest, and has been abundantly able on this account to successfully cope with its competitors. But not satisfied with this success and its already elegant equipment, its managers have caused to be turned out of its shops at Chicago, a magnificent line of dining cars which go into immediate service on the Kansas City Line. These cars contain all the conveniences of well finished dining raoms, are elegant in design and finish, and models of the advanced railway art of the day. Within them meals are furnished equal to any first class hote in the land at the low rate of seventy-five cents. Travellers on this line now find on its trains all the comforts and conveniences of first class hotels. Resides the best of first and second-class coaches there are parlour chair cars, (which are free to all passengers helding through first-class tickets). Pullman pallace sleeping cars and dining cars. This companies lines—all of which are equally well equipped—also extend to Council Sinfis and the west, and Minneapolis and St. Paul and the Northwest; and the deserved praises bestowed upon it by by returned travellers who speak from experience, make it noted throughout the land.
