STANHOPE.

forrespondence of The Post, LIVELY School, MERTING, A lively meeting took place at the Island school house No. 3, on the 8th inst., at which Mr. George Hewitt made a speech which on account of its ability will be long remem-hered. The object of the meeting was to discuss the desirability of either removing school house No. 3 or building another school house in the same section. In spite of Mr. Hewitt's oration in favor of the removal of the school, the majority voted against it, agreeing to crect another school house on Hell's lake.

THE INCORPORATION QUESTION. - Some of our Cannington friends during the last week filled a few of the most credulous of our neighbors with anti-incorporation nonsense. So startling was the disclosure that several believed the school would lose over two hundred dollars a year of govern-ment grant, although the treasurer's book shows that the highest amount ever re-ceived by the school from this source did ceived by the school from this source did not amount to one hundred dollars. Well, the outcome of all this was a public meet-ing of the ratepayers held in the school-house on Saturday evening. The meeting was called by a few of the ratepayers liv-ing outside of the proposed village bound-ary. There was a very good attendance considering that only a few hours notice was given. Mr. Wm. Reid was put in the chair; Mr. Christopher Anderson, who seems to have been the chief mover in this matter, opened the meeting, siving his matter, opened the meeting, giving his views at considerable length, urging the matter, opened the meeting, giving his views at considerable length, urging the people of Woodville not to press a scheme that would deprive the school of so much government support. He made several speeches during the evening, which were in every case according to "Hoyle." Mr. James Stuart, an excellent authority on school matters, who has been truetee and serretary and trescurer for a number of years, thought it would be a sain to the school. Mr. Wm. Cameron showed that the grants varied in different years and were we to lose it all it would only be about seventy dollars. Mr. Wm. Smith would put no obstacle in the way of incorporation if they would allow them (the outsiders) an equal number of members on the school board. Mr. Cave, in a well-worded speech, favored the scheme. He showed dearly if there were any loss it must be very small, and that it would be more than made up from other sources. Mr. Cave is an excellent speaker, sad will be a councillor if not an M.P.P. one of these days. Mr. Barnes complained of the last of information given by any of the speaker, mentioning difficulties missed by mystified matters. At this stage the meeting got very interesting, generally

paid a short visit here on the 12th and 13th inst.

Diviltheria.—Mr. Archibald McLesn, formerly of this vicinity, now of Winnipeg, and brother of Mr. L. A. McLean, formerly of Lindsay, has been so unfortunate as recently to lose three of his children within a day or two of each other forms that dream distributions of the statement of the control of the statement of the control o information from the minister of education and other reliable sources and report at a future meeting. The best of feeling prevailed during the heated discussion. This fact speaks well for the intelligence of our people.

HARTLEY.
[Correspondence of The Post.]
Rownyism.—We had a sample of rowdyism exhibited in our village last Thursday
evening. Our hotel-keeper happened to be
away during the day and a certain person took advantage of this absence and per-suaded the bartender to change "straw" into "fire-water" to the amusement of the crowd. At last the said party was more than "three sheets in the wind," and the bartender refusing to give him any more "straw-firewater" he became boisterous and was going to run the house himself, when he was promptly dealt with. We hope we will not be obliged to see anymore such scenes in the fair village of Hartley.

SCHOOL. Our school is getting along well under Mr. Graham. We think the

ratepayers will soon see that it would pay them to employ a second teacher, as Mr. Graham has altogether too much to do.

PURCHASE.--Mr. John McMillan has bought the north half of lot 5, in the 9th constitution of the second teacher. con. of Elden, adjoining the village. wish him all success.

BETHANY. [Correspondence of The Post.] HOTEL LEASE.—We understand that Mr. . Hamilton has leased his hotel to Mrs.

HEAVY TRAFFIC. - There is a very large amount of freight traffic passing over this portion of the Midland for Toronto and points west which necessitate the running of many night trains.

REMOVED TO BLACKWATER .- Mr. F. R. Webner, formerly switchman at this place, has been removed to Blackwater. Fred was an obliging and civil young man, and

we are sorry to part with him.
RAILWAY "ECONOMISING."-Since the removal of the switchman from this place we have made it a point to visit the station on several occasions to note the doing from the arrival of the way freight from Toronto, due at 12.00, until after the departure of the evening express, due at 5.52. We notice the agent attempting to do the work of two men. How any sane institution can imagine that one man is fit to look after the freight delivery which is not a small matter in itself, receive checks, weigh in consignments, look after the sealing and labelling of cars, prepare the lights for evening trains, attend to wood stoves, issue bassenger tickets, check baggage, which is andled in considerable quantities here, sttend to the Express Co's, business, and look after the switches, with many other minor duties in addition to the writing required in the office, which, we learn from Mr. Ellis, the agent, who is very reticen on the matter, requires the greater part of one man's time, is a mystery to civil justice, as the Grand Trunk and similar corporations seem to have little or no regard for humanity. We think it time that the public should take the matter up and ask parliament to enact laws to prevent the overworking of employees which has proven the direct cause of a large percent. age of all the fatal railway accidents on

SKATING CARNIVAL .- The skating carnival last Monday night was financially a success, although the number of characters was very limited. "The glantess," represented by a young man from Beaverton, was worthy of note; as well as the "acrobat" represented by a young man from the borders, for a number of years back, in fact as far back as we can remember. The C. P. R. Resolutions

Mr. Blake's magnificent speech on the C. P. resolutions was followed by Mr. Ives, son-in-law of Hon. J. H. Pope. Mr. Ives is an effective speaker, but he foolishly charged Mr. Blake with being in the pay of the Grand Trunk, and was sharply replied to by Sir Richard Cartwright. Mr. Thomas White spoke for and Mr. Davies of P.E.I. against the resolutions. Mr. Hickeon of the Grand Trunk has

More Valuable Than Ever.

We call our readers' attention to the value isefulness, and direct profit of supplying themselves this year with the American Agricultur ist, the cheapest as well as the most valuable journal in the country. Every number conjournal in the country. Every number contains one hundred columns of original reading matter, by the leading writers of the country, upon all topics connected with the farm, garden and household, and nearly one hundred engravings, made specially for the American Agriculturist. The paper now in its 13rd year, is unquestionably more valuable than ever before. Each number brings fresh evidence that no time or money is considered where the interest of the paper is at stake. Its House Plans and Improvements, profusely illustrated, are worth Improvements, profusely illustrated, are worth more than any costly architectural works. Its persistent and fearless exposure of humbugs and swindling schemes, is of great value to the whole country, particularly the farming community. In short it has something good and which for expertisely. munity. In short it has something good and valuable for everybody. Owing to a special arrangement with the publishers, we are enabled to offer The Post and the American Agriculturist for one year, and the engravings "Foes or Friends!" and "In the Meadow" for \$2.70 (10 cents for packing and postage). -73-4.

"Pushing the Queer"-"Green Goods." Two or three of our citizens, including a broker or two, have received the subjoined "printograph" circular, which fully explains itself. It is needless to add that the bait did not take: -

NEW YORK. "DEAR SIR. - I learned of your name and busi-"DEAR SIR.—I learned of your name and business by a mere accident, and being in a sure position to help you through any business or money troubles you may have now or at any time, I took the liberty to write to you; not knowing what the consequence might be, and if have done wrong in so doing I hope and trust you will be kind enough not to expose. Now bear in mind it is no enemy who is writing this letter to you, and no trap set for you. My heart and principles are as true as the sun that shines on God's earth. Now you may need my assistance in some manner and you may think I ance in some manner and you may think I am trying to harm you, but so help me God I wish you no harm, but can and will put you in a way to recover money or property and pay your debts, no matter how large they may be, in less than thirty days, and don't ask one single dollar until I prove my words true and mean you no harm. Think this matter over in your mind for I will prove a friend worth having, and time will prove my words true. I will be plain with you. I am dealing in "Green Paper Goods—Is, 2s, 5s, 10s and 20s (do you understand.) I cannot be plainer until I understand your principles are true to me. Trade or no trade, the goods are safe and profitable to use in any manner you wish, in paying large or small bills, debts, etc. Now if you need my assistance answer this letter. I will then furnish you with positive and plain proofs, that I can do as I promise without the least danger to either of us, and before God and man I shall never betray the least thing that ever passes between us, and my oath is my bond. There are others in this business throughout the country, but as a rule they are an ununtil I prove my words true and mean you no harm. Think this matter over in your mind for out the country, but as a rule they are an unscrupulous set, with poor stock and indifferent workmanship; and, although I say it myself, I workmanship; and, although I say it myself, I claim to have the finest stock that is in circulation. Now, my friend, don't think when you read this letter it is some enemy setting a trap for you, for as true as there is a heaven such are not my intentions, and I hope you will never harm me. Now, distinctly bear in mind I am in earnest in this matter, heart and soul, and if there is any way that you may need my assistance I can and certainly will help you. If I have made a mistake in writing to you I hope you ance I can and certainly will help you. If I have made a mistake in writing to you I hope you will let it drop and say nothing about it, for I would not have taken the liberty were it not for the fact of being in my way a benefit for us both. I will not explain fully until you assure me you will do me no harm and return me this letter, as I will yours.—Yours in true friendship." The I will yours. OFFICE OF THE CANADIAN POST, } LINDSAY, Feb. 14th, 1884. Business and Produce.

This week the markets have been brisker and the delivery of grain has reached a respectable quantity. Prices are at last weeks figures although a part of the samples offered do not bring the highest price. Barley is unchanged. There is a brisk demand for clover seed at very fair prices. Spratt & Killen and Jas. Keith are the principal buyers for clover seed of all kinds. In produce potatoes have dropped in price and now sell at 40c to 45c. Other lines of produce without much change. W.H. GROSS, DENTIST. Mearly 24 Year's Experience.

The call upon Mr. Gross for ENGLISH BLACK RUBBER PLATES, will soon exceed his capacity to supply them. From 4 to 6 sets of artificial teeth on this valuable material his capacity to supply them. From 4 to 6 sets of artificial teeth on this valuable material leaves his office every week. No material in the world possesses so many essentials for a perfect dental plate. Those wearing ENGLISH BLACK RUBBER PLATES would have no other. Mr. Gross will make teeth on any plate preferred, and will forfeit \$25 to any person whose mouth he cannot fit. A stock of about 10.000 artificial Teeth to select from. It is believed that no dentist in the Midland district has a stock so large and well selected. Mr. Gross has lately procured one of Dr. Hurd's Vitalized Air Attachments, to be used in connection with the liquified gas. He extracts from 15 to 20 teeth with one inhalation of this combination. ELECTRICITY still used with success. The natural teeth permanently filled and saved. As no term under FIVE YEARS is considered a fair test for a filling, Mr. Gross will guarantee all his fillings for that length of time. In another dental advertisement in this paper Mr. Gross is accused of jealousy. The man whose business is steadily on the increase and who welcomes to his office, almost daily, new faces in search of better dentristy, need not entertain, much less betray, any m rkcd feelings of jealousy. For good advice and reliable work call on Mr Gross, over Kennedy's store. Kentst. Lindsay. Feb. 14, 1881. CRAND MASQUERADE CARNIVAL
