A TERRIBLE GERRYMANDER.—At last the cat is out of the bag! Our cotem. of the Lindsay Warder no doubt fairly beams with the glory of its astounding discovery, and really, to tell the truth, it cannot be wondered at. Such a startling development it does not often fall to the Warder to expose. We almost hesitate to expose it. Woodville is to be gerrymanpered into South Victorial Hear the shrick f Mr. McIntyre, the honorable, etc., its required of fourthering his own neet and is accused of feathering his own nest and of creating for himself a huge majority from the village of Woodville. Verily this is villatny. And where do the people of his unhappy village come in this matter? Perhaps the Warder has forgotten their existence in its exasperation at Mr. McIntyre, or possibly they may have no voice in this matter. Whataver may be the reason for this remarkable outburst of passion, we can assure our indignant otem, that the move has the approval of he people of this village, and we would ilso remark they are fully competent to judge of what is to their advantage. The Warder has struck the only unfavorable note produced since the inception of the cheme and we can conceive of no reason for these attacks, other than its antipathy to anything handled by Mr. McIntyre.— Advocate.

INTERESTIN : CASES. -In court we had the pleasure of hearing a very interesting appeal where of nearing a very interesting appeal where the ditches and water courses act of 1883. It was adjourned until July to give Judge Dartnell an opportunity of personally inspecting the ditch. During the examination of witnesses some very interesting and scientific explanations were given by Mr. Armstrong, C.E. and P.L.S., who had a carefully prepared map of the ditch. The reeve and township engineer were present to defend the municipality and the plan and costs of the ditch. The ditch starts at Mr. Neil O'Connell's, Atherly, and goes in a south-westerly direction to the lake. E. E. Creighton and George Boulton were the appellants .... The only suit in which there was any fun was that of Corrigan vs. McVeigh. There was con-siderable cross-fire between lawyers and lients, and on the whole it was laughable. Judgment was given for the defendant...

SNOW BLOCKADE .- We were four days without mails last week on account of the snow blockade. The Midland is not giving half the satisfaction it formerly did.

BEAVERTON.

[Correspondence of The Post.] THE GREAT BLOCKADE. - During the great snow blockade the train in charge of Conductor Mimms was snowed in Thursday going south, as there was a freight train in a snow bank between there and Lorneville. The passengers and train hands gave up the idea of leaving there that night and most of them betook them-selves to the village for the night. The mail clerk, Mr. Kelly, did not arrive home until Sunday afternoon. He started on Saturday afternoon with his mails by a sleigh, and after several upsets reached Blackwater in time to catch the train going to Lindsay. He reached Lindsay at 11.30 p.m. and remained there until six o'clock Sunday morning and arrived in Port Hope on Sunday at one o'clock, so that you see a mail clerk's life is not always a pleasant

"Columbia" At the Carnival..—(To the editor of The Post.) - In the account of the Beaverton carnival which is given in your paper of 29th February it is said that "a pretty ballet girl took the bur." In justice to all the ladies who appeared in costume on that occasion it is only right to state that no such character as described by your carrespondent appeared upon the ice at all. A young lady whose costume from its harmony of colors and original design was much admired and was said to have meritmuch admired and was said to have meritmuch admired and was said to have merited the prize, had one been beatowed, should
not, if your correspondent meant her, have
been described as appearing in the guise of
a "ballet girl," as such was neither the
case, fact not her intention. Any one acquainted with the life of large cities or
who had ever seen the bailet in a theatre
knows that a "ballet dancer" is dressed
usually in white, wears a low-necked dress
with short sleeves or no sleeves at all, has

represent, and which was distinctly mentioned on the card she handed in to the doorkeeper on entering. Your correspondent therefore has blundered grievously if he interpreted the character this young lady represented as that of a ballet dancer, which either on or off the stage would be alike repugnant to the feelings of any respectable girl. I enclose my card, out not for publication.—I remain, sir, yours truly,

Dr. B. J. Kendall & Co., Gents:—Having used a good deal of your Kendall's Spay in Cure with great success I thought I would let you know what it has done for me. Two years ago I had as speedy a colt as was ever raised in Jeffernen county. When I was breaking him, he kicked over the cross bar and got fast and tore one of his hind legs all to pieces. I employed the best farriers, but they all said he was spoiled. He had a very large thorough pin, and I used two bottles of Kendall's Spayin Cure, and it took the bunch entirely off, and he sold afterwards for \$1,300 dollars). There used it for bone spayins and wind galls, and it has always cured completely and left the leg amooth.

It is a splendid medicine for theumatism, have recommended it to a good many, and they all say it does the werk. I was in Witherington & Kneeland's drug store, in Adams, the other day and saw a fine nicture you sent them. Hutchison's Ranch, 12 miles north of Denver,
Colorado, March 16th, 1883.

Dr. B. J. Kendall & Co., Gents:—For the
past three years I have used Kendall's Spavin
Cure. In every case of spavin, of which I have
treated five, it has killed them all, and entirely
removed three. In case of splint I find it has no
equal, one case I had was of three years standing and the Spavin Cure has removed it entirely.
I had a cow get spavined and it entirely cured
her. One year ago a two hundred pound block
of ice fell out of a wagon striking my foot on
the instep and toes, it would be impossible
to mash a fect worse without breaking any
bones. I was taken home and carried into the
house. I do not think amputation of the leg
would cause any more pain. I went for Kendall's Spavin cure, it was all I used, and in six
days I could walk around. About three weeks
ago my team ran away and threw me out of
the wagon, the hind wheel struck my knee.
After applying several highly recommended
liniments without obtaining any relief, I went
for Kendall's Spavin Cure. My leg was drawr
up and my knee swollen badly. In three days I
was able to walk to the barn. I could go into
details more fully, and make this a very long
letter but will not weary you. I am very respectfully yours, Oscar F. Hutchinson,

Messes, J. B. Kendall & Co., Gents:—About eight months ago there was a valuable stallion brought to the stables of Farmers and Henry to be treated for a bone spavin, which was of one year's growth and of pronounced size, and having learned through outside sources that your liniment known as Kendall's Spavin Cure was very good. I commenced using it on the enlargement, and after six weeks using and having applied two bottles the horse was cured entirely, leaving the leg perfectly smooth.
