Lindsay, April 19, 1883. Dentistry. EDGAR E. CULBERT, L. D. S.,

SURGEON DENTIST. OFFICE-In Brandon's Block, Cannington. Nitrous Oxide Gas used .- 70-1y. W.H. GROSS. DENTIST.

Mearly 24 Year's Experience. The call upon Mr. Gross for ENGLISH BLACK RUBBER PLATES, will soon exceed his capacity to supply them. From 4 to 6 sets of artificial teeth on this valuable material his capacity to supply them. From 1 to 6 sets of artificial teeth on this valuable material leaves his office every week. No material in the world possesses so many essentials for a perfect dental plate. Those wearing ENGLISH BLACK RUBBER PLATES would have no other. Mr. Gross will make teeth on any plate preferred, and will forfeit \$25 to any person whose mouth he cannot fit. A stock of about 10.000 Artificial Teeth to select from. It is believed that no dentist in the Midland district has a stock so large and well selected. Mr. Gross has lately procured one of Dr. Hurd's Vitalized Air Attachments, to be used in eonnection with the liquified gas. He extracts from 15 to 20 teeth with one inhalation of this combination. ELECTRICITY still used with success. The natural teeth permanently filled and saved. As no term under FIVE YEARS is considered a fair test for a filling. Mr. Gross will guarantee all his fillings for that length of time. In another dental advertisement in this paper Mr. Gross is accused of jealousy. The man whose business is steadily on the increase and who welcomes to his office, almost daily, new faces in search of better dentristy, need not entertain, much less betray, any marked feelings of jealousy. For good advice and reliable work call on Mr. Gross, over Kennedy's store, Kent-st., Lindsay. Feb. 14, 1884.
