# VARIETY THE SPICE OF LIFE

All work and no play makes John a dull boy. To make ourselves intelligent, happy and bright it is necessary to spice our life with a little variety. Without it life would be monotonous, hence the very great desire of humanity for "CHANGES." Change of Dress, Change of Style, Change of everything that is wearable and tearable. The City Store, always endeavoring to be abreast of the times, is constantly changing too, and bringing in a variety of new goods suitable for all occasions. For variety this week we are showing one case of American novelties, the latest chic of the season and too utterly tart to murmur but quite capable of exciting the admiration of all beholders, and certainly a very great treat to one's visionary organs while the price is within the reach of everybody. "When passing stop in a little and see." If you fail to make connection with the City Store during the incoming week you will certainly miss a grand opportunity of wading through a massive aggregation of bargains and lose a large portion of the spice of which variety is one of the corspicuous compodents.

We would again remind you of what we told you last week in reference to BLACK AND COLORED SILKS, viz. that the City Store is the "SILK MARKET OF LINDSAY." You can here find quantity and quality, guaranteed by the manufacturer over his own signature.

OUR CARPET STOCK is likewise unapproachable in variety, extent and low prices.
