Vatican that serious threats against the Vatican that serious threats against the sope's life have been received from the dynamiters. Recently a letter was received at the Vatican from a source entitled to credence, stating that a well arranged attack on the papal residence by dynamite had been matured and would be carried out at the first opportunity, the conspirators aiming at the life of the pope. At this starling intelligence the cardinals at once held a conference and immediately took steps to foil the would-be-assassins. An extra guard of picked men were placed around the Vatican. The pope was kept in ignorance of the receipt of the first letter. The conspirators were evidently hovering about the place and noticed the preceived in which the previous threat was received in which the previous threat was received in which the previous threat was renewed, and a boast was made that the conspiracy would be carried out in spite of all attempts to prevent it. This letter was also withheld from Leo, and the special guard was doubled. The pope observed the extra double sentry, and insisted upon knowing the reasons for it. When told he became deeply agitated. Observing that his agitation was noticed, he said: "I am not alarmed with any personal fear, but at the thought that this dynamite contagion has reached Rome." The Roman clergy do not hesitate to say that they attribute the dynamite against the pope to the Freemasons, who, they declare, are at present furious against the Vatican because of its recent warfare upon them. A close espionage has been established upon all visitors to the Vatican library. Cardinal Howarf and some of his colleagues in the sacred sollege treat the dynamite threats with riducule. Dentistry.

DGAR E. CULBERT, L. D. S. SURGEON DENTIST.

OFFICE—In Brandon's Block, Cannington, Nitrous Oxide Gas used.—70-ly. W.H. GROSS DENTIST.

Nearly 24 Year's Experience. The call upon Mr. Gross for ENGLISH BLACK RUBBER PLATES, will soon exceed his capacity to supply them. From 4 to 6 sets of artificial teeth on this valuable material his capacity to supply them. From 4 to 6 sets of artificial teeth on this valuable material leaves his office every week. No material in the world possesses so many essentials for a perfect dental plate. Those wearing ENGLISH BLACK RUBBER PLATES would have no other. Mr. Gross will make teeth on any plate preferred, and will forfeit \$25 to any person whose mouth he cannot fit. A stock of about 10.000 Artificial Teeth to select from. It is believed that no dentist in the Midland district has a stock so large and well selected. Mr. Gross has lately procured one of Dr. Hurd's Vitalized Air Attachments, to be used in connection with the liquified gas. He extracts from 15 to 20 teeth with one inhalation of this combination. ELECTRICITY still used with success. The natural teeth permanently filled and saved. As no term under FIVE YEARS is considered a fair test for a filling. Mr. Gross will guarantee all his fillings for that length of time. In another dental advertisement in this paper Mr. Gross is accused of jealousy. The man whose business is steadily on the increase and who welcomes to his office, almost daily, new faces in search of better dentristy, need not entertain, much less betray, any marked feelings of jealousy. For good advice and reliable work call on Mr. Gross, over Kennedy's store, Kent-st., Lindsay. Feb. 14, 1884.

Over 20 Years' Experience. The most suc-

cessful Dentist in this part of Canada. The Gold Alloy used by Mr. Neelands for artificial teeth is a grand success notwithstanding the false statements made about it by a Lindsay dentist, jealous of Mr. Neeland's enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft sawder or lead, and tells them that it is a poison and the same as Neeland's Gold Alloy, which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison. Mr. Neelands inserts numbers of perfect-fitting sets of teeth for people in Lindsay, Ops, Mariposa, as well as in Vanvers and other places, after this dentist had tried and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neelands for the last 17 years. The "Only Genuine English Black Rubber" kept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr. Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong. Mr. Neelands made a special study of this gas under Dr. Colton of New York, the inventor, who writes to Mr, Neelands thathe has given the gas to 136,713 persons without an accident. Teeth filled to last a life-time. One lady says she had her teeth filled with gold by Mr. Neelands over 15 years ago, and her teeth are all good yet. "The People's Dental Instructor." a book worth its weight in gold. Call and get a copy free. Office next door to R. Smyth's Store. May be found after hours at private residence, Mill-st., near Kent. Persons from a distance will please send postal card before coming.
