A DENIAL. (To the editor of The Post.) -Sir, -1 understand that a report is being circulated in this neighborhood to the effect that I was the author of certain correspondence from Palestine which appeared in your issue of the 11th and 18th of January last respectively. I wish to state that I was not the author, and further that I knew nothing whatever of the corres pondence in question until it appeared in your columns. SAMUEL TRUMAN. ldon, July 15th, 1884.

[Correspondence of The Post.] FOOT RACE. - An exciting foot race took place here west of the village between a heavy weight champion who has figured in this section before in the capacity of an athlete and a famous sprint runner of this place. Both the men were great favorites, though the odds were on the light man. The race was a close one to near the finish, when the heavy man put on a spurt and won by a length.

Chicket Club Concert.—The cricketers of this place held their annual concert on the evening of the 12th, but unfortunately it was not so well attended as formerly on account of some misrepresentations which were circulated through the village in the afternoon by certain parties unfavorable to the cricket club. However, they had a fairly good house and an excellent program. The performances of Mr. Thomas McNaughton, champion club swinger of McNaughton, champion club swinger of Canada, were excellent. While his performances were going on every eye in the house was rivetted on him, which was manifested by the frequent applause and the hearty encores which he received. The recitations of Messrs. O'Brien and Walshe were also well delivered and encored. The committee were formate encored. We hope all will enjoy themospherically the frequent application. R. C. Picnic.—Father Davis' picnic took place here on the 7th inst. It was held in Mr. Ritchie's grove, west of the village, and it would be hard to find more suitable grounds on the shores of Lake Sincos. A large forest opposite the lake gives ample protection from the penetrating rays of the sun, while the breezes blowing off the lake make it a most enjoyable place to pass a holiday in the hot weather. A large platform was erected for those taking part in the dance, and it was well patronized until late in the evening. An excellent spread was provided by the ladies of the parish, to which ample justice was done by the hungry picnickers. The great event of the day's proceedings was the contest for the gold watch by two young ladies, Miss Barker and Miss McDonald. It was very pleasant to see that although Miss McDonald belonged to the parish of Uptergrove she was ably assisted. Donald. It was very pleasant to see that although Miss McDonald belonged to the parish of Uptergrove she was ably assisted by the people of Brechin. When the poll was closed Miss McDonald was three votes ahead and of course took the watch. It is a beautiful gold timekeeper valued at \$60. The proceeds of their collection for this purpose amounted to \$309. Both of these young ladies are great favorites in the parish as the contest shows, there being only a difference of thirty cents in their collections. This was the first picnic here since the parishes have been separated. Father Rey will not hold his picnic before September. The different games were hotly contested for during the afternoon. The committee feel greatly indebted to those not belonging to the church for their kindly assistance, also to Mr. Ritchie for the use of his beautiful grounds. The following is the list of the games and winners:—Men's 200 yard race—Ist, Stinson; 2nd, Bailey. Putting stone—Ist, D. McRae. Standing jump—ist, W. Matheson, 12 feet 3 inches; 2nd, M. Jordan, 12 feet. Vaulting with pole—Ist, James Rear; 2nd, D. McMillen. The thanks of the congregation are tendered to Messra. Gribben and Mulcahy for valuable prizes given to the picnic. ANOTHER PRESENTATION AND ADDRESS.

—The members of Mrs. Beer's class in the sabbath school presented her with a silver butter cooler and knife as a slight token of their appreciation of her services, with the following address: Mrs. Beer, — DEAR TEACHER AND FRIEND,—We cannot but express to you on your near departure from amongst us the deep regrets we as your Sunday school class entertain that our present relations shall be so soon severed. Our desire was that you might remain with us as we have learned to respect one whose time and talents have been so cheerfully given for our welfare, but we humbly submit to the orders of a just Providence. Our interest seemed to be made yours, and during the time you have been our teacher you have been our benefactor and friend and have spared nothing to attain the noble purposes of a Sabbath school teacher. We will not soon forget you, as ties firm and true have been formed between us of a nature seeming at least to emanate from the heart, and these alone have induced us to offer these small pieces as a token of that love flowing from us towards you. We could but do this. As a lady, teacher, counsellor and friend you have been sociable, instructive, wise and sincere, qualities which will be to our lasting benefit, and which we have continually felt, though we have sometimes seemed to be indifferent to your teaching. Our sympathies are with and for you and our prayer is that you and your beloved partner may fulfil the mission of ambassadors for Christ wherever you may be called to labor with crowning blessings in return therefor, and who a this you have completed the summons may bid you accept the rest awaiting the faithful where we all hope to make a re-union and accept the promised crown.

UPTERGROVE.

[Correspondence of The Post.] PRESENTATION TO MR. F. J. GILLESPIE. On Thursday evening a very pleasant gathering took place in McDonald's hotel. Uptergrove, composed of leading men of the township and a few invited guests to the township and a few invited guest to the township and a few invited guest to the township and a few invited guest township and a few invited guest to the township and a few invited guest to the few invited guest township and a few invit the township and a few invited guests to give some tangible appreciation of Mr. F. J. Gillespie's efforts in promoting the project of regulating the waters of Lake Simcoe. A substantial dinner was served by "mine host" in excellent style and to it full justice was done. The chair was occupied by Coun. P. Thompson, and the vice-chairs by Mr. Thos. Mulvihill and Mr. J. Fox. Among those present were Messrs. I. J. Gould, M. P. P., Uxbridge; Judge Dartnell of Whitby; Dr. McDonald of Orillia; P. J. King, Orillia; C. D. Barr of The Post, Lindsay; Mr. Currans of the News-Letter; and some others besides numerous local friends. Mr. A. P. Cockburn, M. P., had expected to be present but was unlocal friends. Mr. A. P. Cockburn, M. P., had expected to be present but was unavoidably prevented, greatly to his regret. The chairman proposed the usual loyal toasts which were duly honored. The parliaments and legislatures elicited a practispeech from Mr. Gould, which was cordially appreciated. Mr. Gould referred to the importance of the undertaking to which Mr. Gillespie and others had devoted so much time. He explained that he had been enquiring why the work had not already been commenced and found that owing to the illness of Hon. Mr. Fraser there had been some delay, but he fully expected been some delay, but he fully expected that work would be in full swing by the end of the month. He believed it would be done in a thorough manner, so that the atest amount of tenefit would accrue to the farmers of Mara who were so deeply interested in it. This announcement gave much satisfaction and shewed that Mr. fould had been looking closely after the interests of his constituents. "Canada our home," was replied to by Judge Dartnell in felicitous terms. The chairman, who discharged his duties admirably and made very sensible remarks, spiced with a fair share of humor, then alluded in complimentary terms to the guest of the evening, and concluded by reading the following address, handing with it a handsome and costly

To Francis J. Gillespie. Esq., Uptergrove, Ont.

Dear Sir. On behalf of the people interested in the regulating of the waters of Lakes Simcoe and Couchiching we have assembled here tonight to convey to you our heartfelt thanks and give some tangible proof of our gratitude for your very valuable services and unwearied efforts to further the success of this cause. We are well aware that the time you, in your zeal, devoted to the discussion of this question both upon the platform and through the public press must have been to you a source of inconvenimust have been to you a source of inconveni ence and expense, nevertheless as a true patriot you never flinched from the position you assumed till your labors were crowned with success, which we the more admire because we are conversant with the fact that you own no land in the flooded districts; so that in this case you had no personal interest to subserve, and that whatever you have done has been in the interest of the people you have served so well. We have great pleasure in bearing testimony to your efficiency as a teacher in educating and training the youth of this section, as likewise in complimenting you for your kindness, courtesy and careful attention in the faithful discharge of your frequently unpleasant duties as cierk of the seventh division court for the county of Ontarlo, as well as the very creditable manner in which you have filled other public positions. In conclusion we ask your acceptance of this In conclusion we ask your acceptance of this gold watch as a small token of our esteem towards you and our appreciation of your valuable services. Signed on behalf of those interested,

EDWARD GETTINGS. P. THOMSON, PATRICK CLARKE, WM. JOHNSTON. The watch, which was purchased from Mr. Robinson of Orillia, bore the following

Mr. Gillespie replied in effect as follows The language that I can command is wholly inadequade to convey to you the deep debt of gratitude under which you deep debt of gratitude under which you have placed me this evening, not only by the flattering address and valuable gift with which you have presented me, but by this intelligent assembly which has gathered here to-night. The address which you have just read contains so many warm feelings of affection and esteem that I exceedingly regret that I am not more worthy of it. This gold watch esteem that I exceedingly regret that I am not more worthy of it. This gold watch, your beautiful gift, I shall ever treasure as one of the grandest presents of my life, and will retain and wear it as a souvenir of your magnanimity and generosity. This brilliant and representative assembly that I see here to-night, assembled to do me honor, can only be accounted for by the great interest that is being taken in this great question of regulating the lakes. That this question is a live and important one so one at all familiar with it will attempt to deny. By keeping the waters at low water mark the townships of Mara and King alone would reclaim over 5,000 low water mark the townships of Mara and King alone would reclaim over 5,000 acres of what is known to be the best lands in those townships, while the townships of North and South Orillia, East West and North Gwillimsbury, Georgina, Thorah, Innisill and others are largely interested. Hesides the townships we have nany villages and towns interested in this great question, such as Bradford, Holland Landing, Barrie, Orillia, etc., etc. If the akes were permanently kept at low water 000 acres would be reclaimed, which when dry would readily sell for from \$20 to \$30 per acre, which gives a total of from \$400,000 to \$600,000. This would be an acquisition to the banner province of Ontario and municipalities interested that should not be ignored. This large amount of real estate would in a few short years be improved and brought under cultivation, and would be worth fully \$1,000,000 not to speak of the increase in our population caused thereby. All this can be accomplished by the judicious expenditure of from \$12,000 to \$15,000, according to the report of Mr. A. G. Cavana, C. E., D. & P. L. S., who made the estimate for the Ontario government in 1881. Now the statement that he are the contractions of the contraction of the contracti the estimate for the Ontario government in 1881. Now the statesman that by an expenditure of \$15,000, or even \$50,000, added one million, or even half a million dollars worth of real estate, and a population of from 2,000 to 3,000 to his country would be justly praised throughout the land, and this can be accomplished almost beside us. I have given this important question much consideration and am fully familiar with it, and therefore know whereof I speak. A great deal more could be said on this burning question from sanitary and other grounds, but I will leave that for abler hands to handle, knowing that our worthy friend Dr. Me. Donnell is here. It is now about three years since we took hold of this matter in earnest and the results so far are most

Quinn of Orilla, Mr. Angus Ecc of Georg-ins, and the worthy representatives of the people around the lakes, such as Mr. A. P. Cockburn, M.P., I. J. Gould, M.P.P., and Mr. W. Mulock, Q.C., M.P. And again thanking you for your valuable and to me cherished prize, I will take my seat... Speeches and toasts followed until a late —or rather a seasonable hour. Among those who spoke were Mesers. King and Dr. McDonald of Orilla, Barr, Currans and Secord; W. R. McPhee, P. Thomson, Gillespie, John Fox and others. Mr Jos. Fox. who has great natural oratorical tal-

and Secord: W. R. McPhee, F. Thomson, Gillespie, John Fox and others. Mr Jos. Fox, who has great natural oratorical talent, replied for "The ladies," making one of the best speeches we have heard. We must not forget to state that Mr. J. A. Gillogiy of The Fost contributed a number of songs to the evening's entertainment and was warmly applauded. Mr. Gould proposed "The host and hostess" in complimentary terms, and thus concluded an extremely pleasant evening.

THE UPTERGRONE STATION.—A great deal of inconvenience results from the Grand Trunk or Midland not keeping a station agent at Uptergrove. They are bound to do so in all fairness in view of the fact that the township gave the railway a bonus, the company agreeing among other things to build and maintain a station at this and other places. Uptergrove is eight miles from Brechin and over five from Orillia, and there is naturally a good deal of business done here and a fair passenger traffic. The railway management have told our council when the matter was brought before them that the company are told our council when the matter was brought before them that the company are "maintaining" a station now—that they are fulfilling the agreement, but they are certainly not doing so in the spirit if they are in the letter. "Maintaining a station" must mean to have a station agent, for without an agent the usefulness of a station is greatly diminished. It would not be amiss for the council to take action in the matter, and at any rate obtain the the matter, and at any rate obtain the opinion of some competent lawyer familiar with railway legislation as to the strength of their case. Probably a deputation from the council, accompanied by a competent lawyer, could by a personal interview bring the railway management to take a proper view of the case. It would cost very little to have this much done and the advantage to this section would be very

SCHOOL EXAMINATION.—The half-yearly examination of Islay public school teok place on Monday, 31st June. There were a large number of parents and others present, which was very encouraging to both teach. which everyone feels during this season, we Concession been so effectually demonstrated that no one to-day denies it, that the Shaker Blood Syrup contains more real medicinal value than any article now before the public. Hundreds, in spite of their prejudices, are taking the Shaker Blood Syrup, and now honestly declare it to be the best medicine ever offered to the public; and they are quite right, and this sentiment must and will extend just as far as people will allow themselves to be influenced by facts and by the testimony of those people who have tried it and know whereof they speak. In presenting the Shaker Blood Syrup to the public we suffer, because people have been so often humbugged by the weak decoctions with which the country is filled. It is often difficult to make people believe what an advertisement says, because of the evil influence produced by those unreliable, worthless preparations. It is true that honest people are constantly suffering from the effects of dishonesty, and this will probably always be so, but it does not require any remarkable ability to see how the real worth of the Shaker Blood Syrup impresses itself upon people. Our reputation rests upon the value of this medicine, and we are proud of the record it is making. Sold by A. Highn-BOTHAM, Lindsay.—95-cow-2.
