Smallpox is spreading in London, and this fact, combined with the gloomy news of the cholera epidemic in France, is causing great anxiety. As soon as this was known to Belle's brother Regy, a lad twelve years old, he stepped up to the physicians and promised to be on hand at any time the graft was to be made. He was given a cut from his arm, and the necessary skin was taken from his arm and transplanted to his sister's wounds. The skin is growing nicely.

James G. Blaine, when in the house of representatives, was ready in debate, and there was always 'snap' in his expression. Mr. Tucker's reply implied that he doubted Blaine's ability to pass correct judgment on legal subjects. A gentleman was not a lawyer, Blaine's memory enabled him to reply by reminding the distinguished member from Virginia of the exact words of the constitution. Mr. Tucker was filling the attorney-generalship of the Old Dominion, and he concluded by saying that if the committee on the part of the House were to be a lawyer, he at least considered himself not to belong to the fraternity. Mr. Tucker then said that his house-hold was a law office, and that he had a great deal of business to attend to. This telling interruption was greeted with a roar of laughter, which completely drowned out the rest of the speech.
