LINDSAY, FRIDAY, AUG. 1, 1884. LOCAL MATTERS. LINDSAY TOWN COUNCIL.

pecial Mosting-The Water Supply Ques-LONG AND WARM MEETING-SEVERAL

VIGOROUS DEHATES-MORE GAS LAMPS A special meeting of the town council

was called for Monday evening to discuss a number of important questions. Altogether it was a very lively meeting, much temper and gas being worked off, but closed as quietly as usual. The attendance was exceptionally large, all the members

Mayor WALLACK occupied the chair. Inopening the meeting he said there were several questions of importance which it would, he thought, be well to dispose of at once. He had received a circular from the secretary of the Port Perry relief committee asking for aid. Port Perry had been very liberal in siding Chicago, St. Johns and other places. It in return was being liberally aided and this town should consider the matter. Other corporations were taking active steps to prevent the spread of cholera should it visit Canada and he thought it would be advisable to do some-thing in that direction at once in Lindsay. The universal use of earth closets would do much to improve the sanitary condition of the town. Pamphlets were being published in Toronto giving information as to the best means of sanitary improvement, and he thought it would be advisable to get a number of these pamphlets.

COMMUNICATIONS. A communication was read from Mesers.
Meintre & Stewarf, asking that the amount of damage done the property of Mr.
E. Woods, caused by a defective drain, be paid and the drain repaired or action-would be taken to recover the same.—Referred to the arrest and bridge committees with power to act.

PORT PERRY RELIEF. The CLERK read the circular from N. F. Patterson, secretary of the Port Perry retief committee, asking for aid. The circular contained a description of the circumstances in which the town was placed and showed the need of assistance.

be taken.
Coun. Where thought private subscription was the proper way. He would de

his share,
Coun. McTavish was in fevor of doing something to assist as Port Perry had been very liberal to other place afflicted.
Reeve Deacon said \$100 would be about the most they could give, atthough the town was not in a position even to do this, yet it should do something. Private subjections had been given. orintions had been given-LHAVE OF ABSENCE

A communication was received from Mr. Hell, chief of police, acking for leave of absence for one week, which was granted. Coun. Graham intimated that Mr. NICOLLE, market clerk, also wanted leaves

Heeve Dracon said it was provided for in the market by law. DRAINAGE

A communication from the sanitary in spector asking the council to drain slodgment of stagment water at the mouth of the culvert on the corner of Ridous and Simcoe-ste, and explaining how the work could be most satisfactorily done, was referred to the street and bridge commis-

MORE CAS LAMPS,

On motion Mesers: J. R. Dundes, M.P., and J. C. Taylor were heard regarding proposed gas extension down William st. to the new station.

Mr. Dunday stated that the company desired to get the Grand Trunk to use gas at the station-offices and grounds; and as the same time to get the town to have three lamps of William st., down which the pipes would have to go. It would require both to compensate the company for the necessary outley.

Considerable discussion followed, in which Cours, Mailon intimated that he wanted the east ward lluminated, and Cours, Conselly said two lamps would be enough, while Dep. reeve fee would have no more money expended on gas. It had cost hearly \$2 a yard for the year, and where was the money to come from Cours, McTaylan moved, seconded by Cours, McTaylan moved, seconded by Cours, Bryans, that the company receives an order to ever three more lamps as the places upoclind.

laces specified.
Dep-recyc Fun moved seas such diest, seconded by Coun. Mallow, that so more such by crected at the expense of the

METER SERVICES VANTED, sorting Mr. D. Lack produced Ma sport of the synthetic state of the off or Administration from Might to

question of regulating the duties of the chief of police and the nestrants. He then proved that the matter we left in the immediate his over time and that of his assistant or assistants from this date, and that they be under his full authority and control.—Carried.

Cous. Connolly brought up the matter of the trump killed on the railway tracksome time ago near the union station, and regarding the cost of whose burint there had been a dispute. Cous. Connolly moved seconded by Uous. Bayans, that the \$13 for the burint of John Cossen be paid Mr. W. B. Ferguson. After considerable discussion, in which nearly all the the members took part, the motion was withdrawn and it was decided to write to Mr. Hickson and if he decided to write to Mr. Hickson and if he decided to pay them it would be collected by private subscription. The mayor's action in the matter was approved. Dep.-Roove Fee said the railway sot ahead of the town at every move and he would let Mr. Ferguson pay, as he could get it out of the railway and the town never would. There was no law to compet the town to bury the man as it happened on the company's line.

WATER-SUPPLY FOR STREET WATERING.

WATER-SUPPLY FOR STREET WATERS Recve Disacost moved, seconded by Coun-Brolley that a committee be formed to enquire into the advisability of discontinu-ing the practice of supplying the water for watering the streets by the waterworks, as this practice was wearing the machin-ery to quite an extent and the water supply

Considerable discussion followed in which the water supply was well talked over, during which a letter from Messra. Needler & Sadler was read, notifying the corporation that they would no longer furnish power to supply water for watering the streets. Reeve Descou's motion was carried.

Reeve DEAGON, after speaking of the sanitary condition of the town moved that By law No.— being a by-law to prohibit the practice of conducting privy soil or matter from water closets by drains or otherwise to the main sewer on Kent-st., be read a first time.

The by-law was read and massed in the

The by-law was read and passed in the usual form. "SPECIAL GRANTS."

Coun. Connoctry moved, seconded by Coun. Grandam, thus a special grant be voted to rebuild the sidewalk from William to York-ets. three planks wide. Coun. Fre objected and said it was unnecessary as the sidewalk was good

The commissioners of the different wards their read their reports, giving the list of then read their reports, giving the list of jobs done, the amount estimated and granted, and the amount expended, also the name of the party who did the work. Couns, Connoilly and Brelley both read their reports and explained the way is which the work had been done. When it came to Dep. Reeve Fee's turn he said this was his report: That he had been appointed a commissioner, that he had done his work and had not spent one dollar and did not intend to. He then proceeded to ridicule the other commissioners and those who had made the estimates, after which he left the council chamber in time to miss a few remarks from Coun. Councily.

A LEGACY FROM THE 24TH FIZZLE.

Coun. McTavish moved that in view of Mr. Petty's having ordered a number of medals for the 24th of May celebration and had them engraved and new on his bunds, that he be paid \$20, the cost of the same, and that they be distributed to the prize-

The minute book was referred to and the committee appointed to assist in the celebration found, but mone of these gentlemen knew anything of the matter. The motion was passed on condition that if it was objected to by any rate-payer the members who voted for it should pay the \$20.

STREET COMMETTEE REPORTS. Moved by Rosve Deacon, seconded by Department Fee, the street and bridge committee be required to report the expenditure is detail of everything that had been detailed to the committee of the c

ture is detail of everything that had been done this year, the amounts estimated and granted for such works, and at what meeting of the council sutherized; also the estimated amount required for the rest of the year.—Carried.

Dep.-reeve Fee wasted to know who was chairman of the street and bridge committee. It was generally understood that Dep.-reeve Melville was the chairman and Dep.-reeve Melville accepted the chairmanchip when he heard there was \$100 to be piven.

Dep.-Reeve Metville said it had been forced on him when he was absent and he declined the position, and that Dep.-reeve Fee was after it. Several councillors them came to the rescue of

councillers their came to the rescue of Dep. reeve Meiville and exonerated him from the charge of looking after the \$100.

Dep. reeve Mer. VILLE finally admitted.

that he signed the cheques for the co tee and that he was chairman, be wanted to find out for ours. The council then adjourned, to next Tuesday evening.

OMENER Correspondence of The Post.)

Correspondence of The Post.)

Correspondence of The Post.)

Correspondence of The Post.)

Correspondence of the season was played in Mr. Martin's field. Several good little were made and some excellent bowling done which put the boys in good little, and active have all the maserial that is necessary they intend to organize active right away. Now let us hear from Lindaux or some of the neighbouring towns, but don't all speaks at once.

Cincor.—On Thursday has those.

Cincor.—On Thursday has the elarge number of posts are shown to quite a large number of posts are always it was not as large as some we have been at, the tumbling aspecially by the two darking.

livery business entirely the liver have gone late it may be have very livering re-filled dash E de fifte derfang dab ib be ge andergen dage betreiten

pipe burse, and the chief engines white reversing the engine was terribly real-bal. All was confusion in an instant. The darkness, theories of distress, and the outles added to it. The engine legit ovel and restored order, and most of the Lanton's crew were got or board the Haum. The captaint had his wife and child lashed to himself and all were insuled about the Gigon by a rope. The Lantons such intwenty minutes after the collision. But a new danger presented inelf. The Gigon was a last of training that he was a last of the collision. digon by a rope. The Lankam some the Gigon by a rope. The Lankam some in twenty minutes after the collision. But a new danger presented itself. The Gigon was so badly injured that the water was rushing in torrents into her hold through her shuttered side, and she began almost immediately to settle. The confusion which had previously prevailed on the Laxham was redoubled. There was a larger number of excited people whom a terrible death was staving in the face. The captain steed with his reveiver in his hand sad endeavered to maintain order, but unsuccessfully. The passengers and crew were fighting for their lives, and rushed in a wild, discreted manner for the boats. It was almost a miracle that the boats were successfully lowered, but they were utterly inadequate to accommodate all. They were loaded with their human freight down to the gunwales, and still unfortunate wretches, stroughing in the black water, strove to get on board, and were driven back by those who had secured places, who drew their knives and hacked as the hands of the drowning men clutching at the boats. The Gigon sank bow first, and so she want down slowly her quarter deck was crowded with men and women and the captain and officers, who had worked like heroes, stood on the bridge calm and collected as the ill-fated steamer settled and sank out of sight. It is estimated that about 130 persons perished.

TOWN JOTTINGS.

Rechberry and Jarrien Ginger Cordin for summer complaints.

Best thing known.

Sold at PERRIN'S, 25c. a bottle.—98-3.

Mr. Gross has just received a large stock of cautiful artificial teeth. Call and see them.

esough.

Reeve Dracon said he had found work done which had not been authorized, the excuse for this being that so much had been estimated for such a arrect or past of a street, and if not all expended at that work it was spent somewhere else. There was nothing saved by this at all. The proper way was to return the money to the trementy if not all expended.

Coun. Connot.Ly defended the street and bridge committee and maintained that it was the most committee the notion when put to the vote was lost.

The motion when put to the vote was lost. We deeply regret to have to chronicle the dent of this town. The sad event took place at the residence of another brother at Aurora last Saturday at noon. The deceased had been visiting here for some time and left last Wednesday, intending to spend a couple of weeks at Aurora, before going to the family home at Brampton. He had been long very ill, but death tech him account than was expected. It seems sumption, and though the decreased spent a year and a half in Colorado he did not improve in health, and came back to Canada to die.... He lived in Lindsey about six years, being in the dental office of his brother, Mr. J. Neelanda, leaving here to take a large and lucrative business at Ogdensburg. He was of a quiet and retiring disposition, and was greatly liked and esteemed by all who knew him. While here he was an efficient teacher in the Methodist Sunday school, and was active in the promotion of Y. M.-C. A. work. A short time after his removal to Ogdensburg he was chosen secretary of the Y. M.-C. A. there. He was an upright young man, and was very conscientious in his temperament. The funeral at Brampton on Monday was largely attended.

A private despatch was received in Colling. wood on Monday, addressed to Charles Cameron, manager of the G. N. T. Co., from Mr. Helcher, purser of the steamer Atlantic, Spanish river, reading as follows:—"A surveying party consisting of W. O. Johnston and others were drowned up Spanish river. They came up with us on July 4th." The following composed the party:—W. O. Johnston, Whitby; John Eastwood, Whitby; R. J. Gordon, Toronto; F. Bleakley, Bowmanville. They left Whitby about a month agu, and sailed from Collingwood on the steamer Atlantic on July 4th. Mr. Johnston, the head of the party, is the son of Mr. Ralph Johnston of the Whitby Chronicle. Johnston was also out in the same directon last year in charge of another party, and while returning in the fall he and his party had a narrow escape from drowning. Mr. Bleakley is the son of Mr. F. Bleakley of Bowmanville, was an undergraduate of Toronto university, and was taking the course in civil engineering at the son of Mr. F. Bleakley of Whitby. He was a medical student, and had been attending lectures at Toronto school of medicine. He was in his second year.

""There is a faint hope that the sed news may not be correct, and later despatches are awaited with much anxiety. ading as follows:-"A surveying party

The Napanee, Tamworth & Quebec railway will be opened early in August -The handsome partor coach from Lindsay to

Toronto on the morning trains is exceed nfortable. The fare is 35c. It is fairly pat-ized. It comes out from Toronto in the Two or three train loads of gravel for baling have been put on Victoria-ave., and street will also be improved where needed... ground deal of gravel has also been put our track-near the station.

The Forester's excursion from Peterboro to brills with ten conches was run inside of three-lours, including stoppages, by Engineer D. Malloch, and in charge of Conductor Buller. This is considered very good running.

-We understand Mr. Joseph Hickson and a sarry of prominent officials of the Grand Trunk rill, in a few days, pay Lindauy a visit with the riew of looking over the facilities of the place or more important arrangements than new

The sink hole on the Ontario & Quebebec railway at Kaladar was all right on Tuesday night and a freight train passed over it. Wednesday morning it fell again into its usual position, the track being under water. It does seem as if there is no bottom to the hole; the quantity of stuff put into it is amazing.

-With a view of assist woulding at Port was consented to milder, as follows:

Co., New York; for sale at Porter's.

HAMPER'S for August has a capital list for light summer reading, in which entertainment the artist, as usual, plays an important part. "Nature's Serial Story" is continued, and is illustrated with great beauty, "Artist Strolle in Holland' is quaint and entertaining; so also is the paper on the "Great Hall of William Rufus," both affecting fine-sepe for the artist and engraver. "Salt Labe City" is always an interesting topic, and is here well handled and copiously illustrated. Brigham Young's house, with its numerous wings and additions is oddly suggestive of frequent additions to the family. The short stories are capital, the poems fair, and the editorial departments good. Published by Harper Bros.; and for sale at Purter's.

Harper Bros.; and for sale at Porter's.

COOKERY FOR BESINNERS, with Marion Hasland's name as author, needs no other indication of its character and genuine value. It has been a fault of previous books on cockery that they have taken for granted the pessession of a certain degree of knowledge requisite to their successful use, not always possessed. This book, while affordings a range of information unsurpassed by any other book, and thus suited to the use of all, has the advantage of being perfectly adapted to the needs of the veriest tyrus in cookery. The Lutheran Observer says: "This is the best book that Marion Harland has written on cookery, because it is the simplest and the most useful. Graduates at ceeking-schools will find it suggestive." The New York Observer says: "A book from Marion Harland on any subject which invites her pen, needs no introduction and little commendation to ensure its acceptance and popularity by the general public. She is emphatically 'at home' on the subject to which this volume is devoted. For sale at Porter's bookstore.

SHALL WE LET THE CHILD OUR. A hard heasted political economist, looking at a pale and puny child feebly gasping as it lies upon a pillow, says that the child might as well die. It is so weak and poor that its life will never be worth much anyhow. There

will never be worth much anyhow. There are already a good many people in the world who are not much account anyhow. And what's the use of adding to their number another weakling, who has but slender chaace of ever amounting to anything?

Now ask that child's mother what she thinks about letting the child die. About this time the hard political economist had better get out of the way. "Let my child die! No! No! As long as there is a remedy to be found that will save that child, the shild shall not die! I'll spend my last dollar to save the child!" Well, try a bottle of Shaker Blood Syrup on that child. See the poor little fellow pick up strength. He revives. He will live. Hosts of other children have been brought almost from death to healthy life by the Shaker Blood Syrup. Your druggist sells it. Sold by A. Highnbotham, Lindsay.—98-cow-2.

W.H. GROSS. Over 24 Year's Experience.

Mr. Gross has recently introduced the latest and most perfect system of vulcanizing, whereby any variety of Rubber can be hardened without a risk of impairing its strength or injuring its texture. This new process was invented more particularly for the working of BLACK RUBBER, which, being perfectly pure, to secure the best results, requires a more uniform and higher degree of heat than is attainable by use of the ordinary vulcanizing machine. The inventor says that with Ash & Son's GENUINE ENGLISH BLACK RUBBER, hardened by the new vulcanizing process, he can produce and a supplier of the security o Son's GENUINE ENGLISH BLACK RUB-HER, hardened by the new vulcanizing process, he can produce one of the best, if not the very best, dental plates in the world. Mr. Gross with this improvement is enabled to make his-Black Rubber Plates, heretofore good, still better than ever. All wearers of Black Rubber plates are delighted with them. Artificial teeth inserted on any kind of plate desired, includ-ing-red rubber, and what is-called gold alloy. A set of teeth on the latter material for 88. A stock of about 10.000 ARTIFICIAL TEETH of all shapes, shades and sizes to select from. An upper or under set of teeth from \$8 to \$85. No charge for extracting teeth when new of all shapes, shades and sizes to select from.
An upper or under set of teeth from \$2 to \$35.

No charge for extracting teeth when new ones are to be made. VITALIZED AIR administered and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and other good materials. Mr. Grosshaving superior facilities for securing valuable improvements as soon as they are invented, always avails himself of this advantage, thus keeping in advance of all competitors. Rooms over Kennedy's store, Kentet, Lindsay, Lindsay, July 29, 1894.—98.
