-Mr. Alexander Cowan of Tilsonburg died last Thursday from blood poisoning. He was 62 years old. The primal cause of The incorporation of the "Thousand his decease was the introduction of paris Island and Montreal Steamboat Co.." with green into his vains through a wound on one of his hands. A week ago last Saturday, while working on his farm in Mid dieton, and after using paris green in his potato field, he went to bridle a colt which was tied to the fence. While he was undoing the tie rein the animal jerked up its head and pulled his right hand against the fence or stake to which it was tied sharply enough to tear a little bit of flesh from the inside of his thumb. The wound was done up on the spot and Mr. Cowan thought no

> -A sanguinary duel is reported to have taken place near San Saba, Texas, August 7th. Samuel Faulkner and Henry Allan attacked two brothers named Woodall, opening fire with repeating rifles. The Woodalls retired behind their horses. Fight shots were fired by each side when Allen fell, plerced through the heart. One of the Woodalls received a bullet in the shoulder near the neck, disabling him. The other Woodall and Faulkner approached each other with bowle knives and a fearful duel followed. Faulkner after a few sharp struggles plunged his knife into Woodall just below the heart. As Faulkner turned to look after Allen he was shot in the breast by the elder Woodall, who witnessed the duel while lying with his neck and shoulder split open by a rifle ball. Faulkner may recover, but both the Woodalls will die. Bunner, who tried to prevent hostilities, received severe flesh wounds. A feud was the cause of the en-

counter. -A Dublin telegram savs informer Casey, the chief witness for the crown in the prosecutions against the Maantrasna murders, has been induced to make a confession. It was upon Casey's testimony that Myles and Joyce were convicted. The informer went voluntarily before the Archbishop of Tuam recently and stated that all the testimony he had given at the trial had been false and had been given for pay. The archbishop spoke to Casey of the duty of reparation with such effect that the perjurer offered to make a public statement. A number of gentlemen of good standing were invited to seeemble at the archbishop's residence in Tuam last week for the purpose of hearing his confession. Catey promptly attended, and frankly stated that his services were secured for the purpose of convicting Myles, Joyce and the other prisoners. Crown Solicitor Bolton of Dublin, Casey averred, compelled him to swear as he did against these prisoners, although he himself was reluctant to do so, as he knew or believed that

A passenger on the wrecked steamship Amsterdam alleges that the steerage passengers robbed those of the cabin, and that the Sable island officials assisted the

—A young man named Elkington, about eighteen years of age, was found in an unconscious condition in a gas pit or well at the Hellmuth ladies' college, London, betwen seven and eight o'clock Thursday morning. When discovered he was still alive, but on the doctor's arrival life was exting. The queen has subscribed £100 and the Prince of Wales £25 towards the expenses of the proposed visit of a volunteer artillety team to Canada. The total subscriptions now amount to £500, and the presence of an English team at the competition at Quebec is therefore assured, as it is considered that £500 will cover the cost of the trin.

A practical man points out for the benefit of country readers that the process for preparing berries for the city market is very simple. They are simply stewed in the ordinary way, adding ten ounces of common brown sugar to a pound of berries. The fruit is then put in barrels or kegs and shipped to the city, where it is sold to consumers at a good profit.

—News has been received at Derver

-News has been received at Denver, Col., of a destructive prairie fire 160 miles to the north-east on the range between the Denver Junction and Frenchman. The burned district extends along Platte river and back a great distance, covering a portion of the Jed Brush, Governor Routt, Bruce and Johnson ranges, and has inflicted great loss on the stock interests.

-A well-known lawyer of Picton has disappeared, leaving numerous store bills, debts for borrowed money and for money left in his hands to be paid on mortgages

-Leading citmens and the board of trade of Heiena, Mont., have wired a petition to the secretary of the interior urging imme-diate action for the relief of three thousand Piegan Indians at the Blackfeet agency who, despite contrary reports, are actually starving. The death rate is great. The supply of provisions at the agency is almost exhausted. Rations issued are so scant that they would be insufficient to sustain life but for the plenteousness of wild between Stockman wild berries. Stockmen report many cattle killed by starving Indians.

-A despatch from Ottawa says the de most precautions against the introduction of cholera. All vessels coming up the St. Lawrence will, if sickness is on board, be taken on hand at Grosse Isle and fumigated, and the patients taken out and isolated in the quarantine station them. ed, and the patients taken out and isolated in the quarantine station there. The minister is negotiating for a small steamer to be placed at the disposal of the quarantine authorities at Grosse Isle for that purpose. Vessels not displaying signals of sickness aboard at Grosse Isle will be examined carefully at Quebec before proceeding to Montreal. These regulations apply to steamships as well as to sailing vessels.

—Several of the farmers of East Garafraxa and Caledon have recently been gulled into signing orders for hay forks by a couple of sharpers, one of whom is McConkey, at one time a temperance lecturer. The system practiced by these sharpers is to call on some unsuspecting farmer and at first ask permission to put, up one of at first ask permission to put up one of heir forks; then work up his interest and get him to become an agent for the mplement. The order the farmer signs binds him to pay \$25 each for 12 forks on demand, and this claim is very shortly preented by a partner of the first agent. The sharpers, McConkey and partner, were willing to return the farmers' notes and orders to evade the consequences of their

-- The whole of the deep sea section of the whole of the deep sea section of the second cable of the commercial Mac-Kay-Bennett cable company was last week placed on board the steamer Faraday at the dock of the Siemen's brothers at Charlton, just below London. The work has been done with the utmost speed as the company is anxious to begin business at as early a date as possible, but has decided not to receive messages for transmission until both cables are laid. The stowers who coil the cable in the three great tanks between decks have worked day and night under the stimulus of liberal extra pay The heat of the hold in which they have been employed has been terrible during the midsummer days, and the men have

been compelled to work almost naked. -Michael Davitt writes that the state ment that he is at war with Parnell is a malicious fabrication. Davitt says: "No letter of an unfriendly nature has ever passed between us, nor has a line upon any subject been exchanged during the past twelve months. I have never in public speech or letter, or in privace discussion or conversation, spoken of Parnell except in terms of respect."....Mr. Biggar, M.P., writes as follows to the organizer of the meeting to be held at Monaghan on the 15th inst., at which Mr. Healy is to address the electors: "If Mr. Davitt is to be present I shall not attend the meeting. I dislike his opinions about the nationalization of land and his general conduct in Irish politics, and I shall not in any way coun-tenance him." This letter has caused a genuine sensation among all classes of Irish politicians. Its importance lies in the fact that Mr. Biggar is well known to be

the mouthpiece of Mr. Parnell. -Latest despatches give the details of the wreck of the steamer Amsterdam. The steamer sailed from Amsterdam on Saturday, July 19, with 212 steerage and 12 cabin passengers and crew of fifty-four men. On the day before the disaster the sky was clear and the captain obtained good observations. Next morning, however, broke thick and the weather continued foggy throughout the day with the exception of one short period. About fifteen minutes to ten the ship suddenly grounded on an unseen bar. No land or lighthouse was visible in any direction, and, as it was dis-covered afterwards, the island was fifteen miles distant, the steamer when she struck being some thirty-five miles out of her course. The shock on striking was a very slight one, but caused great commotion on the crowded vessel, the passengers becom-ing greatly excited and requiring all the exertions of Captain Lucae and his officers to dispet their fears. The command was to dispet their fears. The command was given to open the hatches and jettison the cargo, which was commenced at once, a number of the passengers joining in and assisting the crew. This continued until noon on the following day, but, though no water had yet shown below, without success. At that hour the commander of the abit, finding his efforts unayailing ordered. ship, finding his efforts unavailing, ordered the boats to be got in readiness for launching. About six o'clock, when the night

being favorable as far as weather was con-cerned, though the sea was very rough, the captain decided to lower the boats. All on board were crowded into aix small boats and headed for shore. The first reached the beach without accident at three o'clock in the merning. The second one, how-ever, was not so fortunate, being swamped just as she was about grounding safe Three men on board of her, two steers Three men on board of her, two steerage passengers and a fireman belonging to the steamer, were drowned. The rest were picked up by the other boats or dragged ashore. The accommodation provided for the shipwrecked people by those on the island is described as very poor and inadequate. After landing, without having had anothing to eat for two days, they were quete. After landing, without having had anything to eat for two days, they were compelled to wait some hours before provisions could be obtained from the main station, some fifteen miles away. The weather continued moderate the succeeding day, and Captain Lucas and his officers were able to visit the Amsterdam on several occasions to obtain effects from on board, but they found the water rising and falling in her hold, and satisfied them-selves that there could be no hope of saving

-The boy O'Rielly, aged 12, who became drunk on Saturday and stole a revolver and lent it to a companion who shot. himself in the hand with it, was on Monday sent to the reformatory for five years.

—Sir Thomas Brassey and Mr. Thomas Morley, two radical members of Mr. Gladstone's support in parliament, have been offered peerages. The event is rumored to have considerable political significance.

have considerable political significance.

—The decision in the Ontario boundary case, says Mr. H. Sutherland, M.P., Winnipeg, put new life into every enterprise at Rat Portage. Miners are now secure of titles, and, relieved from the payment of heavy royalty, are getting to work energetically. A great deal of rich ore has recently been crushed by the milling company established at Rat Portage. Mr. Sutherland says the lumbermen feel greatly pleased by the decision in Ontario's favour, though they will now be compelled to pay stumpage; increased dues are of little consequence in comparison with the gain to result from the disappearance of that unsettled, restless feeling which Sir John Macdonald's unscrupulous opposition to Ontario had engendered in business circles.

—Among the latest news items current at Winnipeg word has been received that a man named Wm. Owens, a California miner, was found by some of the railway navvies near Kicking Horse river a few days ago in a famished and partially demented condition. Owens says he started on the 18th of Fane with Joseph Williamson from Kamloeps on a prospecting trip, expecting to strike the Columbia river, but their supply of provisions gave out before their supply of provisions gave out before reaching there. They travelled six and a half days without food, when Williamson laid down and died. Owen's then cut flesh laid down and died. Owen's then cut flesh from his companion's legs, which he ate and proceeded on his tramp. He had been living for six days on human flesh when found, and still had a quantity of dried flesh in an old handkerchief. He was very weak and emaciated, and told his story with difficulty. He repeated the details on several occasions, and all who heard him are convinced the story is true. He had a large roll of bills with him. The police have taken the matter in hand and will in. or to be let out for well-to-do farmers in the vicinity, all supposed to amount to over \$5,000. A girl is also missing, and as both were last seen rowing together down the bay, it is supposed she has gone to the states with him. The girl had been, up to a short time since, a servant in his house.

-The Scott act agitation is going briskly. A reference is given to the action taken at different points. The number of signatures to the Scott act petition in the county of Huron is 5,000. The number of names on the voters' liets of the county is about 16,000 which includes a large number of 16,000, which includes a large number of duplicates, so it will be seen that upwards of one thousand names more than is required by law to insure a poll is attached to the petition. The petition will be deposited in the sheriff's office on the 30th ult.....At Meaford the movement for the submission of the act to the county is being quietly and persistently carried on.
Meetings have been held in that section
by local speakers and the indications are
that the farming community will vote almost solid for the act.... A branch of the
Scott act association of the county of Wellington was formed and officers and committees were elected.... A meeting was held in Clark's church, West York, on the evening of the 6th inst. for the purpose of organizing to canvas the municipality in the interest of the Scott act....At Ottawa the opponents of the Scott act have succeeded in their efforts to have the petition for the repeal of the act submitted to the voters of Halton county. Senator Mc-Kindsay has been there for some days acting with Mr. McGibbon of Milton on behalf of the provincial licensed victuallers' association, which body will use every effort to secure the repeal of the act at the coming election, which will take place about the middle of September.

-On Friday evening of last week the funeral ceremony of conveying to their graves the bodies of the men who died on the Greeley expedition took place at New York. The arctic relief vessels steamed up to the city. The funeral escort was drawn up in line on Governor's island at an early nour. When the vessels came in sight a funeral salute of twenty-one guns was fired. There were one thousand visitors on the island and the New York shore was crowded with spectators. Shortly after ioon the bodies were transported from the Bear to the dock by the steam tug Catalpa. Minute guns were fired from Castle William during the ceremonies. As each body was taken from the barge the soldiers presented arms, the officers raised their swords and the band played a dirge. As he bodies were carried to the caissons Secretary Lincoln, Gen. Sheridan and Gen. Hancock and staff stood at the head of the wharf with uncovered heads. After all the bodies were placed on the caissons the troops made a flank movement and led the funeral march to the hospital, the band playing the "Dead March in Saul." At the hospital a great throng was gathered and with uncovered heads watched the transferring of the remains to the room wher they will lie in state, watched by a guard f honor, until taken away by friends. People are permitted to pass through the building and view the caskets. Each casket was wrapped in the American flag and ticketed with the name of the dead man within. All day visitors flocked over from the city to view the bodies. Late at night the hodies were removed to their last resting place.

"I marry that fellow, ma!" exclaimed Nellie: "No, I would rather die than have him. What! marry him with all his pains and aches. Never; not till he tries Crowfoot Bitters."

A Bedridden Person Cured. I was hardly able to turn myself in bed from a weakness and a pain in the back, but the Crowfoot Bitters have cured me Mrs. S. LEFLER, Collingwood Town, Ont. perfectly.

Dentistry.

EDGAR E. CULBERT, L. D. S., SURGEON DENTIST. OFFICE—In Brandon's Block, Cannington, Nitrous Oxide Gas used.—70-ly.

W.H. GROSS DENTIST. Over 24 Year's Experience.

Mr. Gross has recently introduced the latest and most perfect system of vulcanizing, whereby any variety of Rubber can be hardened without a risk of impairing its strength or injuring its texture. This new process was invented more particularly for the working of BLACK RUBBER, which, being perfectly pure, to secure the best results, requires a more uniform and higher degree of heat than is attainable by use of the ordinary vulcanizing machine. The inventor syst that with Ash & Son's GENUINE ENGLISH BLACK RUBBER, hardened by the new vulcanizing process, he can produce one of the best, if not the very best, dental plates in the world. Mr. Gross, with this improvement is enabled to make his Black Rubber Plates, heretofore good, still better than ever. All wearers of Black Rubber plates are delighted with them. Artificial teeth inserted on any kind of plate desired, including red rubber, and what is called gold alloy. A set of teeth on the latter material for \$8. A stock of about 10.000 ARTIFICIAL TEETH of all shapes, shades and sizes to select from. An upper or under set of teeth from \$8 to \$65. No charge for extracting teeth when new ones are to be made. VITALIZED AIR administered and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and other good materials. Mr. Gross having superior facilities for securing valuable improvements as soon as they are invented, always avails himself of this advantage, thus improvements as soon as they are invented, always avails himself of this advantage, thus keeping in advance of all competitors. Rocms over Kennedy's store, Kent.st., Lindsay.

Lindsay. July 29, 1884.—99.

L. D. S. Over 20 Years' Experience. The most suc-

cessful Dentist in this part of Canada

The Gold Alloy used by Mr. Neelands for artificial teeth is a grand success notwithstanding the false statements made about it by a Lindsay dentist, jealous of Mr. Neeland's enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft sawder or lead, and tells them that it is a poison and the same as Neeland's Gold Alloy, which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison. Mr. Neelands inserts numbers of perfect-fitting sets of teeth for people in Lindsay, Ops, Mariposa, as well as in Manvers and other places, after this dentist had tried and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neelands for the last 17 years, The "Only Genuine English Black Rubber" kept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr, Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong. Mr. Neelands made a special study of this gas under Dr. Colton of New York, the inventor, who writes to Mr. Neelands that he has given the gas to 136,713 persons without an accident. Teeth filled to last a life-time. One lady says she had her teeth illed with gok' by Mr. Neelands over 15 years ago, and her teeth are all good yet. "The People's Dental Instructor." a book worth its weight in gold. Call and get a copy free. Office next door to R. Smyth's Store. May be found after hours at private residence, Mill-st., near Kent. Persons from a distance will please send postal card before coming.
