AN ENCELLENT SERMON .- A most excellent sermon was preached on the temperance question, on Sunday, the 17th inst., in the white brick church by the Rev. Mr. Down, Methodist minister, to a large and attentive congregation. The speaker brought forth some very convincing arguments to prove that intemperance was descending from parents to off-pring; that sins were transmitted as well as disease, and thus is fulfilled the declaration. "I will visit the sins of the fathers upon the children unto the third and fourth generation." The speaker said that out of a population in England of 25 millions, 10,000 annually fill drunkards That four-fifths of those who commit suicide do so under the influence of liquor. That the amount of money spent annually in the world in intoxicants would amount to about \$11,130,000. That if the graves of all the drunkards who die annually in the world were placed side by side, they would cover an area of 17.750 acres. May the rev. gentlemen long live

to advocate the cause of temperance. SEAGRAVE.

BURNED TO A CRISP.—On Sunday afternoon the residence of Mr. Joseph Cooper of Port Hope was destroyed by fire, and his infant son, aged eight months, perished in the flames. The origin of the fire is a mystery, but it is the prevailing opinion that the eidest child of the three left in the house, the rest of the family being for the time absent, set the place ablaze through playing with matches.

BIG BINDING.—Last week three men on the farm of Mr. H. Brice, lot 22, con. 1, Hope, cut and bound 790 shocks, or 7,900 sheaves of grain in two days; and 16 acres of wheat were cut and cleared in a day and a half by the same three men. COMMERCIAL NEWS.

OFFICE OF THE CANADIAN POST.) Business and Froduce.

There is a fair amount of produce delivered at the market, principally butter, eggs and garden truck. New hav has been brought in and sells at very fair pricesfrom \$8 to \$10 per ton. Wheat is not yet moving to any extent, the season being rather early for any pronounced boom in this direction. Prices are low-for fall wheat 80c. is being paid, and for spring wheat 82c. to 90c. Prices for bartey are hardly well enough defined to quote a price, but from 50c. to 60c. is being paid for what

In reporting the Toronto farmers' market the Globe of Thursday says: -- The receipts of grain on the street the past week were very light, being confined to a few hundred bushels of wheat and oats. The receipts all week of the former were 300 bushels, and of the latter 350 bushels. There were about 100 loads of hay and a dozen loads of straw. The market to-day was quiet, with a sale of a load of red winter wheat at 84c. Spring is nominal at 80c. to 85c. Oats firm, with sales of three loads of old at 45c and 46c; new are worth 40c. The statistician of the department of agriculture at Washington says the reports show that the crops have been somewhat damaged by the drouth in Ohio, Indiana, Illinois and Kentucky. The injury, however, is not sufficient to cause any panicky eeling, as there is every indication that the general crops will be good.

A London cable on Monday last says: Returns show the average yield of grain in England per aere is: wheat, 33 bush.; barley, 33; oats, 29; beans, 26; peas, 26. The rates for wheat are declining. The finest ed commands 34 to 36 shillings, and white 38 shillings a quarter. Such prices never occurred before in this country, and they will probably decline still more. Montreal Horse Market.

Actual trade in horses has been very imited owing to scarcity, there being very few animals for sale. There is a good demand for driving horses, which are scarce. Good prices are being realized. At Collegeat market the following sales were ma One pair bay horses, 5 years old, at \$260, and six horses, 5 to 7 years old, weighing 1,200 to 1,300 lbs. each, at \$170 each.

Controll Live Stock Market. The British markets for live stock have opened the week with a fair degree of autmation, although without manifesting any decidedly new features. A special cable from Liverpool Monday says that the receipts of Canadians and Americans at the principal ports of debarkation have been fair, but sufficient to supply the trade fully. The reneral supplies of cattle at the leading narkets were very fair. The demand for anadiana and Americana was weak omewhat uncertain, which gave a rather easier expression to the trade, and buyers ere not very urgent. At Liverpool on Monday the best prime steers commanded 15½c, which was the top of the market. Fair to choice grades brought 15c, poor to medium 14c, and inferior and bulls 11c to 12½c. The offerings of sheep at the leading markets Monday were fair and met a moderately good trade, a fair clearance being effected at about steady prices. Transactions at Liverpool Monday were made on stions at Liverpool Monday were made on the base of 18c for best sizesp. The total number expected to date was 37,482 head—a decrease of 14,538 head from 1883, of 19,-807 from 1882, and of 1,114 from 1881. The receipts of live stock at Point St. Charles since Thursday were SI car loads, of which 45 cars (810 head) were expert cattle and 30 cars butchers cattle. There was an active demand for shipping cattle on Monday at steady prices. All the offerings, which were fair, were quickly taken up at from 44c to 51 per 1b. live weight. Some extra prime steers brought 52c, Mr. James Mc. Shame, M. P. P., was the principal buyer, and purchased about 400 head at within range of the prices given. Mr. McSham's purchases of cattle Monday aggregated \$24,000 in value. The prospects of the trade are fairly good. There is plenty of cattle in the country and exporters take all the receipts freely. Last year at this date export cattle sold at 5½c to 6c. The receipts of export sheep were moderate and the demand fair at 4c to 4½c per 1b, live weight. Mr. McShame bought several choice lots at the outside figure. These prices are low compared with former years, but there is not much hope of improvement. Live hogs were scave and in active request, which resulted in a good advance. Sales were made quickly at 7c per 1b. Receipts of butchers' cattle at Viger market were light and barely equal to demand, which was more active. Good to choice sold at 4c to 4½c per 1b live weight; common to fair at 3c to 3½c per 1b live weight; common to fair at 3c to 3½c per 1b live weight; common to fair at 3c to 3½c per 1b live weight; common to fair at 3c to 3½c per lb live weight; common to fair at 3c to 3½c per lb live weight; common to fair at 3c to 3½c per lb live weight; common to fair at 3c to 3½c per lb live weight.
