It evidently was delivered, because at an early hour next morning the young lady called at the same florist and invested \$2.75 in a boquet conveying the message: 'No: you bandylegged clam.

- General Manteuffel's ugly order, driving as it does at a time when the whole French press is crowing over German friendship, has had the effect of a cold douche on the Paristans. Not much is said about it, but it is evident that people appreciate the depth of the hole into which Prince Bismarck nas led them by winking at their Chinese adventure and decoying them into estranging England and sending their own army and fleet to another quarter of the world.

Wm. Cranham, aged 9, was sent down from Brantford to the reformatory for five years the other morning for stealing from his mother. On Monday week his sister, aged 12, was sent to the Mercer for prostiution, another stater, aged about 15, was sent down last year for a like offence. The eldest boy, who is now 19, when a young ster, was sentenced to five years for steal ing, and eighteen months age, when he came out, for numerous other offences of a like nature received five years in the penitentiary, while a second brother, who had likewise served five years in the re-formatory some eight months ago, was

On account of the depression in trade the Edgar Thompson Steet Co. of Pittsburg, Pa., has notified its employees that unless they accept a reduction in wages a suspension of operations will be necessary. Andrew Carnegle is the head of the firm, which employs nearly 5,000 men. The probabilities are that the reduction will be accepted, as the number of idle men in the vicinity is greater now than ever during the past ten years. There are only about half the mills and glass factories in operation. There is great distress among the poor, and there are 4,000 vacant rooms in the city on sceount of the poorer classes doubling up to save expenses. Protection cannot "protect" even Pittsburg from the effects of depressionir

The rigors of military conscription in Germany are illustrated by a recent inci-dent at Greiz. Two gentlemen of that city being soldiers of the landweller class, were ordered to report for duty for the autumn manculares of the German army. The only means of transportation offered them was to go in a cattle train with a lot of peasants, who were also land wehr soldiers. The gentlemen refused to take their place The gentlemen refused to take their places in the cattle trucks and telegraphen a resmonstrance to Emperor William at Berlin. A reply came back through military official channels to the effect that the offenders were to be tried in the usual way for dischedience of orders. The two gentlemenhave accordingly been duly tried by constmartial, and the sentence of the court has just been approved and pronusance. The sentence is for each of them eight years of imprisonment at hard-labor in the common paol at Greize.

At a meeting on Saturday of the poor law guardians of Longhrea, county Galway, there were some hornble revelations of indecent abuses in the town poor house. Several prominent officials are implemental in-charges of shameful immorality in connection with female purpers who were in their power. The judge did so, fined the prisoner \$40, and before an hour had passed away had cleaned out every colonel on the train. Then he played a little game with the late prisoner who promptly won all the judge's oner, who promptly won all the judge's pile and set up the drinks for the crowd.

—Sixteen young girls of Freenert. N.Y., members of a "Leap Year Club," recently took an equal number of young men on an exemulant to Point Lookout. The young ladies treated their companions to ice cream and cigars, and after lunch hired all the bathing houses on the beach and turn. the bathing houses on the beach and turned them over to their guests. The young women looked on while the gentlemen disported in the waves, after which the whole party went for a sale in a couple of yachts chartered by the Leap Year Club. The village parson, on being asked after the excursion how it would turn-outlaconically answered, "four pairs."

-Twenty thousand persons participated in a demonstration in favor of the franchise bill at Kilmarnock, Satarday. A great took part was a feature of the occasion The franchise mitation shows no sign of abating on the liberal side, while on the conservative side it is practically aban-doned. Mr. John Morley calls for a dissolution in January on the cry of an attack on the privileges of the house of lords, and a-new danger to the franchise bill arises in the threat of the Irish members to vote against the bill unless Earl Spencer and Hon. Mr. Trevelyan are dismissed.

-Oliver Wormald, a Buffulo freaco painter, has been at Niagara Falls to perfect arrangements for going over the cathract in a rubber ball, fifteen feet in diameter, for a purse of \$1,000. W. G. Graham of Cleveland, and Peter S. Grant a Buffalo business mas, are managing the affair. Wormald's ball will be of rubber i of an inch thick, covered with closely braided tarred rope, and filled with compressed air. He expects the ball will receive aufficient momentum to hurt it a considerable distance beyond the falls, and he will be picked up by one of the ferry boats plying at the Prospect park inclined railway.

-Another society girl has run off with her father's cosehman, and the acting New York inspector of police does not propose to look into the matter, since the "missing couple are of age and able to take care of themselves." The girl is the daughter of Giovanni P. Morosini of Yonkers, a member of the firm of W. E. Connor & Co., Jay Gould's prokers; the coachman was dis-charged within a fortnight on account of his attentions to Miss Morosini. A faint halo of romance is thrown about the coachman Scholling by the story that he is a nobleman whom poverty forced to seek a living as a waiter at Delmonico's, where Miss Mordini first met him. There they arranged that the young man should become her father's conclusion. This story se served; lo these many years,

-An Ottawa despatch ways: Rehert E Donglas, commissioner appointed by the Dominion government to investigate the report upon the best means of dealing with the Canadian canal system, has submitted a report which, it is understood, the government have adopted and will act upon. He thinks the success of the Sr. Lawrence route depends upon increasing the depth of water, and unless the improvements of the St. Lawrence waterwave keep page with the countruction of the Canadian Pacific railway and the settlement of the country, trade of the Canadian Northwest will seek foreign channels eastward or southward via St Paul, Milwankee and Chicago. The necessary appropriations for deepening the canal to fourteen feet will probably be asked at the next session of the Dominion parlia-

Miss Clark has been brought up by her grandfather and her mother, who live together and are protestants. She has recently lived for some time with the Weldone, who are catholics and wished to bring the gird up in their faith, and sent her away without the Clarke knowledge. The mother discovered her at Hazardville and took her basis to Norwich, where some of Weldon's friends interfered and the mother was only enabled to retain her daughter by appealing to the police. Now the prandfather has sued Weldon for \$5,000 for addiction and will by to compel him to produce the girl in court.

Dentistry.

IDGAR E. CULBERT, L. D. S.,

SURGEON DENTIST OFFICE—In Brandon's Block, Canningto Nitrous Oxide Gas used.—70-1y.

W.H. GROSS Over 24 Year's Experience.

Mr. Gross has recently introduced the latest and most perfect system of vulcanizing, whereby any variety of Rubber can be hardened without a risk of impairing its strength or injustically the strength of the working of BLACK RUBBER, which, being perfectly pure, to secure the best results, requires a more uniform and higher degree of heat than is attainable by use of the ordinary vulcanizing machine. The inventor says that with Ash & Son's GENUINE, ENGLISH BLACK RUBBER, hardened by the may vulcanizing process, he can produce one of the best, if not the very best, dental plates in the world. Mr. Gross, with this improvement is enabled to make his Black Rubber Plates, heretofore good, still better than ever. All wearers of Black Rubber plates are delighted with them. Artificial teeth inserted on any kind of plate desired, including red rubber, and what is called gold alloy. A set of teeth on the latter material for \$8. A stock of about 10,000 ARTIFICIAL TEETH of all shapes, shades and sizes to select from. An upper or under set of teeth from \$5 to \$65. No charge for extracting teeth when new ones are to be made. VITALIZED AIR administered and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and other good materials. Mr. Gross ministered and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and other good materials. Mr. Gross having superior facilities for securing valuable improvements as soon, as they are invented, always avails himself of this advantage, thus keeping in advance of all competitors. Rooms over Kennedy's store, Kent-st., Lindsay.

Lindsay, July 23, 1884.—99.

J. NEELANDS Over 20 Years' Experience. The most suc-

cessful Dentist in this part of Canada.

The Gold Alloy used by Mr. Neelands for artificial teeth is a grand success notwithstanding the false statements made about it by a Lindsay dentist, jealous of Mr. Neeland's enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft sawder or lead, and tells them that it is a poison and the same as Neeland's Gold Alloy, which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison. Mr. Neelands inserts numbers of perfect fitting sets of teeth for people in Lindsay, Ops. Mariposa, as well as in Manvers and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neelands for the last 17 years. The "Only Genuine English Black Rubber" kept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr. Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong Mr. Neelands made a special study of this gas under Dr. Colton of New York, the inventor, who writes to Mr. Neelands that he has given the gas to 136,713 persons without an 'accident. Teeth filled to last a life-time. the inventor, who writes to Mr. Neelands that he has given the gas to 136,713 persons without an accident. Teeth filled to last a life-time. One lady says she had her teeth filled with gold by Mr. Neelands over 15 years ago, and her teeth are all good yet. "The People's Dental Instructor," a book worth its weight in gold.
