#### RADIANT HOME" COAL STOVE!

E. Woods.

Other Coal Stoves in Comparison are Simply Refrigerators and Coal Consumers.

For heat, simplicity and economy the Radiant Home has no equal. They are the only stove made with the celebrated DUPLEX GRATE, it is the least trouble to operate, the most thorough in its work, and the most cleanly ever used. Such is the opinion of some 50 residents of Lindsay now using them. Economy is wealth. If you want the best, buy no other. I have the exclusive sale of them for Lindsay. A Radiant Home Double Heater will adorn your house; they are beautifully Nickel Plated, handsomely designed, in fact they are everything the most artistic could fancy, and CHEAP. They take the place of a regular furnace.

We have now on exhibition the largest stock and greatest variety of Coal Stoves ever shown in this county. We extend an invitation to intending purchasers to inspect our Radiant Homes before buying elsewhere, it will be money in your pocket to do so. Our stock comprises:—

THE HIGH ART AND LOW FEED RADIANT BOME SQUARE.

Exhibitors have been over the buildings and grounds selecting, with the approval of the directors, positions for their displays. Everything indicates that all arrangements and improvements will be completed in ample time, and that exhibitors will have the fullest opportunity to make as effective a display as possible.

So successful was the exhibition of last year that the directors were encouraged to go to a large expense to make the Lindsay Central a permanent and a paying institution. Recognizing that in addition to the large stock, agricultural and machine exhibits amusements should be provided, arrangements were made early in the season by which the South Victoria agricultural society were enabled to purchase a large plot of land adjoining the grounds. A difficulty has been experienced heretofore in making the fair on the first day as attractive as on the succeeding days. More or less finishing up of details and placing of exhibits late in arriving necessarily must be done on the first day. Recognizing this, the directors pressed the "Wanderers" club to consent to give an exhibition. Although the club have numerous engagements of this character, they consented to come, and from the favorable reputation the club has acquired the bicycle exhibition and parade will be at once a novelty and a success. Many farmers have patronized him. This speaks PERSONAL.—Mr. Jas. McBain, formerly of this place but now of Cannington, paid his many friends a short visit last week. Bexley has one more attraction than the attractive village of Cannington... Miss Maggie Sears, who has been visiting friends in the vicinity of Woodville, has returned and looks as though she enjoyed herself very much, and she speaks highly of the pleasantness of that locality.... Mrs. Watson of Cartwright has during the past week been visiting at her sisters, well for Mr. R. Sylvester, who is doing his best to manufacture only first-class farm-ing implements. PICNIC.—Some of our young folk who have been kept on the "go" all harvest thought they would have a little sport, so they divided themselves into two parties, one going north and the other south in quest of their prey. The party going north made their way to the shores of Duck lake, where, suffice it to say, they had a right jolly time,—the old adage "The betterthe day the better the deed" being by them thought to contain an excuse for their fun. The other party made their destination the verdant shores of Baleam lake, where they spent a pleasant time in all the amusements of the day common to the occasion. Some of them, however, were unused to such tun, especially in disposing of such luxuriant viands, and consequently had to take private lessons from their better informed superiors.

GENTLEMEN.—Your extremely courteous, unexpected and most flattering address which you
on the part of the people of Mara and Rama present to me has taken me rather by surprise, and
I scarcely know in what manner to thank the
people of those townships as well as my former

I trust that I have given satisfaction in regard to the performance of the duties pertaining to each of these, and I might be allowed to say that in the interest of all impartially I have used my best endeavors and judgment in the management of all matters coming under my notice; however, your present address is a pleasing acknowledgment on your part that I have done so. In reference to agriculture I might say that being always a friend of this art I consider it a duty as well to others as myself to further its interests and advancement as much as possible and I shall feel very much gratified, indeed, if any little exertions of mine tend to sustain emulation among you in that reas much as possible and I shall feel very much gratified, indeed, if any little exertions of mine tend to sustain emulation among you in that respect and assist a little in concurrence with your own good efforts and judgment in enabling you at all times to compete successfully with any part of our fair province. As to stockraising, I consider it one of the best and most profitable branches of our industry, and hope that my efforts in this direction may be still more improved upon by my friends of Mara and Rama. I hope to be able to visit you occasionally when opportunity offers, and, as it is not my intention to dispose of my property in Mara, I shall consider myself as one of you, and shall always take a lively interest in your weifare. Again thanking the people of Mara and Rama for their kind address and good wishes towards myself and family I will conclude by wishing you and them in return all similar blessings, happiness and prosperity as they wish me and mine... The deputation then withdrew, all veing well pleased with the above interchange of courtesies.
