A cable despatch says it is now settled that parliament in to be asked next season to vote an allowance to Prince Albert Victor Christian Edward, eident son of the Prince of Wales, of \$50,000 a year. The radicals intend to organise a visorous opposition to the proposed grant and thus may complicate the situation regarding the franchise bill.

An action was instituted at Montreal An action was instituted at Montreat on Saturday in the superior court by Mr. James Dison, of the firm of Dison. Som & Risine, ship brokers and importers, against the Toronto Mult for \$50,000 damages for libel. The ground of the action is an item which appeared in the Montreal correspondence of the Mail of the 21th, and which, it is claimed, falsely accused Mr. Dison of having absonded, leaving a number of creditors, of having stolen money from his wife, of being a fugitive from listice, and being spinad by drink from illution, and being fulned by drink and bad company.

filimpers of Spanish affairs, caught from well informed people, give the most gloomy views of the future. The king is doomed to dis an early death from consumption, to his an early neath from consumption, and the family have patched up a mar-flede between his infant daughter and sole helreus and Don Jaiane, the fourteen-year old son of Don Carlos, with a riew to finally consolidating the dynasty. The republicans are preparing to oppose this, and stormy times are expected. In the mean-time languist trade has been prostrated by the cholera wrate, and poverty and distress have been vantly increase

The authorities at Scotland Yard reently pool-pooled the story of the Arise ania correspondent of the Standard, who said that the Irish invincibles were preparing further mischief in London, but they are now taking extraordinary pre-cautions, and evidently the dynamiters now mean business. Suspicious looking frishmen are constantly shadowed by detentives, and several very respectable frishmen called the other day at Scotland Yard to complain that they were being dower by spice. The inspectors on duty blandly disclaimed all knowledge of such surveillance, but the virilance of the detentives has not been felaxed.

The reigning sensation in Wallet, for the that few days has been the laute of \$10,000,000 debenture bonds by the New York Control railway. He sons, cornenus and william K., have speculated heavily and invariatly lost, and William H. was compelled to fire the bills. William K. lost \$6,000,000 at one swoop last fall, and Cornelius dropped 32 mm, in O during the panie in May. so heavily had the boys become involved in stocks that William H. was compelled to form so alliance with Jay Gould in order to may his collegal fortune. Indeed, Mr. Vanderbilt was hard pinched for feady money when he sold Mand S, for \$10,000, and he was somewhat cramped but man it fault could not repay the \$150,000 he borrowed and let ferdinand Ward steal. The thancial trouble of the Vanderblith has been a subject for goas p in Wallat, he well as up town, where it is said the elder money-king is in much trouble. Though the extent of his losses is simply a matter of conjecture, it is believed that they will reach at least \$30,000,000 and possibly \$30,000,000...... Still the old man will have \$100,000,000 left, and can worry slong.

A Sunday cable to the New York for ready money when he wold Mand S

A Sunday cable to the New York Sun states the further discussion of the condition of the navy deepens the profound impression of its disproportion to the huge flow of England's responsibilities and the armaments of other powers. The distinguished Admiral Symonds writes to the Fall Mail (lassite to repeat the prayer of Sir Thomas Brassey, one of the representatives of the admiralty in parliament. "May tind deliver us from war." After the most mature and deliberate consideration he continues, "I deem it my bounden, though most painful, duty to state that I consider the navy so starved, so weak in numbers, armament, structure, and personnel that if a war broke out to-morrow with France I do not see how we could avoid the most awful disaster." Such vehement declarations from competent authorities have apread the spirit of slarm authorities have spread the spirit of alarm to radical journals of peace at any price proclivities. Even the irreconcilably radi-cal Labouchers admits in Truth that the cal Labouchers admits in Truth that the multiest requires investigation. While an increase of her ironclade is thus demanded by the unanimous public opinion of fingland the Herlin correspondent of the Times transmits an account of the manimus reasements an account of the manimus reasements and account of the manimus reasements and it ironclade. "This year's experiments," he may, "have confirmed the conviction that colosest ironclade can be sunk by a district blow from a torpedo. Even on bright is moonlight sights and with keen rigilance so ship is ease near a torpedo. In investigations each the blockading ships can be followed, even when in motion, and all archantions each as watch boats and a submarine guard of wire rets, have been proved practically useless." Finally the writer declares that the German may,

One day last week Mr. Chas. Foss, a baker of (inderich, met with a very peculiar secident. While at work in the bakeshop he capied a rat and made a violent kick at the rodent. He missed the rat, but swung about with such force that he wrenched his enoulder out of joint in his endeavour to keep himself from falling. It took four men to prese the limb back into its place, and Foss antifered much pain during the operation. The rat escaped,

At Brookhaven, Miss., last Saturday night forty men visited the Franklin county gael, overpowered the gaeler, took out four negro prisoners and lynched them on a tree in the court house yard. The elopement mania has reached the Peahody poor-house in Massachusetts, two of the paupers having run away to ust married. reached Peabody, and perhaps that part of the story will come later. . A most sin-gular case has just come to light at South Framingham, where Sadie Robinson, a pretty and prerocious miss of 13, robbed her mother of \$60,000 last week, prepara-tory to elopeing with a Boston young man, whose name she stubbornly refuses to divulge. Sadle was large of her age, weighing nearly 200 pounds, and her mother's idol. The jewelry was recovered.

The harvest in France being now over, The harvest in France being now over, and threshing being fairly advanced, it is found that the wheat is of good quality generally, and that the yield will reach about 110 million hects, or about 6 million hects more than last year; but the rye and metell crops being deficient, the total of the whole is about the same as last year, but the quality of the wheat better than in that year. A further decline of about 1 fr has been quoted in most of the country markets, but the downward movement markets, but the downward movement markets, but the downward movement seems now to be checked, rather a better feeling being apparent in some of the principal markets; red homegrown wheat has fallen to 20 fr per 100kil (equal to 34s, 1)d, per per 180lb), and even rather below that figure; a lower price than has been seen in any year since 1850. The flour trade shows but few signs of improvement, there being little or no margin for the manufacturer at the prices now being obtained for flour. Rye, barley, and oate have rather given way this week with in-creased offers of new grain. Foreign wheat in the ports is offered again lower, but meets very little demand, owing to the cheapness of homegrown. It a calculated, however, that France will require quite as much wheat in the pre-sent season as in the past one, viz., 4, milion quarters. Red winter, free on rail in the northern ports, is quoted at equal to this, to this, bid, per 1801b; Australian at 37s. tid, per 1801b. At Bordeaux 17 fr per 180kil quoted for both home grown and foreign wheat on the spot. The quantity of wheat now on passage to France by sailers is 25, 500 qrs., and that by steamers 100,000 qrs., total 125,500 qrs., against 175,000 qrs., last year. The German empeop was so exhausted as senercity to be able to move out of his saloun carriage in Skiernewicz, and he was compelled to witness the army maneavers in Germany on the third day from a carriage instead of on horseback. A special carriage for all such occasions in the future, is being manufactured at Berlin with glass top, which will emble him to see everything without distress. The chief reason for his constant appearance in public is his morbid jealoney of his son, to whom he gradges the smallest share in imperial honors.

Dentistry.

MDGAR E. CULBERT, L. D. S., SURGRON DENTIST. FFICE—In Brandon's Block, Cannington Vitrous Oxide Gas used.—70-ly.

W.H. GROSS Over 24 Year's Experience.

Mr. Gross has recently introduced the latest and most perfect system of vulcanizing, whereby any variety of Rubber can be hardened without a risk of impairing its strength or injuring its texture. This new process was invented more particularly for the working of BLACK RUBBER, which, being perfectly pure, to secure the best results, requires a more uniform and higher degree of heat than is attainable by use of the ordinary vulcanizing machine. The inventors systhat with Ash & Son's GENUINE ENGLISH BLACK RUBBER, hardened by the new vulcanizing process, he can produce one of the best, if not the very best, dental plates in the world. Mr. Gross, with this improvement is enabled to make his Black Rubber Plates, heretofore good, still better than ever. All wearers of Black Rubber plates are delighted with them. Artificial teeth inserted on any kind of plate desired, including red rubber, and what is called good alloy. A set of teeth on the latter material for \$8. A stock of about 10,000 ARTIFICIAL TEETH of all shapes, shades and sizes to select from. An upper or under set of teeth from \$8 to \$85. No charge for extracting teeth when new ones are to be made. VITALIZED AIR administered and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and ether good materials. Mr. Gross having superior facilities for securing valuable improvements as soon as they are invented, always avails himself of this advantage, thus keeping in advance of all competitors. Rooms over Kennedy's store, Kent-st., Lindsay.
