-A London cable despatch says: The speech of the Hon. Joseph Chamberlain, president of the board of trade, at Henley, on Tuesday night, in which he denounced the idea of a compromise with the lords on the franchise bill as cowardly and unwise, lowing. The Marquis of Hartington took Mr. Chamberlain to task severely for his unbecoming expressions and for the misunbecoming expressions and for the mischievous tendency of such language from a member of the cabinet. Mr. Chamberlain insisted that a compromise would be improper and that the government should stand by its profession... The cabinet reached no decision on the matter, but on the following day the political sensation of of the senson exploded by the publication in the Standard of the full measure of the redistribution of seats, which the Standard claims to be authentic, and which is now practically admitted to be so, although the government press insists that no such measure has yet been considered by the cabinet, but that the plan given in the Standard is merely one of a series which will be submitted at the next meeting for consideration. How the Standard preserved the document is not which will be submitted at the next meeting for consideration. How the Standard procured the document is not known, but several employees of the queen's printer have been discharged. In toy clube a few express the opinion that the scheme is a same to draw footh the opinions of the opponents of the franchise bill and feel the public pulse in the hopes that the defects of the measure will be fully discussed before the next cabinet meeting on the 31st, whom as amended bill for redistribution will be presented....

EDGAR E. CULBERT, L. D. S. SURGEON DENTIST.

OFFICE—In Brandon's Block, Cannington Nitrous Oxide Gas used.—70-1y. W.H. GROSS

DENTIST. Over 24 Year's Experience.

Mr. Gross has recently introduced the latest and most perfect system of vulcanizing, whereby any variety of Rubber can be hardened without a risk of impairing its strength or injuring its texture. This new process was invented more particularly for the working of BLACK RUBBER, which, being perfectly pure, to secure the best results requires a more BLACK RUBBER, which, being perfectly pure, to secure the best results, requires a more uniform and higher degree of heat than is attainable by use of the ordinary vulcanizing machine. The inventor says that with Ash & Son's GENUINE ENGLISH BLACK RUBBER, hardened by the new vulcanizing process, he can produce one of the best, if not the very best, dental plates in the world. Mr. Gross, with this improvement is enabled to make his Black Rubber Plates, heretofore good, still better than ever. All wearers of Black Rubber plates are delighted with them, Artificial teeth inserted on any kind of plate desired, including red rubber, and what is called gold alloy. A set of teeth on the latter material for \$8. A stock of about 10.000 ARTIFICIAL TEETH of all shapes, shades and sizes to select from. An upper or under set of teeth from \$8 to \$65. No charge for extracting teeth when new ones are to be made. VITALIZED AIR administered and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and other good metricle. success. The natural teeth preserved by filling with gold and other good materials. Mr. Gross having superior facilities for securing valuable improvements as soon as they are invented, always avails himself of this advantage, thus keeping in advance of all competitors. Lindsay, July 29, 1884 - 99,

The Gold Alloy used by Mr. Neclands for artificial teeth is a grand success not with standing the false statements made about it by a Lindsay dentist, jealous of Mr. Neeland's enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft sawder or lead, and tells them that it is a poison and the same as Neeland's Gold Alloy, which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison. Mr. Neelands inserts numbers of perfect-fitting sets of teeth for people in Lindsay, Ops. Mariposa, as well as in Manyers and of perfect-litting sets of teeth for people in Lindsay, Ops, Mariposa, as well as in Vanvers and other places, after this dentist had tried and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neciands for the last 17 years. The "Only Genuine English Black Rubber" kept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr. Neclands to extract from 10 to 15 teeth with one Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong Mr. Neelands made a special study of this gas under Dr. Colton of New York, the inventor, who writes to Mr. Neelands that he has given the gas to 135,713 persons without an accident. Teeth filled to last a life-time. One lady says she had her teeth filled with gold by Mr. Neelands over 15 years ago, and her teeth are all good yet. "The People's Dental Instructor," a book worth its weight in gold. Call and get a copy free. Office next door to R. Smyth's Store. May be found after hours at private residence, Mill-st., near Kent.
