THE NOTICES OF FAMILIES.

Who have boys to clothe can't do much better with their money than attend

Our Closing Out Sale.

I am selling large quantities of Heavy All-Wool Tweed at one yard, and cutting out the clothes to fit the boys for nothing. If you come in a month from now for these goods don't blame me if you don't get them. They are not being replaced. There is a great deal said in the papers about Fine All Wool Grey Flannel at 25c per yard. Well that is pretty cheap, but if you want to buy better value than that I have it for you. I have a splendid line of Red Flannel at lower prices than were ever seen in Lindsay. And they are selling, and I am going to clean every yard out before the 1st of January. In fact I must sell them by that date. Favourite Tickings and Cotton Shirtings are the best made in Canada, and you can save a dollar or two if you want much of them. Table Linens from the finest double fold satin damask to the common makes are being sold in large quantities. Hotelkeepers and boarding-house keepers are getting these plums. Blankets have not yet commenced to move fast, but the few buyers who try every store in town before buying any place have gone away with a sigh, and are thinking to themselves that a dollar saved is a dollar made. Ready-made clothing of our own makes has been moving out to the satisfaction of the buyer and to the profit of the seller. A \$10.00 pair of pants, and a \$7.00 pair of trousers, and such reductions in the same proportion for any price of garment have induced the prudent ones to buy earlier than usual. To those who prefer buying the cloth we cut the months for nothing. The tailoring business is good, with Mr. Miles at the head of us. It's not hard to keep it good. He allows it that every garment has to be as it ought to be before he allows it to get out of his hands. And in that way gentlemen who have had their clothes made by him are not very anxious to try any other place. And we certainly have as choice a stock of Suitings, Trousers, and Overcoatings as is to be found in the trade. And the present prices have no doubt given a greater impetus to this department.

JAMES GRAHAM,

Sign of the Golden Place, Opposite the English Church, Lindsay.
