INDGAR R. CULBERT, L. D. S.

CK—In Brandon's Block, us Oxide Gas used.—70-ly. W.H. GROSS

Over 24 Year's Experience.

Mr. Gress has recently introduced the latest and most perfect system of vulcanizing, whereby any variety of Rubber can be hardened without a risk of impairing its strength or injuring its texture. This new process was invented more particularly for the working of BiLACK RUBBER, which, being perfectly pure to secure the best results, requires a more uniform and higher degree of heat than is attainable by use of the ordinary vulcanizing machine. The inventors ys that with Ash & Son's GENUINE ENGLISH BLACK RUBBER, hardened by the new vulcanizing process, he can produce one of the best, if not the very best, dental plates in the world. Mr. Gross, with this improvement is enabled to make his Black Rubber Plates, heretofore good, still better than ever. All wearers of Black Rubber plates are delighted with them. Artificial teeth inserted on any kind of plate desired, including red rubber, and what is called gold alloy. A set of teeth on the latter material for \$8. A stock of about 10.000 ARTIFICIAL TEETH of all shapes, shades and sizes to select from. An upper or under set of teeth from \$8 to \$85. No charge for extracting teeth when new ones are to be made. VITALIZED AIR administered and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and other good materials. Mr. Gross having superior facilities for securing valuable improvements as soon as they are invented, always avails himself of this advantage, thus keeping in advance of all competitors. Rocms over Kennedy's store, Kent-st., Lindsay. keeping in advance of all competitors.

J. NEELANDS

Over 20 Years' Experience. The most successful Dentist in this part of Canada.

The Gold Alloy used by Mr. Neclands for artificial teeth is a grand success not withstanding the false statements made about it by a Lindsay dentist, jealous of Mr. Neeland's enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft sawder or lead, and tells them that it is a poison and the same as Neeland's resembling soft sawder or lead, and tells them that it is a poison and the same as Neeland's Gold Alloy, which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison. Mr. Neelands inserts numbers of perfect-fitting sets of teeth for people in Lindsay. Ops, Mariposa, as well as in Wanvers and other places, after this dentist had tried and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neelands for the last 17 years. The "Only Genuine English Black Rubber" kept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr. Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well dose of gas and the person leaving quite well and strong Mr. Neelands made a special study of this gas under Dr. Colton of New York, the inventor, who writes to Mr. Neelands that the inventor, who writes to Mr, Neelands that he has given the gas to 135,713 persons without an accident. Teeth filled to last a life-time, One lady says she had her teeth filled with gold by Mr. Neelands over 15 years ago, and her teeth are all good yet. "The People's Dental Instructor," a book worth its weight in gold. Call and get a copy free. Office next door to R. Smyth's Store. May be found after hours at private residence, Mill-st., near Kent.
