We sek the favor of a call during the next two or three weeks. Our Stock, at all times large and wellassorted, is unusually so just now. Our preparations to meet winter wants are ample, and will stand a good deal of buying before being at all picked over. Still our customers who like an early chance should make their selections at once. There's not much we can add about the prices-the prices at our counters were always low enough to suit even the most unreasonable buyer.

THE THRESHING QUESTION.-The Saintfield threshers are not getting along as well as some items in THE Post concerning them would lead us to suppose. Someing them would lead us to suppose. Sometime since they boasted of their new machine and the wonderful quantities of grain they could thresh in a minute or so. Last Saturday week they called on Mr. McPherson of Fingal to take the machine back; they told him it was worthless and had not worked passably well for the whole season. He and several others helped to work it, but the test decided nothing, as two parties of opposing views managed it. How the dispute will end remains to be seen.

[Correspondence of The Post.] LITERARY.—At the meeting of the debating society on Saturday evening essays were read by Messrs. J. Loftus, P. Kelly and D. Harrington. Mr. Loftus in his essay on "Common School Education" showed that the teachers aim in imparting knowledge should be to develop the intellect. Mr. Kelly's essay on "Self-denial" was received with applause. He seemed to have fathomed the depths of the subject and to have given it justice. The easy on "Intemperance," written by Mr. Harrington, was well received, as it was evidently the product of the deep study and talent of the writer. After the essays were read there followed a spirited discussion on the opinions advanced. The subject for debate next meeting will be: "Resolved, that the press makes more im pression on the mind than the platform." SICKNESS. - Mrs. Anson has a severe attack of illness, and the physician, Dr. Gilpin, save her recovery is doubtful.
ON EXHIBITION.—Mr. Bernard Moffatt's

little bear, which he captured about a month ago, is the centre of attraction in this district. He is about five months old and is very playful. The boys take great delight in watching his antics.

SHOOTING MATCH.—An exciting hunt took place here last Friday for a supper in which a number of our young men and older ones took part. Long George of the Brobdignagian shooting club of Cartwright acted as captain on one side and Little Jack of the light horse cavalry on the other side. The captains drew their men up in line about day break on the field, each man being well supplied with provender, gun and ammunition, and the battle comgun and ammunition, and the battle com-menced. A skirmish line was thrown out and scoured the country in all directions for game. Dr. Argue was chosen to attend to the wounded. After a hard day's fight ing the men returned to their homes. men were again marshalled and the roll was not a man killed or wounded and the octor smiled. The supper was got up by Mr. and Mrs. Heasip and did them great credit. After partaking of the good things and the usual toasts being responded to the captains with the referees, Robert Baxter and Gospel T. Paul, proceeded to count the points, heads and tails counting only. Each man produced his begin turned.

The village band kindly gave its service on the occasion, and played a well-known hymn tune while the funeral procession slowly marched down the main street. Such of the masons as had come from Bobcaygeon returned as soon as the train left; but those who reside at the Falls accompanied the body to Lindsay, where others took it in charge and went with it to Toronto. The early death from typhoid fever of Mr. Jarvis, within less than three months of his marriage, is much regretted by all who knew him, and it is unnecessary to add that his young widow has the sincere sympathy of the

PARTICULARS WANTED.-The Glenarm correspondent of THE Post says that Mr. Donald McKenzie had a good team poisoned while feeding in a shed at Feneion Falls, and that they died a few hours after reaching home. very glad to have further particulars. -[Ga-FRENCH PONEY. - Mr. W. Simpson when at Montreal purchased a beautiful poney and outfit. It arrived on Wednesday and

is very much admired here. THE NEW MILL. - McDougal & Brandon have their mill ready to chop coarse grain. They are pushing on vigorously at the work and have eight millwrights working at present. They intend to commence gringing flour in about six weeks. The engine is one of Thos. Warswick's of Guelph. Goldie & McCullogh of Galt are putting in the rolling process.

FINE RESIDENCE. - Dr. Wilson will move into his new residence next week. This is now one of the finest residences in the village. The main part of the building is 38x24, the kitchen is 14x34 and the wall 21 feet high. The building will cost in the neighborhood of three thousand dollars. Mr. John Kennedy of Bobcavgeon is the contractor. The woodwork of the building was in charge of Mr. Wm. Davis of this place and reflects credit on his workmanship. We wish the doctor a long and happy life in his new residence.

DALRYMPLE.

[Correspondence of The Post. HYMENEAL. - This neighborhood was taken by surprise last week by a double marriage at the residence of Mr. James Grigg, sr., by the Rev. J. Lawrence of this place. Miss Maria Stewart of Orillia joined hands with Mr. Frank Grigg, youngest son of Mr. J. Grigg, sr., in the happy march through life's pathway; and Mr. Drew of Orillia and Miss Blanch Griggs of Orillia also agreed to be united. CHEEKY.-A gentleman from near Good-

wood drove a few cattle to the Carden plains last spring for pasture and returned this fall to drive them home again, and drove off four head more than his own that we know of, and perhaps more if they were followed and the drove examined, but that would be useless now as they have had time to put unowned cabbage out of sight ere this. HUNTERS. - We have had several parties

of unsuccessful hunters here this fall, so much so that several of the neighbors set out with their hounds and ran over the huckleberry marshes and burned plains, but did not shoot anything. It would have paid them better to have been fall plowing. ROADS. - There is a piece of road about one mile in length south from Sebright that its equal for a bad piece of road is not from here to Parry Sound. It is on the county line between Ontario and Victoria. Whoever is the proper person to look after that road should do so at once. There is another bottomiess pit opposite lot 8, con.
11, Mara, that should be seen to at once before some horse gets mired therein. If the
township fathers for Carden and Mara
would look out and get a whole set of pathmasters such as Mr. John Givens we soon would have good roads.

FAST THRESHING.—We have heard or

read a good deal about fast threshing, but we don't care to hear any more about it, because we have lots of machines in this county that can thresh 300 bushels of any kind of grain in two days any time. SCRAPS.—Turnips all in Roads gett-

ing dryer.....Plowing pretty well done.Beef or cattle buyers around begging or offering half or twot-hirds value for such as they want.....A fallow is being chopped by our laborious and enterprising young farmer, Mr. Chas. Thompson.

THE CASE OF MICHAEL COLLINS.—We THE CASE OF MICHAEL COLLINS.—We would just state for the information of the Centre Mara correspondent that Michael Collins is either crazy or so near to it that there is no fun in it. He is a large, muscular man, so much so that when he gets ugly it takes two or three good men to do anything with him. His friends in the north of Mara are only a woman, his sister-in-law, and three or four little children, and they are not able to do, nor have not done anything with or for him. Some person—who ever the proper authority is—should have something done with him at once, as he is roaming the neighborhood and is considered quite dangerous. He is greatly feared by the women.
