The distress that prevails in Paris just at present is producing its natural out-growth of riotous demonstrations. It is feared that the demonstration that has been resolved upon for next Sunday will be attended with serious consequences. There is a feeling of exasperation against the government for having employed a police and military force last Sunday, and should they be employed again disturbancen are sure to take place.

don paper given to sensations, from offi-class in India state that there is a dangerous condition of affairs in that country, The feelings of the natives were never so excited against England as at the present time, and foreign emissaries are at work among them, stirring them up to strife and preparing them to make an outbreak.

poorer quarters of Vienna, which is causinggreat alarm. The victims suffer from all the symptoms of hydrophobia, and the result is fatal in a large percentage of disease. It has not been communicated, as far as can be learned, by rables, and appears to be infectious in its character, whereas true hydrophobia is only produced by innoculation. Up to the present eighty cases have been reported, and of these eleven have proved fatal. In the opinion of some of the medical men who have been investigating the disease it is an augravated form of hysteria.

One of the editors of the Rural New Yorker recently paid a visit to the agri-cultural college at Guelph. After a well written and appreciative account of the institution he sums up as follows: "Altogether we were highly pleased with the clean, tidy appearance and the thorough business manner which pervaded every department, and were glad to learn that most of those who have been students here are now engaged in practical agriculture on their own or their parents' farms or as managers of farms for wealthy people. We think Canadian tarmers are very neglect-ful of their own interests since they do not by thousands visit the farm and carefully atury the lessons every one might find fitted to his own case. We firmly believe that the farmers of Canada in the next generation will clearly show the good remains of the instructions now being given Canadian youth.

A correspondent of the Chicago Tribune, writing from Tamsin, Formosa, under date of October 20, says: Yesterday I called upon Dr. McKay, the well-known Canadian missionary, who has been many every one did a great deal of good. He is a sincere man and a good Chinese scholar, He understands the island well. His resi-He understands the Island Well. His residence is on the plateau, and in a row behind it are his bors' school, his girls' school and mission chapel. I found him well fortitled. He has a garrison on each side of the tront door, comprised of fifteen coolies armed with a rifle and outlass, while mine of the front door, comprised of fifteen coolies arined with a rifle andoutiase, while leaving against the pillars of the verandan were numerous spears with iron heads and ironwood handley, such as are used by the hillmen. At the foot of each column was a pile of small boulders. I'nhappily there were no catapults to render these ancient projectiles useful. The doctor lamented the situation and hoped the French would not take the island. Six of his chapels up the river, at Hangkes, all of red brick with glass windows and well furnished, had been levelled to the protest. His converts had been turned out of doors, he said, and their houses had been destroyed. If from his continued their lives were in the greatest danger. He was going on a little steamer trip for his heattle, and just at parties where the projection, the regards the island arous of the garden physician, to take the boys school for a hospital in case the Francis again.

The Dean of Hereford, who was admitted to bail is brother of the Rari of Hereford, A very valuable deposite of white mica is said to have been found on the farm of Chas. Willis, about half-way between Oliver's Ferry and the village of Portland in the courty of Lanark. The mica is very white in color and of excilent quality.

and of excellent quanty.

J. J. Gibson, who once ran a large tailoring and furnishing store at Halifax, broke his neck and died instantly in a restaurant on Argylest., last Friday morning. He fell of a night stool, striking his neck on the back of a chair. Dissipation.

-Two Norweigan sailors were landed at Delaware breakwater last Friday in a halffrozen condition, having been lost from a pilot boat last Monday, and since then exposed to the inclement weather and the mercies of the sear Athird man died on Tuesday, and the survivors maintained life by eating portions of his flesh.

The Catholic mission at Hong Kong has had advices that the vicercy of Canton has closed all chapels there and razed the entire Catholic settlement. A missionary who arrived at Canton from the interior states that the Christians in the western provinces are fugitives in the wilds of Tonquin. He says the Chinese authorities in the northern provinces issued a decree erdering the expulsion of all missionaries. pon appeal to higher authorities at Pekin the decree was reversed and the missionaries taken under the protection of the Chinese general government.

-The strange epidemic, resembling cholera, referred to in THE Post last week, prevails also in Harlan, Litcher, Perry, Leslie and Ball counties in Kentucky, as will as in Tennessee and Virginia. ilarian it appears worst. It is most fatal, and prevails to its greatest extent about the head waters of Poor Fork and Clover Creek in the mountains about twenty-five miles from Mount Pleasant. A large terpersons died in one day. Last week there were searcely enough well people to make them coffins and bury them. On Brown's creek, which rises in Harlan and empties into the Cumberland river in Bell county, the disease is raging with frightful fatal

ity. There is no way to keep a record of death. All along the banks of streams the people are sick, and physicians and medi-cines, except herbs and roots, are unknown and not obtainable. The epidemic is ra-pidly spreading in Harian. In the district covering the southern portion of Letcher and Perry, the whole of Leslie and the north-east portion of Bell the plague has obtained a foothold, but reports as to its violence are very conflicting. In Lester it is thought that the deaths will include violence are very conflicting. In Lester it is thought that the deaths run into hundreds, while the number of those attacked cannot be estimated. The disease does not prevail at Mount Pleasant. No one seems to know the exact nature of the pestilence. Most people call it flux, and it is probably an aggravated form of that disease. All reports agree that the cause of the epidemic is the use of impure water. The sea-Officers in high command have sent to England urgent demands for authority to form camps of refuge for women and children in order to be ready and enting. The government has been under the counties is good, and starvation and want only exist because the people can upon the eve of a great trial. No mills are running on the small streams.

- A daetardly attempt was made Friday night to kill Mr. Samuel Cadwallader Hussey at his residence, known as Edinburn house, in Traise. Mr. Hussey is the agent tor a number of large estates in counties Cork and Kerry, and in the purant of his dangerous avocation incurred the enmity of a large number of farmers, who either were unable or unwilling to pay their rent, and many of whom had been ejected. Not-withstanding that the house is under police protection, in fact constantly guarded by protection, in fact constantly guarded by policemen who live in hute near his residence, on Friday night a quantity of dynamite was exploded and many of the windown and a portion of the wails were badly shattered. Mr. Hunsey and all the members of his family were at home at the time of the explosion, but they fortunately escaped without injury. An enquiry is being instituted, but as the bold perpetrators of the outrage succeeded in making their murderous attempt under the very their murderous attempt under the very noses of the police, it is not likely they will nones of the police, it is not likely they will be caught now that they have taken legbail. A great deal of excitement has been created in the neighborhood... The nationalists of Dublin city held a largely attended meeting on Friday, to discuss the desirability of contenting Dublin in the home rule interest at the next elections. It was decided to put forward two candidates, one of whom will be Mr. Parnell. His election is considered sure. Dublin is strongly liberal. It is represented at present by Mr. Maurice Brooks, home ruler, and the Robert Decider.

strongly liberal. It is represented at present by Mr. Maurice Brooks, home ruler, and Dr. Robert Dyer Lyons, liberal. In fact, the city has had no conservative representative since Arthur Guinness, who was elevated to the peerage as Lord Ardilaun by the Reaconsfield government in 74. He was elected by his immense personal influence, irrespective of politics, so that Parnell is sure of being elected, and he will likely carry his colleague in with him....

The dynamite explosion at Kerry has made a great sensation throughout Ireland. Mr. Huesey, who so narrowly escaped, is a fair average specimen of his class. He sagent for Lord Lansdowne, governor general of Canada, and for several other large property owners in the neighborhood. Mr. Huesey has lodged a claim for £1,500 as compensation for malicious damage to his property. Immediately on learning of the simir Lord Lansdowne cabled from Ottawa his sympathy and congratulation on the wonderful escape of the family....

Mr. Marum, home rule member of parliament for Kilkenny county, has resigned, because he does not enjoy the confidence of Mr. Parnell.

Theren F. Renter, editor of Ft. Wayne, Ind., "Gasette," writer, "For the past five years have coughe of most severe character, as well as for those of most severe character, as well as for those of most severe. SNOW AND SILEIGHING. - We have lots of snow and good sleighing. Business is looking up. Our train was three hours late last night owing to the snow drifts.

NARROW ESCAPE.—As Mrs. George Wilson was coming to our village one day last week her horses became unmanageable and dashed away, throwing her and the teamster, Miss Mirchell, out of the rig, breaking Mrs. Wilson's arm and injuring her considerably.

DWIGHT-MUSKOEA.

DWIGHT-MUSKOKA.

ICorrescondence of The Post.

DESCRIPTIVE NOTES. Please allow me space in the columns of your valuable paper to make a few remarks about this village, as there are no correspondents to your paper from here, consequently the outside world don't know whether we are dead or alive, or what our village is like. In the first place Dwight is beautifully situated on the northern extremity of the North bay of Lake of Bays. We have one general store, one tourists house which is owned and occupied by Mr. Rich. Gouldie. This large and commodious house (fouldie. This large and commodious house is second to none in Muskoka, both for its beautiful location and for the excellent manner in which it is kept, and tourists would do well to visit Dwight before engaging rooms elsewhere. We have here also one blacksmith shop, one church, and school house which has an average attendance of over thirty scholars.

DEPARTURE.—It is with regret we have to announce the departure of Mr. McKay, who was stationed here during the summer months as pastor of the Presbyterian church. Mr. McKay preached his farewell sermon last Sabbath week to a large and attentive audience.

Social. -- A nocial took place in the Gouldie house a short time ago for the purpose of presenting Mr. McKay with a purse and an address previous to his departure to which Mr. McKay replyed in feeling terms.

LUMBERING.—The M. M. & L. Co's, camp which is a short distance from here is in full operation at which there are over forty men employed, and jolly good fellows they are. Mr. John McLean of Kirkfield, who was formerly culler for the company in this vicinity, is foreman and we trust that Joha will get along well. HYMENRAL. We learn by good author-

vorhing like it. BRIDGE BUILDING.-Mr. John Kelly is busily building a bridge over the Oxtongue river and Jack knows how it is done.

MARIPOSA. BOARD OF HEALTH.-A meeting of the local board of health for the township of Mariposa was held on the 13th November, at the secretary's office, Oakwood. Present, R. Adam, chairman, Mesers. Broad, Eyres, Bowes, Dr. Vrooman, medical health officer, and J. Short, sanitary inspector. Minutes of last meeting read and confirmed. Mr. J. F. Cunnings presented a notice to the board of a nuisance caused by a Moved by Mr. Eyres, seconded by Mr. Broad, that the inspector be directed to notify the occupant and owner of the stable referred to, and have the same removed or ceased to be used as a stable any other nuisance by the first day of April next.—Carried. Dr. Vrooman, the medical health officer, presented his report in conformity with statute, which was accepted by the board, a copy of which is appended. John F. Cunnings, secretary.

Medical Health Officer's Report. MARIPONA, Nov. 18th, 1884. To the members of the Board of Health for the Municipality of Mariposa:

GENTLEMEN, -Since my appointment in May last as your medical health officer, I have given some special attention to the sanitary condition of the municipality, and I congratulate you upon the fact that, speaking in a general way, the sanitary condition of the township may be called

We have in this township no large lum bering operations, saw-mills or factories, around which constantly accumulate large quantities of decaying organic and vege-table matter, producing miasms and nox-ious gases, rendering the air impure and thus engendering disease. Swamp lands which hold more or less

stagnant water exist to a considerable de-gree in the township, but these are being gradually cleared up and drained, which will in time enhance the sanitary condition

of the municipality considerably.

The board of health and the township are to be congratulated on the fact that we have not been visited by any serious epidemic of contagious or infectious disease. During the past season there have been reported of typhoid fever only three cases, two of which occurred in the village of Cakwood and one in the village of Little Britain, and all of whom recovered. One case of diphtheria in the village of Oakwood and one of diphtheria in the village of Oakwood and One case of diphtheria in the village of Oakwood and One case of diphtheria in the village of Oakwood and Oakwood One case of diphtheria in the village of Oakwood Oakwood One case of the order of th case of diphtheria in the village of Oakwood, recovered. One case of whooping
cough in the village of Manilla, which
case, being complicated with bronchitis,
died. Two cases of mumps are reported,
from the village of Oakwood. The above
is a complete list of all cases reported, and
is, we think, a very favorable showing as
to the sanitary condition of the municipality. Had the sanitary condition of the
neighborhoods in which those cases of
typhold fever occurred been poor, the probabilities are that more cases would have
been reported, and that of a more malignant type and of more fatal results.

Our township being almost purely agricultural in its pursuits, and the farmers
generally in oney circumstances, their
dwellings and outhouses are as a rule
large and commodiously built, yet in one
important particular we frequently find the
dwelling deficient. When creating those
fine, large brick houses special attention
seems to be given to the conservation of
heat, and the very important matter of
montilistics is extrinily constraints. In dura-

ural ventilation of those houses. In building now-a-days every presention is taken to exclude the fresh air and loop the heated six within. The science of ventilation is one well worthy the investigation of our people at the present-day, as living in and breathing the same six over and over quite is a prolife source of many serious discovers.

Your very efficient entitury impactor insmole a thorough investigation of our little villague, and the result is a prestry general reform in the same of a fact of the result is a prestry general.

have, much to their credit, responded to those calls with alserity.

We think it well to remind the board of the fact that only a small proportion of the children, and also, we believe, of the saults, present the security that vaccination brings. We think the subject of some importance, and should not be neglected. Other boards of health are looking into the matter, and some means should be taken in this municipality to remind the parents that it should be attended to. The truth of the importance of this hint would be fully proven were we to have even one case of small pox develope in our midst. It would be well for people to understand that having been once vaccinated at some time in the past does not necessarily give them that security desired, and seven or eight years in the majority of cases is as long as protection remains.

Hoping the few hints in the above may be useful, and the report as a whole may find your approval, I remain, gentlemen, your obedient servant, A. E. VROOMAN, medical health officer.

INDGAR E. CULBERT, L. D. S., SURGEON DENTIST OFFICE—In Brandon's Block, Cannington Nitrous Oxide Gas used.—70-1y.

W.H. GROSS DENTI T. Over 24 Year's Experience.

Mr. Gross has recently introduced the latest and most perfect system of vulcatizing, whereby any variety of Rubber can be hardened without a risk of impairing its sample or injuring its texture. This new process was invented more particularly for its working of BLACK RUBBER, which, being perfectly pure, to secure the best results, requires a more uniform and higher degree of hearthan is attainable by use of the ordinary vulcanizing machine. The investors yet to that has a son's GENUINE ENGLISH RACK RUBBER, hardened by the new vulcatizing process, he can produce one of the best, not the very best, dental plates in the world. Mr. Gross, with this improvement is enabled to make his best, dental places in the world. Mr. cross, with this improvement is enabled to make his Black Rubber Plates, heretofe good, still better than ever. All wearers of Black Rubber plates are delighted with them in fifeial teeth inserted on any kind of plate construction and what is called gold alloy. A set of freeth on the latter in recial for \$8. ing red rubber, and what is calle gold alloy.
